only four hits. Page 17.

## HORATIUS COOLIDGE AT THE BRIDGE

## L. A. Bensinger Killed by Auto; Two Boys Die

(Picture on back page.)  
Louis A. Bensinger, 70 years old,  
proprietor of a chain of billiard pa-  
rors and bowling alleys in Chicago,  
was fatally injured yesterday after-  
noon when he was struck by an auto-  
mobile at Grace street and Sheridan  
road. He died at the Lake View hos-  
pital.

Mr. Bensinger, whose home was at  
3809 Sheridan road, had gone out for  
a walk with his dog about 4 o'clock.  
Both left the east curb and started  
across the street, when a car driven  
by Sigurd Elide, 42, a carpenter liv-  
ing at 1124 North La Salle street,  
struck them. The dog also was killed.

Elide was held by police pending an  
inquest this morning. He said that  
Bensinger walked directly in front of  
his vehicle.

His Start Unsuccessful.  
Born in Louisville, Ky., in 1858, Mr.  
Bensinger came to Chicago in 1876 and  
opened a small billiard parlor on the  
present site of the Majestic theater  
on Monroe street. The business was  
not financially successful, and he dis-  
posed of it. Later he went to St. Paul,  
where he engaged in the real estate  
business with even less success.

The venture ending in bankruptcy.  
Returning to Chicago, Mr. Bensinger  
went into partnership with the late  
Jake Schaefer, for many years a bil-  
liard champion, at 67 West Madison  
street. When that alliance was dis-  
solved, he secured Clarence Green as  
another partner, and they opened a  
recreation place on Clark street near  
Jackson. Eventually the company  
controlled eight such establishments,  
here and in Milwaukee. Several  
months ago Mr. Bensinger retired in  
favor of his son, Norman E. Bensinger.

Mr. Bensinger's nephew, E. E. Ben-  
singer, is president of the Brunswick  
Balke-Collender company.

Mrs. Lillian Bensinger, his wife, and  
Norman, his son, are the only surviv-  
ing members of the immediate family.  
Funeral services will be held Friday  
at 2 o'clock at Roschill cemetery.

Two Boys Are Killed.  
This death and two others during  
the day raised Cook county's 1928 mo-  
tor toll to 309.

Ralph Dodrin, 7 years old, 510 North  
Harrish avenue, was killed when an  
automobile driven by Frank Ciesinski,  
821 West Madison street, struck him as  
he attempted to cross the street at Og-  
den and the California avenues. Ciesinski  
was held by the Marquette police.

Theodore Laake, 3 years old, 4527  
South Mozart street, was fatally in-  
jured last night when he was struck  
by an automobile while playing in the  
street in front of his home. Bruno  
Pembach, 4512 South Mozart street,  
driver of the car, was held.

## THE WEATHER

THURSDAY, MAY 3, 1928.  
DAYLIGHT SAVING TIME.  
Sunrise, 5:43; sunset, 7:51. Moon sets at  
5:50 a. m. Friday. Venus, Jupiter, and  
Saturn are morning stars.

Chicago and vicinity—  
Showers and  
thunderstorms  
Thursday, followed  
by much cooler,  
fresh to strong  
southerly winds,  
shifting to north-  
west; Friday gen-  
erally fair with mod-  
erate temperature.

11 a. m. 73

For 24 hours ended at 8 p. m., May 2:  
Mean temperature, 67; normal, 53; excess  
since Jan. 1, 161 degrees.

Precipitation, none; deficiency since Jan. 1,  
3.53 inches.

(Official weather table on page 30.)

## GALLERY VISITOR HAS HIS INNING IN PARLIAMENT

(Chicago Tribune Press Service.)  
LONDON, May 2.—The staid occu-  
pants of the Conservative benches in  
the house of commons were startled  
tonight to see a man's crumpled suit  
hanging down at their feet from the  
direction of the strangers' gallery.

They were even more startled to hear  
a man's raucous voice from the front  
row of the gallery shouting:  
"Will you shut up, you beggars!"

The cause of the commotion was a  
well dressed man, who immediately  
was seized and dragged out of the  
gallery. The members watched the  
incident with astonishment.

It is understood that the interrupter  
was excited by the debate on the  
chancellor's budget proposals. He was  
detained until the close of the sitting  
and then warned away.

James Simpson Jr. Back;  
Business 'from Ground Up'  
New York, May 2.—(Special.)—  
James Simpson Jr. of Chicago returned  
tonight on the Homeric after seven  
months in Europe, divided between  
honey-mooning and business. He says  
that when he reaches Chicago he will  
start to work in Field's to learn the  
business "from the ground up." His  
bride, the former Alicia Patterson, re-  
turned two weeks ago, but he was  
compelled to remain on account of  
business.

Patent Leaps to Death  
from Hospital Window  
Joseph Bara, 44 years old, 4059  
West 22d street, critically ill of pneu-  
monia, leaped to his death early this  
morning from a fourth story window  
of the University hospital, 432 South  
Lincoln street. He was said to have  
been delirious.

## Nobile Starts Toward Pole in Dirigible

STOLP, Germany, May 3.—(AP)—Gen.  
Umberto Nobile began his second at-  
tempt to fly across the north pole this  
morning when the dirigible Italia was  
started on its way to Spitzbergen at  
3:20 o'clock.

The start, originally set for Wednes-  
day, was postponed because of bad  
weather, and was decided on for this  
morning at midnight when weather  
conditions improved and news of the  
supply ship Citta Di Milano's arrival  
at Spitzbergen was received.

As the cavalrymen pulled the ship  
from its hangar onto the flying field,  
giant searchlights were focused on her  
slivery sides.

Directs Casting Off.  
Gen. Nobile, holding a megaphone in  
his hand, alternately issued commands  
and talked with his wife and daughter  
as the ship was drawn into the open.

Once clear of the hangar, however, he  
bade them farewell and entered the gondola.

The Italia ascended rapidly while  
spectators cheered. The searchlights  
outlined it for a minute as it headed  
northward, but the next moment it  
was swallowed in darkness and shortly  
even its motors could not be heard.

It is 1,700 miles from Stolp to Spitz-  
bergen. An appreciable distance will  
be out from the first lap of the flight,  
however, if the dirigible is landed at  
Vadsbo, Norway, for additional gas  
and benzine. Should the stop be made,  
the flight begun this morning should  
cover approximately 1,150 miles.

To Seek Arctic Land.  
Plans for several flights during the  
spring and well into the summer, from  
a base at Kings Bay, Spitzbergen, have  
been made. One of these is to acer-  
tain if there is any land on either  
side of the route followed by Peary.

Aboard the dirigible is an Italian  
flag which is to be dropped at the  
pole and a wooden cross with a spiked  
base, presented by the pope, which is  
to be fixed in the eternal ice there.

The Italia flew from Milan to Stolp  
April 16, and at that time came near  
destruction when it encountered a ter-  
rific electric storm and headwinds  
which delayed its arrival many hours.

Youth Gored by Javelin  
in Track Team Workout  
Granville, Browning, 17 year, old  
Browning Township High school stu-  
dent, was taken to the Evanston hos-  
pital last night suffering from a wound  
inflicted in his back by a weapon  
used in the modern adaptation of the  
Olympic games of old. The youth was  
working out as a member of the high  
school track team when a javelin,  
hurled by a teammate, pierced his  
back. He will recover, it was stated.  
Browning lives at 321 Main street,  
Evanston.

## GIRL CRITICALLY INJURED AS SHIP DIVES INTO TREE

### Doctor Owner Pilots Without License.

An unlicensed pilot, taking two  
friends with him on a pleasure flight  
shortly after 6 o'clock last evening,  
crashed his airplane into a tree on the  
bank of the Des Plaines river north of  
Des Plaines. The two passengers were  
probably fatally hurt, and the pilot  
suffered severe injuries. The injured are:

Miss Dare Montgomery, 24 years  
old, 1054 George street. She was taken  
to the Belmont hospital and placed  
immediately on the operating table.  
Little hope was held for her recovery.

Eugene Applebaum, 30 years old,  
4924 Melrose street. He was also op-  
erated on at the Belmont hospital. His  
condition was reported critical.

Dr. Milton Weir, 4915 Sheridan road,  
owner and pilot of the plane. He was  
taken to the West Suburban hospital.

Sees Crash From Home.  
The plane took off about 5:30 o'clock  
from the Heath flying field, Touhy ave-  
nue and River road, witnesses said. It  
was next seen about four miles  
north by Carl Galtich, who lives on  
the River road north of Des Plaines.

Galtich said the plane was  
flying back and forth for some time  
and that he noticed that the motor  
would stop now and then. It was at  
a height of about 800 feet when it side-  
slipped, then spun into a nose dive  
and crashed into a large tree on the  
river bank.

Motorcycle Policeman Louis Bier-  
man saw the crash and rushed to the  
scene. He found Miss Montgomery and  
Applebaum unconscious. Dr. Weir  
was able to walk after the acci-  
dent, but later collapsed.

The plane would have fallen in the  
river and the three passengers would  
probably have been drowned, had it  
not been for the tree, Bierman said.

Plane New, Recently Bought.  
Dr. Weir ordinarily housed the  
plane, a new Waco model biplane,  
which he purchased recently, at the  
Municipal airport, 63d street and  
Cicero avenue. On Monday, however,  
he flew it to the Heath field, where  
some repair work on the motor was  
to be done.

Erwin Baumgarth, manager of the  
hangar at the Heath field, said Dr.  
Weir took the plane out last night  
without his knowledge. The physician  
had brought his friends to the flying  
field, it was said.

Miss Montgomery, who came re-  
cently to Chicago from Galesburg, Ill.,  
remarked excitedly a few days ago to  
the relative with whom she resides:  
"My friend, Dr. Weir, has a new  
plane and knows how to fly it. He's  
going to take me up soon."

Has No License, He Says.  
Dr. Weir told Chief of Police Chris  
Wagner of Des Plaines that he was  
not licensed but that he expected to  
get a license from the government  
soon.

He said he had served in the Cana-  
dian air force during the world war  
and had 75 hours of flying, more than  
enough to get a limited commercial li-  
cense. His application is now pend-  
ing, he declared.

In reply to Baumgarth's assertion  
that the plane was taken up without  
his permission, Dr. Weir stated that  
he did not need any one's permission,  
inasmuch as he was not carrying pas-  
sengers for hire, but taking his friends  
for a pleasure ride.

Doctor Tells of Accident.  
"We were about 1,000 feet up," he  
said, "when the plane went into a tail  
spin. The plane has dual controls and  
one of my friends in the front  
seat may have touched a foot control  
of the rudder bar. I cannot conceive  
of any other reason for the tail spin.  
When I saw that the plane would  
crash, I shut off the motor."

Dr. Weir is in charge of the oculist  
department at The Fair store. Miss  
Montgomery is employed in the de-  
partment and Applebaum is owner of a  
radio store.

KILLED BY FALL OF PLANE.  
Sturgis, Mich., May 2.—(AP)—Fred  
H. Newman, 16, of Sturgis, passenger  
in an airplane piloted by Lieut. Gerald  
Smead, a graduate from Kelly field,  
Texas, was killed today when the plane  
crashed at a local airport. Dewey A.  
Gross, 27, another passenger, was se-  
riously injured as was Smead.

Flying Cadet Is Killed.  
San Antonio, Tex., May 2.—(AP)—  
Cadet Irwin Best, 23, of Fremont, N.  
C., was burned to death today when  
the De Havilland plane in which he  
(Continued on page 10, column 1.)

## More Consuls, Italy's Plan to Hold Citizens

BY DAVID DARRAH.  
(Chicago Tribune Press Service.)  
[Copyright, 1928, By The Chicago Tribune.]

ROME, May 2.—Organization of 10,  
000,000 Italians living abroad into  
Fascist groups in order to save them  
for the mother country and dissuade  
them from becoming naturalized citi-  
zens of another country will be given  
renewed stimulus through a reor-  
ganized Italian consular service.

Under the plan announced in Rome  
today, the Fascist consular service will  
be doubled. It will consist of 300 prin-  
cipal offices, including seventy con-  
sulate generals, eighty-eight con-  
sulates, ninety-two vice consulates,  
first class, and fifty honorary con-  
sulates, second class, besides a net-  
work of smaller agencies.

These new agencies will be distrib-  
uted throughout the world, but the  
larger addition will be made in the  
United States, the Mediterranean  
basin, France, and South America.

Will Form Italian Groups.  
According to the announcement,  
these new consular agencies will have  
the twofold purpose of promoting com-  
mercial relations and also to organize  
Italians abroad into Fascist groups to  
save them for Italy.

Under a statute drawn up last Feb-  
ruary by Premier Mussolini personally,  
the Fascist groups abroad will be  
directly under the consuls and diplo-  
matic officers and responsible to such  
government agencies. Many of  
these new consuls will be placed in  
areas where there are large groups of  
Italian emigrants in order to increase  
contacts for political purposes as well  
as to stimulate trade.

Fascists Open About Purpose.  
No concealment is made that Italy  
desires to keep all the 10,000,000 sons  
living abroad as Italians. A com-  
munique to the press says:

"Fascism considers that wherever  
there are Italians abroad there must  
be Italian officials representing them  
and to assist them to maintain their  
tradition, language, and habits, ac-  
cording to the fascist policy, to pre-  
serve for Italy every emigrated Ital-  
ian. Ten million Italians abroad now  
look to their own country with a new  
spirit of confidence.

"These Italians have brought to  
foreign countries inestimable wealth  
by their work and deserve to be pro-  
tected there. Italy must have a con-  
sul wherever she has enemies, and  
enemies of Italy are numerous in va-  
rious parts of the world where fascism  
is badly understood, or not understood  
at all."

New Consulates in U. S.  
The new consular organization has  
already been approved by royal de-  
cree, and forty new officers already  
have been established. The first  
around the Mediterranean has been  
strengthened and in Buenos Aires,  
where many Italians live, the present  
consulate has been raised to a con-  
sulate general.

In the United States new offices  
will be opened at Atlanta, Ga., Hou-  
ston, Tex., Providence, R. I., and Bos-  
ton has been raised to a consulate  
general.

Lionel Atwill, Actor,  
Sues Wife for Divorce  
New York, May 2.—(Special.)—  
Lionel Atwill brought suit for divorce  
against his wife, Alene Mackay Atwill,  
today before Justice Strong. The suit  
was uncontested and Mrs. Atwill did  
not appear. Justice Strong reserved  
decision. The actor named Max Mon-  
tcello, an actor, as co-respondent.

Boy Killed by Baseball  
Bat Playing with Brother  
James Chesnut, 4 years old, died in  
St. Anthony's hospital yesterday after  
he had been accidentally struck in the  
abdomen by a baseball bat that slipped  
out of the hands of his brother, Harry,  
6, while playing in the alley behind  
their home at 2603 West 21st street.

Student Chased Away.  
Clark Tibbets, University of Chi-  
cago student, who was assigned by  
the City club to watch voting at the  
first precinct of the 26th ward, told  
of being forced from this polling place.  
"A Republican judge of election,  
named Pollack, told me I would have  
to leave town if I made a report to  
County Judge Jarecki," Mr. Tibbets  
said. He declared he had protested  
when Pollack desired to "estimate"  
the vote for each candidate, instead  
of counting the ballots. Mr. Tibbets  
continued:

"A man with a gun in his hand  
knocked me down. Later another fel-  
low took me to a back room and told  
me he wouldn't be responsible any  
longer for my safety if I didn't get  
out."

"You're for civic purity, but we  
want to run our business down here  
to suit ourselves," Tibbets said the  
man told him. "Three times today  
the gang has threatened to take you  
out of here. You'd better go quick."

Sends for Coroner Wolf.  
The calling of Morris Eller to the  
stand by Attorney Francis X. Busch,  
acting with Mr. Case in the inquiry,  
prompted Deputy Coroner John J.  
Dedrick to summon Coroner Wolf to  
take personal charge of the hearing.

"I've tried to be fair in this in-  
quiry," Coroner Wolf said to Mr.  
Busch, "and I think you should have  
notified me before calling Mr. Eller  
and some of these other witnesses."

Mr. Wolf added he did not wish  
intermittent bickering and charges  
of "politics" marked the resumption  
yesterday of a coroner's inquiry into  
the killing on primary election day,  
April 10, of Octavius Granady, colored  
Republican candidate for Twentieth  
ward committeeman against City Col-  
lector Morris Eller.

Eller himself was the principal wit-  
ness of the day. He denied placidly  
any knowledge of disorders in his  
ward on election day, or of hearing of  
the Granady slaying until, two hours  
after that event. He said he never  
met Granady personally.

Later his placidity was shaken  
somewhat in denial of charges from  
Attorney Charles Center Case, repre-  
senting the Chicago Bar association,  
that he had proved a "hostile" wit-  
ness, one not much inclined to help  
solve the murder.

Prisoner of Gunmen.  
From the testimony of another wit-  
ness the jury was given its clearest  
simpler so far of the operations of  
organized terrorists on election day.  
This witness, Arvid B. Tanner, 731  
Hinnman avenue, Evanston, one of  
many members of the bar association,  
who volunteered as polls watchers,  
Tanner told of being kidnapped from a  
polling place and held prisoner for six  
hours in a gunmen's rendezvous at  
1352 South Peoria street.

It was the first revelation to the  
jury as to the location of the terror-  
ists' headquarters. That address is  
within a half block of Eller's home.  
The terrorists were operating in the  
ward in the interior of the city.

Tanner said

to conduct an inquest that was "political."

"This is not a political inquest," Mr. Busch replied. "We called on Mr. Eller because he's a city official and we want him to get away as soon as possible."

Coroner Wolff objected when Mr. Eller was asked to name his predeceasing in the Twentieth ward. Mr. Eller did so from memory, revealing that all but three held political jobs.

**Repeats "Politics" Charge.**

"What's the idea of this line of questioning?" Mr. Wolff demanded. "Seems to me you're trying to find out the organization workers of this ward, and what you're really after is to get a party ticket here."

"We believe," returned Mr. Case, "that there's been a conspiracy in the Twentieth ward for the purpose of kidnapping, beating, threatening, and which at least in one instance led to a murder. So that we have a great number of men to identify in the conspiracy, and the charge of murder involves every one in the conspiracy."

"Some of these names," he added, "are going to be mentioned by other witnesses. I make no charge, but we don't want to pass up any clue. We have no political scheme to further. We are here for the fair association."

**Crowe's Aid Seen Politically.**

William H. Rittenhouse, representing the State's Attorney Crowe, interjected that "although such questioning of Mr. Eller has a political aspect, I won't object."

"I've been courteous, have I not?" queried Mr. Case after Mr. Eller had testified he knew nothing of any primary day disorder.

"Yes," Mr. Eller replied.

"Well, then," Mr. Case retorted, "why have you made every effort to avoid my questions? Why have you been a hostile witness?"

"I won't let politics come in here," Coroner Wolff objected. "I'll dismiss this inquest if this keeps up."

"The man who ran against this witness was killed on election day," shouted Mr. Case.

**Knows Terry Druggan.**

Eller insisted he had given the jury all the information he had. He admitted he knew Terry Druggan, notorious bootlegger, as "Terry's" father did some teaming for me fifteen years ago."

Mr. Eller was asked if he knew various other persons, including Sam Kaplan, restaurant owner; Policeman Peter Facelli, brother of State Representative William Y. Facelli; Ben Elson, alias Yanger, business agent for the Master Butchers' association, who was named by Attorney Tanner as a member of the kidnapping gang and who was in custody; Sam Balala, and Jimmy Vinc.

**Changes Factions, Kidnaped.**

Policeman Fred Murphy of Maxwell street station, told of the kidnapping of Attorney Louis Denbo, one time protégé of Eller at the state's attorney's office, but later a Denbo adherent. Murphy said five men, all Italians, invaded the polling place of the Second precinct, 20th ward, at 567 Taylor street, stuck a gun against Murphy's back and ordered Denbo to accompany them. Two hours later Denbo was released, Murphy said.

Mr. Rittenhouse, while cross-examining Murphy, flared up when Mr. Busch addressed a remark to the witness, declaring "I don't testify as much here as you and Mr. Case do."

"You said when you came here that it was your intention to protect the police department," returned Mr. Case, "that's absolutely untrue," Mr. Rittenhouse shouted. "Either you're mistaken or your remark is with malicious intent."

**New Clew Toward Murder.**

A statement made by Police Sergeant Marshall Couch that he found a man said to be a bodyguard of Al Goldberg, Eller's lieutenant, armed with a revolver outside a polling place at 1223 Blue Island avenue where Grandy first was fired upon was introduced by Attorney Case.

This statement, Mr. Case said, is at variance with the original version given by Couch, and Couch was permitted to consult counsel before taking the stand today. Couch in his

## DANIELS REFUSES TO JOIN 3D PARTY BOLT IF SMITH IS NAMED

Raleigh, N. C., May 2.—(AP)—Declaring that the only hope of wresting the government from the hands of "privilege and corruption" lies in a victory for the Democratic party, Josephus Daniels late today telegraphed Wilbur Lagette of California that he would not accept a nomination on a third party ticket if Gov. Smith is nominated at Houston. Lagette, claiming to be state manager for Reed, asked Mr. Daniels if he would run for Vice President with James Reed or William E. Borah.

"Replying to your wire of this date, my answer is that the biggest issue in America today is to wrest the government from the hands of privilege and corruption," the Daniels telegram said. "The only hope for that end is in a victory by the Democratic party. I therefore expect to support the nomination of the Houston convention."

"I expect that convention to declare without equivocation for the sacred enforcement of prohibition and all other laws, and do not believe any man will nominate will be as indifferent, as indifferent, in enforcement, as Mellon has been under the Harding and Coolidge administrations."

"I see no hope in any third party. Enough prohibition Democrats will be elected in congress to guarantee no weakening of prohibition laws. I would not accept a nomination on any third party ticket."

Latest statement, Mr. Case said, admitted that he returned the revolver to the suspect and released him when some one nearby said "That fellow's all right. Let him go."

"I thought the man must be a private detective," Couch is credited with saying. "Later I learned he was Goldberg's bodyguard and was sorry I let him go."

**School Janitor Armed.**

Miss Margaret Tomson, teacher at the Foster school, testified to seeing a loaded revolver in the possession of Joseph Brecklaw, school janitor, on election day. She said he showed her a place on one of his arms where the skin was scraped and said he got it "hitting a Negro." Later she saw Brecklaw, also said, riding with Sam Bardin in an automobile similar to that used by the killers of Grandy.

**Capt. Dan Lynch of Maxwell street station told of receiving reports of three kidnappings, three shootings, and numerous slurrings on election day.**

**MERCURY SOARS UP TO 83 FOR 15 YEAR RECORD**

Chicagoans who had to move about the city yesterday generally doffed the hat, took to the shady side of the street, opened the collar, and mopped the brow, as the sun's rays beat down since 1915, when the mercury went up to 85 degrees. The heat record for May 2 was established at 87 in 1921.

**Doug and Mary Get Soaking in Squall on Mediterranean**

[Chicago Tribune Press Service.]

NICE, France, May 2.—Douglas Fairbanks and Mary Pickford got a ducking today on a fast trip by motor glider from Cannes to Nice. Doug and Mary thought they would take a little spin on the blue Mediterranean, but full off Point Antibes the mistral began to blow, the waves ran high and the movie stars were soaked to the skin by flying spray.

## READ DOOM OF SMITH FOES IN CALIFORNIA ROUT

### Landslide Starts Band Wagon on Way.

(Continued from first page.)

to Walsh. The Democratic leaders of Montana are urging Walsh to withdraw formally from the contest, and the Montana delegates are preparing to desert him and vote for Smith.

A figure even more pathetic than Walsh is McAdoo, who finds himself repudiated by his own party in his own state. Defeated for delegate, he will not even go to Houston.

There is much speculation on the significance of the enormous vote rolled up by Smith in California. It is being interpreted as an indication that the opposition to Smith because of his witness and his religion has been greatly overestimated.

**Smith Victory Is Growing.**

San Francisco, Cal., May 2.—(Special.)—Returns from California's presidential primary yesterday show remarkable results. Returns from 8,090 of the state's 8,753 precincts give:

**Hoover** ..... 348,978  
**Smith** ..... 332,000  
**Reed** ..... 87,388  
**Walsh** ..... 45,573

The tremendous vote given the Herbert Hoover ticket was unprecedented in the history of the state. Another surprise was the big plurality received by Gov. Al Smith, running as a wet candidate, and the collapse of the campaign of Senator Thomas J. Walsh, a dry, by the Democratic faction headed by William G. McAdoo.

The contrast between the total Republican and Democratic vote—more than two to one—is also a feature of the afternoon discussion.

**Walsh Falls to Win County.**

Thus far not a single county of the state has been recorded as giving the Walsh ticket first place, while 149 delegates pledged to Senator James A. Reed, which won second place in the election, claimed the victory in only one county, Imperial. All of the rest of the fifty-eight counties gave Smith the lead.

The McAdoo leadership in this state has been repudiated, and former Senator James D. Phelan, head of the Smith delegation, rules. But Dr. Arthur H. Briggs, California Anti-Saloon league head, declares that "the wet and dry issue was not a determining factor in the Democratic fight, because other issues overshadowed it."

## DELEGATE LINEUP AS GIVEN IN LATEST RESULTS OF CONTESTS

Washington, D. C., May 2.—(Special.)—Delegates elected to the national conventions line up as follows:

REPUBLICAN.		
Insured.	Favorable.	Total.
Hoover	155	211
Lowden	133	70
Curtis	23	4
Norris	23	22
Borah	11	11
Unclassified	..	206
DEMOCRATIC.		
Insured.	Favorable.	Total.
Smith	248	127
Reed	36	40
Pomfret	48	48
Arnes	20	20
Hitchcock	16	16
Unclassified	..	19

Smith total includes 30 Michigan delegates assured by primary result but yet to be named by convention.

## LOUISIANA MAY HAVE 2 SETS OF G.O.P. DELEGATES

New Orleans, La., May 2.—(AP)—An injunction to restrain Walter L. Cohen, Negro controller of customs, and a number of his followers from naming delegates to the Republican national convention at Kansas City next month was denied by Judge Walter L. Gleason in Civil District court here today.

The suit was instituted by M. E. Norman, chairman of the Republican state committee and head of a rival ticket. He announced he would appeal to the Louisiana Supreme court. In the event the matter is not settled in the courts two factions probably will go to Kansas City, where the convention would determine which to recognize.

**Expect Laubenheimer to Be Made U. S. Marshal Today**

Henry C. W. Laubenheimer, Densen Republican committeeman of the Forty-ninth ward, is expected to be sworn in today as United States marshal, succeeding the late Palmer E. Anderson. Capt. Hal Carr of Aurora, for years in charge of the warrant and process servers, is reported to be slated for chief deputy.

**Tennessee G. O. P. Favors Hoover and Tilson Ticket**

Nashville, Tenn., May 2.—(AP)—Tennessee's Republican convention today endorsed the presidential candidacy of Secretary of Commerce Herbert Hoover. It also instructed the state's four delegates at large for Congressmen John Q. Tilson, Connecticut, as vice president.

## FAILS TO HEED BROTHER'S FATE; SENT TO PRISON

Paul Viana, 18 years old, 3000 Parrell avenue, failed to profit by the hanging eight years ago of his brother, Nick Viana, who was brought to justice for his part in several murders and numerous robberies committed by the then notorious Cardinella gang. Paul was sent to the penitentiary yesterday by Judge Frank Combs to serve a one year to life sentence after he had been convicted by a jury of robbing James O'Leary, street car conductor, of \$7.

The jury found him guilty in ten minutes and the judge, at the request of Assistant State's Attorneys Harry Ditchburn and Charles Bellows, imposed sentence immediately.

On Dec. 9, 1920, Paul, then a child of 10, was taken to say a final farewell to his brother, who was executed the following morning. Nick told the boy to follow the "straight and narrow" and not to mix in with gangs. Paul followed one part of the advice. According to the prosecutor, he committed the robbery by himself.

**FOUND DEAD IN BASEMENT.**

Anthony Desoff, 40, of 1933 South St. Louis avenue, was found dead yesterday in the basement of a building at 1237 Washington street. He was believed to have died from heart disease.

## END HEARING ON WESTERN FREIGHT RATE ADVANCES

Eighteen months of Interstate commerce commission meetings and hearings on revision of class freight rates in the western trunk line territory ended yesterday in the Hotel Sherman with the testimony of J. E. Vlien of the Chicago, Milwaukee, St. Paul and Pacific railroad and L. E. Wetling, statistician for the interested railroads, giving final rebuttal in their behalf. The roads contend present rates do not yield the return to which federal law has entitled them.

The hearing have centered in an increase asked on all forms of jobbers' supplies, clothing, foodstuffs, and agricultural implements. Hearings also are being conducted on grain and livestock rates for the western territory. As the hearings closed briefs were ordered filed by July.

Decision from Washington is not expected until early in 1923. The National Industrial Traffic league has been opposing an increase, on behalf of interested shippers.

**CUT TO DEATH BY FARM MACHINE.**

Kinsley, Ia., May 2.—(Special.)—Demand for the farm hand on the Alex Remschneider farm near here, met death today when the four horse team he was driving a pulverizer ran away throwing him under the sharp knives of the machine.

## Colby's present—a series of unusual bargains in quality living-room chairs.

**\$33.50**  
**\$37.50**

Solid mahogany, hair-upholstered armchairs at a low price possible only because the quality covers are remnants. (Frieze, velvet, tapestry, etc.)

Down-cushioned easy chairs of decorative design and a wide choice of fine covers.

## FRENCH PROVINCIAL CHAIRS MADE FOR US IN PARIS

A bargain clearance of gay, quaint chairs of several designs. Some in covers of old quilted French petticoats. Copies of authentic rustic pieces.

# BREMEN HEROES PLAN FLIGHT TO CHICAGO MAY 10

## Decorated by President in Washington.

(Picture on back page.)  
Washington, D. C., May 2.—(Special.)—The German-Bremen crew of the trans-Atlantic plane Bremen—Baron von Huenefeld, Capt. Koehl and Maj. Fitzmaurice—to the United States today.

Whatever the capital's reception may have lacked in clouds of ticker tape and confetti was made up in the importance and dignity of the honorees and the three wherever they appeared during the crowded day which ended late tonight in the reception given for them by Assistant Secretaries for Air Division of the war department, Warner of the navy department and MacCracken of the commerce department.

Program in Strenuous.  
They were welcomed by thousands when they arrived at Bolling field this morning, landed at the White House, decorated with distinguished flying crosses by President Coolidge and warmly received by senators and representatives at the capitol. From the White House luncheon the flyers were taken to Arlington national cemetery, where they laid wreaths on the tomb of the unknown soldier.

In the midst of all the bustle they found time for a twenty minute chat with newspaper men, during which they confirmed reports of their plans for a westward flight to include visits to Chicago, Philadelphia, Detroit, St. Louis and Ottawa, Ont., before they return to Europe as they came to air.

To Be in Chicago May 11.  
According to the present tentative schedule the flyers will make Chicago the first stop on their itinerary, arriving there on May 11.

The itinerary follows: Wednesday, May 9, reception in Philadelphia. Thursday, May 10, flight to Chicago. Friday, May 11, reception in Chicago. Saturday, May 12, rest. Sunday, May 13, flight to Milwaukee. Monday, May 14, flight to St. Louis. Tuesday, May 15, reception in St. Louis. Wednesday, May 16, flight to Detroit. Thursday, May 17, reception in Detroit. Friday, May 18, flight to Boston. Saturday, May 19, flight to Boston.

Substitute Plans for Emergency.  
In case of incapacity of the trans-Atlantic plane Bremen the flight will be made in the Junkers monoplane No. 12, which is in type and all important features similar to the machine used in the historic flight from Berlin via Dublin to Labrador.

According to the announcement made at the German embassy tonight, the "new" flight will be made in the Bremen if it is not incapacitated.

Welcome at Bolling Field.  
Today was the second visit of Von Huenefeld, Koehl, and Fitzmaurice to Washington. They came first last week—officially—to pay tribute to the memory of Floyd Bennett.

Honors last night caused them to abandon plans for a flight from New York to Washington, and they arrived here early this morning by train. Shortly before 10 o'clock they left their suite in the Mayflower hotel and went to Bolling field to be formally welcomed to the capital by Secretary of State Kellogg.

Nearly three thousand persons, including most of the diplomatic corps, several cabinet members, many senators and representatives and scores of government officials and high ranking army officers, had gathered in the field.

Notables in Receiving Line.  
Col. Charles A. Lindbergh, Eddie Rickenbacker, America's premier war hero, and Lieut. Eric Nelson, pilot of the army world flight plane, New Orleans, were on the official welcoming party which included Secretary of State Kellogg, the German ambassador, the Irish Free State minister and Assistant Secretaries Davidson, Warner, and MacCracken.

The official greetings over, the distinguished group stood at attention in the center of the clubhouse while the band played "The Star Spangled Banner," "Deutschland über Alles," and the Irish national anthem.

A squad of motorcycle police piloted the visitors through the city back to the Mayflower hotel for a minute's rest before they were presented to President Coolidge at the White House to receive the distinguished flying crosses—given to foreigners today for the first time.

### Back Home Excursions

# TYPICAL BOY

A reward of \$50 for the identification among Chicago boys of a boy whose picture was found in a filing cabinet of the Boys' Week federation, was announced yesterday by Bernard C. Roloff, executive secretary of the Boys' Week association. The lad, who is minus a few teeth but who has plenty of smile, was chosen by the federation as the "typical boy" for the observance of Boys' Week in Chicago, May 12-19.

Inquiries should be addressed to Boys' Week headquarters, 25 North La Salle street.

# PAROLE SOUGHT BY JACK DURAND; HEARING TODAY

Jack Durand, foster son of Mrs. Scott Durand, wealthy society woman of Lake Bluff, will go before the board of pardons and paroles with an application for a parole today at the new Stateville prison, near Joliet, where he has just finished serving the three years of his three to twenty years' sentence for robbery.

Young Durand was convicted in Waukegan of robbing the home of F. Edson White, president of Armour & Co., in Lake Forest. Mrs. Durand, who has been active on behalf of the boy, is expected to go before the board and plead for his release.

# Attempt Is Made to Kill Wife of Union Official

When James D. Ryan, secretary of the Sheet Metal Workers' union, arrived at his home at 5601 North Avenue, shortly after 12 o'clock this morning, he learned from Mrs. Ryan that unknown persons had attempted to assassinate her during the afternoon by firing upon her through a parlor window at which she sat reading. Mr. Ryan said he could attribute the shot only to some one who might have a grudge against him because he is a union official. He said the bullet whizzed within an inch of Mrs. Ryan's head.

# Tidal Wave Kills Many Natives in Madagascar

PARIS, May 2.—(AP)—Advices reaching Paris today said that numbers of natives were killed and great damage done by a tidal wave which swept the east coast of Madagascar April 20.

# ATTACKS PUBLIC APATHY AT RITES FOR SLAIN GIRL

## Pastor Puts Blame on Lax Enforcement.

(Picture on back page.)  
Lax law enforcement in Cook county was a contributing factor in the murder of Miss Pearl Eggleston, 17 year old usher, during a holiday Sunday night of the Ritz theater, Berwyn, it was asserted yesterday by the Rev. Robert J. Devine, pastor of the Madison Street church, who conducted the girl's funeral at Garwood's chapel, Oak Park.

Public and official apathy toward major crimes must be blamed for the conditions which allow them to take place, he said. He termed the killing of Miss Eggleston one of the foulest of murders.

Crimes Firmly Rooted.  
"If it were possible that the murder of this innocent girl could result in a cleanup that would make similar crimes impossible, then her death would not be in vain," he declared. "But I fear that is impossible. Lawlessness is too firmly rooted."

A crowd of several hundred jammed the funeral parlors and for a time waited at the cemetery. Mayor Frank J. Janda of Berwyn attended the service with a body of aldermen. A police escort from Berwyn, Cicero, Oak Park, Chicago, and Berwyn. Clamates of the dead girl from Proviso Township High school acted as pallbearers.

Partial identification of a youth arrested early yesterday by witnesses at the murder resulted in his detention for further investigation. Early this morning it was announced that he would be booked on a charge of disorderly conduct. He is Daniel Rooney, 24, a city boiler inspector, and was picked up in a saloon at 413 South Kedzie avenue.

Resembles One of Bandits.  
James Bina and Ernest Steiner, employees of the theater, first looked at Rooney and said that he answered the slayer's description in a general way. In the afternoon Miss Gertrude Frantz, the theater cashier, looked at Rooney. "I'm not certain he is the man," she said. "He looks like him, but the man who killed Pearl was masked. I can't say positively that he is her murderer."

Two sisters and another man found in Rooney's flat at 6306 West Van Buren street are also being held. They are Sam Messers, 25; Madeline, 19, and Yvonne La Fleur, 21, of 3515 West Washington boulevard. Three other men seized in the loop could not be identified by any of the witnesses.

Fail to Identify Pair.  
Efforts of the police to identify Jack "Fuzzy" White, 33, of 4701 Clyde avenue, Berwyn, and Jack Sher, 37, of 1305 South Central avenue, as slayers of Miss Eggleston also failed. The two men were viewed at a Desplaines street station shown by Miss Plant and by Steiner, but neither could identify them. They were held for further questioning at the detective bureau.

Joseph Lohr, manager of the Pantheon theater in Berwyn, denied rumors that he had been threatened by telephone he would be "bumped off" if he did not stop his activities in raising a fund among Berwyn business men as a reward for the capture of the slayers.

# REPORTED DYING

**WILLIAM D. HAYWOOD.**  
(Copyright: 1928: By the New York Times.)  
MOSCOW, May 2.—William ("Big Bill") Haywood was again taken seriously ill here today. He had an apoplectic stroke yesterday afternoon at the Kremlin hospital and for a time was not expected to live through the night. He rallied and was reported out of immediate danger today. Doctors say he may live several months or may die suddenly, but that a cure is hopeless.

# MECHANICS ON WAY TO PREPARE FOR OCEAN HOP

BERLIN, May 2.—(AP)—The plans of Lilli Dillens, the Viennese actress, and her pilot, Johann Histic, for a flight across the Atlantic in the Junkers plane Europa, advanced another step today with the departure for Baldoon, Ireland, of the same engineer and mechanics who put the Bremen in shape for the successful adventure of Baron von Huenefeld and his companions. An Ireland-bound ship also carries the necessary benzol and oil for the Europa.

Asked whether she might not at the last moment fly the southern course, via the Azores, Miss Dillens said: "Not on your life! I don't ever want to see Horta again," referring to her unsuccessful adventure of last year when she was a passenger on the Junkers trans-Atlantic attempt which ended at Horta.

Miss Dillens is still undecided whether to take a radio operator along.

**Los Angeles Leaves Its  
Hangar for Training Spin**  
Lakewood, N. J., May 2.—(AP)—For the first time since its return here from a flight to the Canal Zone, the naval dirigible Los Angeles left the hangar tonight for a training and post-flight flight. The ship was in charge of Lieutenant Commander Charles E. Rosendahl and carried 48 officers and men.

**Sighted Over Ocean.**  
Atlantic City, N. J., May 2.—(AP)—The navy dirigible Los Angeles passed over the ocean two miles out at 11 o'clock tonight. Her motors could be heard and her lights observed from the Boardwalk.

# HOUSE KNOCKS OUT CROP FEE IN SURPRISE VOTE

## Displaces Haugen Bill for Substitute.

(Chicago Tribune Press Service.)  
Washington, D. C., May 2.—(Special.)—Advocates of the McNary-Haugen farm relief bill encountered an unexpected setback today in the house. By a vote of 141 to 126 the house, in committee of the whole, approved a complete substitute offered by Representative Arwell (Dem., La.).

The substitute was identical with the McNary-Haugen bill except that all references to the controversial equalization fee were eliminated.

In effect the vote was a direct cast on the equalization fee regarded as the essential feature of the McNary-Haugen bill, and the corn belt group met defeat.

Will Demand Roll Call.  
The result was not accepted by the corn belt leaders as decisive. They were confident that when a roll call is permitted there will be a reversal of today's action. The count today was first by a rising vote and then by tellers, roll calls not being allowed in the committee of the whole.

A roll call in the house proper will bring out a larger attendance and the equalization fee may be restored. Opponents of the fee provision were highly elated over the outcome and were confident that they would be able to hold the ground thus gained.

Represents Administration View.  
The Arwell substitute represents substantially the administration program. It provides for the appointment of a federal farm board consisting of the secretary of agriculture and twelve members, one from each of the twelve federal land bank districts. Provision is made for the appointment of commodity advisory councils by the farm board.

The farm board is authorized to make loans from a four hundred million dollar revolving fund to cooperative associations. Such loans are to be for the purpose of assisting in controlling crop surpluses.

When the board finds that such loans are not effective in controlling surpluses it may make marketing agreements with cooperatives by which they will withhold a crop surplus from the market until such time as it can be marketed either in this country or abroad without affecting prices.

The Arwell substitute provides that

# PROMINENT WOMEN RESIGN FROM D. A. R. AS "PATRIOTIC" ACT

New Haven, Conn., May 2.—(AP)—Mrs. Joseph Whitney, widow of the late Judge Erwin B. Whitney, and Mrs. William Lyon Phelps, wife of Prof. Phelps of Yale, today resigned from the Daughters of the American Revolution. In a statement, referring to the recent troubles in the organization, they said that it was "time to resign to protect our patriotism."

Mrs. Whitney has been active for many years in women's politics and is an alderman. Mrs. Phelps has been active in the Colonial Dames and the League of Women Voters.

Mrs. Whitney was a member of the Eva Lear chapter. Nine others from this chapter and from Mary Clapp Webster chapter, including Mrs. Irving Fishel, also tendered their resignations.

any losses shall be met from the revolving fund. The original bill provided for the payment of losses by the collection of an equalization fee from the entire production of a commodity.

# Aunt of Bremen Pilot to Fly Here from Quincy

Peoria, Ill., May 2.—(Special.)—Mrs. Elizabeth Blum, 73 years old, an aunt of Capt. Hermann Koehl, German pilot of the plane Bremen in its Atlantic crossing, will make her first flight on Saturday. She will take off from here for Chicago, where she will greet her nephew on his arrival May 11 with Maj. James E. Fitzmaurice and Baron von Huenefeld.

## ACTS TO FORCE BUS SERVICE FOR NORTHWEST SIDE

Ald. McDonough Calls a  
Meeting for Monday.

BY OSCAR HEWITT.

Feeder buses to the surface lines which would serve 70,000 to 80,000 residents of the northwest side, and which have been held up for two years, will be discussed at a special meeting of the council local transportation committee which has been called by Chairman Joseph B. McDonough for next Monday.

Aldermen, six or seven years ago, expressed conviction that the surface lines could not finance extensions and that the hope of relief lay in feeder buses.

An ordinance for a feeder bus line on Diversey avenue between Crawford and Cicero avenue was passed in 1923. Two years elapsed before a hearing was completed before the Illinois commerce commission, and a certificate of convenience and necessity was granted in 1925. The Chicago Motor Bus company opposed this permit and is now contesting the right of the surface lines in the courts.

### Five Other Ordinances.

In 1926 five other ordinances for feeder buses were introduced by Ald. Thomas J. Bowler. These provide for feeder buses on Addison street between Broadway and Harlem avenue, on Elston avenue between Lawrence and Milwaukee avenues, on Northwest highway between Milwaukee avenue and city limits, on Irving Park boulevard between Narragansett and Harlem avenues, and on Central avenue between Grand avenue and Higgins road.

These ordinances which were prepared by the corporation counsel's office went to committee, but no action was taken until six months ago when they were passed by the city council unanimously. The rights under them were made to expire Jan. 31, and when the Illinois commerce commission met the first week in February the ordinances had expired.

The Motor Bus company has applied for the privilege of operating in these same streets, with a fare of 10 cents and no transfers through the city. The fare on the buses of the surface lines is 7 cents cash with free transfers on any street car.

Again more ordinances were prepared by the corporation counsel's office, and expired at the end of the month; but the company could not get buses on the streets before their right to operate them expired.

Vetoed by Mayor. Then the surface lines and the Illinois commerce commission prepared some ordinances which granted the surface lines the same right to operate buses as they have to operate street cars under extensions of the 1907 ordinance. These passed the city council unanimously; but were vetoed by the mayor, on the ground that they did not fully protect the city.

Another set of ordinances was drawn by the corporation counsel's office, and passed the city council unanimously; but these have been referred back to the local transportation committee for some reason not obtainable yesterday.

These ordinances are to be taken up next Monday. More than sixty im-

## LIFE FOR PINT?

provement, civic, and business organizations are clamoring for their passage.

"We're going to have some action, one way or the other, at that meeting," said Ald. Bowler yesterday. "I have been stalled long enough. We will have the lawyer for the surface lines and a lawyer from the corporation counsel's office there, and they will agree or disagree, if I have to lick them both. I'm going to find out who is denying my people transportation, and I'm going to put the blame on that side, unless they agree. No excuses will go with me on Monday."

## 30 INJURED IN MEXICAN WRECK; REBELS BLAMED

(Chicago Tribune Press Service.)

GUADALAJARA, Mexico, May 2.—A loosened rail caused two second class coaches of the Mexico City-Guadalajara train yesterday to leave the tracks near Ocotlan, state of Jalisco. More than thirty persons were injured. The military authorities express the belief that rebels removed spikes from the rail.

Three weeks ago rebels burned three bridges north of Ocotlan, interrupting traffic for several days. Last July they dynamited a southbound train, killing forty-five passengers.

## MAYOR MOVES TO CITY HALL; ONE YEAR LATE

Spends First Full Day at  
Office Since Election.

Mayor Thompson has moved into the city hall. For the first time since his election in April, 1927, the mayor spent nearly a full working day in the office provided for him by the taxpayers. He has spent most of his time at his Hotel Sherman headquarters, going to the city hall only for council meetings and receptions.

Among his closest friends it is believed that Mr. Thompson now purposes to use his office for a while. Corporation Counsel Ettelson said he has never recognized the charge that the mayor has been away.

It was just before noon when Mr. Thompson, cowboy hat in hand and biting a big cigar, walked into the hall, took an elevator to the fifth floor, and entered his office.

City Hall Staff Is Stirred.

"Wasn't that the mayor?" ejaculated the elevator operator. "That was him, all right," a clerk in the car replied. "Is there a council meeting today?"

Word of the mayor's arrival spread through the hall and a group of curious persons gathered outside the office to see if it were true.

One of the first visitors was Oscar D. Priest, selected to fill the Martin B. Madden vacancy on the Republican congressional ticket. He was accompanied by Bishop Archibald Carey, member of the civil service commission. The two colored leaders conferred with the mayor for almost an hour. Others gaining access to the inner office were Corporation Counsel Ettelson and Richard W. Wolfe.

Returns to Hotel Suite.

The mayor left about 4 p. m., recrossing the street to the Sherman where he ascended to his bedroom office suite on the 16th floor. Mr. Thompson took the hotel suite just before his election. During the year he has been known to come to the city hall, except for council meetings, only four times. The first trip was for his inauguration, and the others were to greet Gene Tunney, Lindbergh, and Prince William of Sweden.

## Party Conventions Approve Coalition Slate of Judges

BY PARKE BROWN.

Republican and Democratic county judicial conventions yesterday ratified the so-called coalition plan of their leaders. Each nominated the six judges of the Superior court who are up for reelection—three from each party—and named Municipal Judge Robert E. Gentzel for the vacancy caused by the death of Judge Hoese W. Wells.

The next step is the decision as to which party column is to be chosen for the fusion slate. That is to be left to the seven candidates themselves. It was indicated. As the Republicans are in the majority, it has been hazarded generally that the Republican column will be chosen. But the Democratic leaders are holding back and therefore there is a chance that there will be four candidates in the Republican column and three in the Democratic.

Eye Bar Association Action.

This may depend to some extent on the action of the Chicago Bar association which still is considering running some nonpartisan candidates. If independent are filed, splitting the fusion ticket between two columns might be considered as weakening it.

The Democratic convention was as smooth as a mill pond, but in the Republican meeting the Deneen group of ward committeemen, backed by a considerable number of precinct committeemen from the country towns, kept things lively for some time with a demand for the nomination of an all-Republican ticket. They were voted down overwhelmingly by the Thompson-Crowe majority.

Reid Leads Deneenites' Fight.

This battle was led by Leonard Reid, Deneen committeeman from the 15th ward. He presented an anti-coalition resolution declaring that there is no need for such a bi-partisan arrangement at this time and that the same method of operation has been used in the past for hand-picking judges instead of allowing them to be chosen by the voters.

Instead of such judges being kept out of politics, the resolution said, "they were in fact so closely drawn in that they became associated with and were subject to the will of politics—all to the detriment of the administration of justice and good government."

The regular slate, presented by B. W. Snow, included in addition to the four Republicans Judges Walter P. Steffen, Jesse Holdom, and Worth E. Caylor for full terms, and Judge Gentzel for the short term—the three Democrats up for renomination, Judges John J. Sullivan, Martin M. Gridley, and Joseph Sabath.

The Reid resolution proposed to substitute for the three Democrats, Charles M. Thomson and Oscar M. Torrisson, former judges ousted by the coalitionists last year, and Municipal Judge Daniel P. Trude for full terms and to name Ald. E. I. Frankhauser for the Wells vacancy.

Slate Wins by Big Vote.

When the roll was called the vote was registered for "Snow's candidates" or "Reid's candidates," and the official count showed 642,249 for the former and 161,999 for the latter, each ward and precinct committeeman having a voting power equal to the number of votes cast in his territory in the primary of April 10.

Beyond this voting the only business transacted was the adoption of an American Legion resolution presented by County Commissioner John W. Gibson endorsing the creation of a war veterans' cemetery. The proposition is to be submitted to the voters at the judicial election.

"America First" Missing.

The only other features of the session were of a negative character. Mayor Thompson was not present and his "America First" and "Draft Coolidge" platform was not mentioned. With silence on the latter subject the Deneen people withheld their anti-coalition plank which had been a cause of worry.

The Democratic organization put through its program without a dissenting whisper. In addition to adopting the American Legion resolution it also approved another denouncing the present high taxes. This was presented by Thomas D. Nash, nominee for the board of review. It called on Edward R. Litsinger, Nash's Republican opponent, to explain why the burden of taxation is inequitably distributed.

## ASK PRIMARY IN FILLING MADDEN UNEXPIRED TERM

Between 2,500 and 3,000 Negroes of the First congressional district have signed a petition urging Gov. Len Small to call a special primary in connection with the judicial election on June 4 for the nomination of candidates for the unexpired term of the late Congressman Martin B. Madden. The petition is to be presented to the governor tomorrow.

## MURDER JUROR TO FACE COURT FOR CONTEMPT

He Says Robbers Carry  
Guns as Bluff.

CRIMINAL COURT.  
Paul Viana, robbery, sentenced to 1 year  
to life in Pontiac reformatory by Judge  
Connerford.

Lawrence O'Toole of 1455 West Seventy-first street, juror who forced a compromise verdict, giving 25 years each in prison to five youthful slayers, will have to answer a contempt of court citation in the Criminal court before Judge Harry B. Miller.

That was announced yesterday by Assistant State's Attorneys Charles Dougherty and Samuel Hoffman. That citation will not be based on his insistence for a 14 year sentence in the face of demands for the death penalty voiced by some other jurors, but on the charge that he failed scrupulously to answer all questions as to his qualifications for jury service.

Investigators were set to work yesterday looking up O'Toole's past career and associates. In the jury room he told his fellow jurors that he had spent five days in police custody, but when questioned by Judge Miller after the verdict, he said he was only held 3 days. He said he had elaborated that fact to influence his associates for the verdict he wanted. The status of the youths varies now.

Three of the defendants, Stanley Lucas, 18, 1529 West 17th street; Michael Cio, 22, 1757 West 47th street; and Roman Balczonak, 18, 2325 Winchester avenue, have withdrawn their motions for a new trial.

Answers Six Prosecutors.  
O'Toole made some answers when questioned yesterday that aroused the curiosity of the two prosecutors in the case.

"This is a free country," O'Toole said. "If a fellow wants to go out and pull a stickup and gets away with it, that is all right. If he is caught, he should be punished, but not for murder. I do not think the boys intended to shoot the grocer. He would not have been shot if he had minded his own business and not tried to resist."

"Why do you suppose holdup men carry revolvers if not for the purpose of killing their victims if they resist?" Mr. Hoffman asked.

"To scare people," O'Toole replied. "They would not shoot if they were not resisted."

Judge Miller, in ordering the citation prepared against O'Toole, declared that it was to teach citizens that jury duty is sacred and questions as to their qualifications to serve as jurors must be answered truthfully.

Calls Wrong Answer Contempt.  
"If a juror fails to answer the questions as to his qualifications truthfully, that, in my opinion, is contempt of court," the judge said. "It is of the utmost importance that all men called into the jury box should answer all questions honestly so that justice may be done."

"It would be a deplorable condition if men summoned for jury duty considered their oath lightly, and dishonest answers easily would lead to injustice."

## CLARA KNAPP ON WAY TO TESTIFY AT ALBANY AGAINST STEPMOTHER

New York, May 2.—[Special.]—Clara Blanche Knapp, the missing star witness for the prosecution in the trial of her step-mother Mrs. Florence E. S. Knapp, former secretary of state, will be in Albany tomorrow morning and the trial was resumed today on the original indictment.

Her failure to appear yesterday held up the proceedings, threw the court into confusion, and arrangements were made to try Mrs. Knapp on one of the other twelve indictments, charging her with theft and misappropriation of 1925 state census money.

George Z. Medalla, the special prosecutor, however, received a telegram from Miss Knapp early today, saying that she had decided to come to Albany to testify, as she had originally promised. The telegram was sent from Chicago.

## 10,000 Are at Opening of Swedish Festival

The first annual national Swedish festival, attended by more than 10,000 persons, opened last night at Broadway armory, 5875 Broadway avenue, with all the color that Swedish costumes and customs could make possible. The festival, which will be held again tonight, is for the benefit of the Swedish Tubercular sanatorium in Denver. There were exhibits of Swedish foods and clothing imported especially for the occasion, and entertainment, essentially Swedish, including a band from Sweden and folk dances by Swedish girls. At the close of the festival tonight, the Queen of the May will be crowned.

## \$4,000 OFFERED TO BRIBE DRY AGENTS SEIZED

Raiders Get Liquor Near  
Church.

"The way of the transgressor is hard, the Bible states, and it seems to me that the work of enforcing laws is no cinch," George E. Golding, chief of the special prohibition agents, mused yesterday as he reflected on the confiscation of \$4,000 offered as bribes. Agents yesterday raiding premises used by a church found a larger still in the same place than had been removed two weeks ago.

Raiding a two story building at 74th avenue and 66th place, Argo, dry agents led by Golding confiscated a still of 150 gallon capacity and arrested James Costello, Dominic Solena and Anthony Manjello. Two weeks ago the agents located a still in the same premises and arrested Costello, who was freed on bond.

Andrew Doljes was arrested as the owner of an old fashioned bar set up on the first floor at 2301 West 23d place, the upper floors being used as a church. Doljes was also alleged to have offered Agents Joseph Treglia and Donald L. Koonen a bribe of \$200. A quantity of assorted liquors were confiscated in the place.

Golding announced that his office has completed 150 cases in which in-

## FIRING OF CITY DOCTORS BRINGS MANY PROTESTS

Dismissal of fifty city physicians and nurses who had been assigned to health inspection work in the schools brought a flood of protest yesterday to Health Commissioner A. H. Kegel from women's clubs and civic organizations.

The group of employees were paid by the municipal tuberculosis sanatorium prior to May 1, when they were shifted to the health department. Because of the corporate fund shortages, they were fired.

Delegations from the Illinois Federation of Women's clubs and the Parent-Teachers' association called on Dr. Kegel to urge the necessity of continuing the inspection work. He also received numerous indignant telephone calls and a handful of letters.

The commission explained that there is nothing he can do to have the inspectors reinstated. Although Mayor Thompson has promised to ask the M. T. S. board to pay them until Jan. 1, Dr. Kegel, who is a director of the sanatorium, said that it now appears that the money cannot be spared.

## Padlocks Will Be Sought Today for Four Night Clubs

Padlock proceedings against the Rainbo Gardens, Midnite Frolics, Parody club and Ansonia cafe will be called today before Federal Judge Walter C. Lindley. Padlocks have been applied to the Club Bagdad, Hollywood Barns, and Plantation cafe on the basis of observation evidence gathered during a drive to dry up night life centers.

DIES OF FALL FROM WINDOW.  
John Zolotorski, 40, of 3116 West 42d street, died at the county hospital yesterday of a fractured hip and internal injuries suffered on April 23, when he jumped or fell from the second floor window of his home. Police said he had leaped with suicidal intent.

## FIRING OF CITY DOCTORS BRINGS MANY PROTESTS

Dismissal of fifty city physicians and nurses who had been assigned to health inspection work in the schools brought a flood of protest yesterday to Health Commissioner A. H. Kegel from women's clubs and civic organizations.

The group of employees were paid by the municipal tuberculosis sanatorium prior to May 1, when they were shifted to the health department. Because of the corporate fund shortages, they were fired.

Delegations from the Illinois Federation of Women's clubs and the Parent-Teachers' association called on Dr. Kegel to urge the necessity of continuing the inspection work. He also received numerous indignant telephone calls and a handful of letters.

The commission explained that there is nothing he can do to have the inspectors reinstated. Although Mayor Thompson has promised to ask the M. T. S. board to pay them until Jan. 1, Dr. Kegel, who is a director of the sanatorium, said that it now appears that the money cannot be spared.

## Padlocks Will Be Sought Today for Four Night Clubs

Padlock proceedings against the Rainbo Gardens, Midnite Frolics, Parody club and Ansonia cafe will be called today before Federal Judge Walter C. Lindley. Padlocks have been applied to the Club Bagdad, Hollywood Barns, and Plantation cafe on the basis of observation evidence gathered during a drive to dry up night life centers.

DIES OF FALL FROM WINDOW.

## SOUTH CHINESE MASSSED FOR NEW DRIVE ON PEKING

Face 100,000 Troops of  
Northern War Lord.

BY JOHN POWELL.

(Chicago Tribune Press Service.)  
[Copyright: 1928: By The Chicago Tribune.]  
SHANGHAI, China, May 2.—Gen. Chiang Kai-shek, generalissimo of the South Chinese nationalists, today removed his headquarters to Tsinan, capital of Shantung, in order to assume the personal direction of the final drive against Gen. Chang Tso-lin, North China's dictator, and his capital, Peking. Gen. Chang has mobilized nearly 100,000 men in the vicinity of Tachow, on the Tientsin-Pukow railway along the Chihli-Shantung border, where a large northern arsenal is situated, and then ext. fighting is expected in that area.

According to reports from Peking, the occupation of Shantung by the southerners has produced panicky conditions. Gen. Chiang called a hurried conference of his subordinates and decided immediately to withdraw his troops from Shant and southern Chihli in order to defend his position in Peking and Tientsin. Another Peking report says the northern armies in Shant have been defeated.

The nationalists say that Gen. Chang really is preparing to evacuate Chihli province rather than risk another battle with the southerners, fearing that a defeat might prejudice his position in Manchuria. He is reported to have sent his family to Tientsin.

Agree to Reopen Railway.

Japanese reports from Tientsin to-night state that following a conference between the Japanese officials and the nationalists, the latter agreed to open the Shantung railway, permitting Japanese troop trains to operate between Tientsin and Tsinanfu.

The Japanese are dispatching three trains in order to relieve the Japanese garrison of about 2,000 men, which has been cooped up at Tsinanfu, completely surrounded by about 100,000 nationalist troops for the past two days. The Japanese announce their intention of evacuating their women and children as soon as the railway is open.

Keep Up Boycott Agitation.

While the tense situation between the nationalists and the Japanese is somewhat relieved, the Chinese organizations here are continuing the anti-Japanese agitation. The Chinese consider that the victory over the southerners in Shantung also amounts to a victory over the Japanese, whom the nationalists look upon as allies of Gen. Chang Tso-lin.

**BODY OF INFANT IS FOUND.**  
The body of an infant baby boy, wrapped in a white newspaper, was found by Alton Park police in the rear of 4139 North Wabash street yesterday.

## MOSCOW PLANS MILITARY SHOW FOR AFGHAN KING

(Copyright: 1928: By The New York Times.)  
MOSCOW, May 2.—King Amanullah of Afghanistan will arrive in Moscow tomorrow and will be received by Kaulin, Rykoff, and the principal soviet leaders.

The program of the king's visit is still vague because, although it is understood he wishes to study soviet education, health, factory, and workers' welfare systems, nothing can be definitely settled until he has had time to express his own preferences.

It is understood that it is planned to show him a repetition of the military part of yesterday's May day parade in Red square, a display of man power dwarfing anything he has yet seen.

Depart for Moscow.

WARSAW, Poland, May 2.—(P)—Amanullah Khan and his queen depart this afternoon for Moscow after their three-day visit here. Amanullah placed a large order for silver plate after visiting a factory where it is manufactured. Felice Sawicka, a manicurist, who attended the queen and her ladies in waiting, pleased the queen so much that she engaged the girl for the post of court manicurist at Kabul.

**EDMUND LIVES WHILE DESPONDENT.**  
Edward Blackwell, 67, of 221 West 68th street, who fired a shot into his head while despondent on April 16, died yesterday in the county hospital.

## HERESY FIGHT NIPPED IN BUD AT M. E. MEET

Kansas City, Mo., May 2.—[Special.]—The Methodist general conference in session here today showed that it had no intention of beginning a heresy stunt just now. Dr. Harold Paul Sloan of New Jersey, the church's doctrinal stormy petrel, presented a huge petition, containing some 30,000 names, and asked, in the name of the petitioners, for a thorough inquiry into the charges he brought against the church's doctrine. The address dealt somewhat with the Methodist idea, saying that every advance in scientific knowledge is to the glory of God, and the preacher is not called upon to criticize the scientist.

"If the preacher assumes to answer every adversary of Christianity, he will make the place a battlefield instead of a sheepfold," the bishops reported.

The conference, by a vote of about

four to one, declined to order the inquiry, and the matter was dropped for the time. Dr. Sloan will not accept this as a final defeat, and declares his intention of insisting on a revision of the course of study for young ministers, which contains, in his opinion, a number of dangerously heretical books.

Bishop Wilson Stricken.

The other notable incident of today's session was the reading by the aged Bishop Luther B. Wilson of New York of the Episcopal address to the conference. He was not able to complete the reading and almost collapsed at the desk. After a little he recovered sufficiently to be taken to his hotel. Bishop Richardson of Atlanta finishing the address.

The address dealt somewhat with the Methodist idea, saying that every advance in scientific knowledge is to the glory of God, and the preacher is not called upon to criticize the scientist.

"If the preacher assumes to answer every adversary of Christianity, he will make the place a battlefield instead of a sheepfold," the bishops reported.

"You have the right to insist and

expect that the preacher will be intellectually and spiritually loyal to his task, but you must not attempt to fetter him either with the bonds of an arrogant mechanistic philosophy or with those of a despotic traditionalism."

In urging the duties of citizenship, the address said that a clean ballot, fearlessly cast, was a sure cure for "civic anemia, legislative astigmatism, and judicial locomotor ataxia."

When on the subject of church union, the Episcopal address expressed no hope of union on the basis of Roman Catholic or Anglican claims, and the recently reported scheme of a union of the Methodists and the Presbyterians was not mentioned at all.

Prepare for Best Trial.

The conference today approved a court of 17 members to try Bishop East of Copenhagen on charges arising out of his conviction in civil court of misusing church funds. The Rev. Fred S. Stone of Chicago was chosen prosecutor.

Dr. Orien W. Fifer of Indianapolis was elected chairman of the episcopacy committee.

## COMPLAINING WITNESS FACES CONTEMPT CASE

P. N. Nathier, owner of a hardware store at 5205 West Chicago avenue, who was the complaining witness last week in a petty larceny case before Judge Francis Borrelli in the Fillmore police court, yesterday found himself a defendant in the same court, accused of contempt of court.

Nathier said he caught John Gibson of 1929 South 12th avenue, Maywood, stealing two rolls of fence wire from his store on April 15. Gibson wanted to pay him for the wire, but he refused and caused Gibson's arrest. After a continuance, Gibson was placed on probation by Judge Borrelli after he had pleaded guilty.

Nathier, the judge was told, commented that the court had been "fixed." Nathier denied this, but a policeman testified that he had heard the comment. Judge Borrelli will decide on Saturday what, if any, punishment he will inflict upon Nathier, who is married and has two children.

## Pictures You Could Never Take Before Are Easy to Get with the Modern Kodak

INDOORS or out. Rain or shine. Interesting subjects once difficult to photograph are easy snapshots now.

Think of the many times you have been unable to get the pictures you wanted, because the sun wasn't shining or the subject was indoors. Those days are over now—thanks to the Modern Kodak.

Stop in today and have us show you this improved but inexpensive Kodak.

### THE TRIBUNE'S PLATFORM FOR METROPOLITAN CHICAGO

1. Make Chicago the First City in the World.
2. Start Building a Subway.
3. Electrify the Railroads.
4. Abolish the Smoke Pail.
5. Build Safe Streets and Highways.
6. Re-establish Constitutional Representation.
7. Build Chicago the Best Convention Hall in America.

### WHAT THE VOTER WANTS.

The primary elections are three weeks past. The Illinois state conventions are out of the way. But the interest of the people in local and state issues has not cooled, and we find two candidates—Judge John A. Swanson, Republican nominee for state attorney, and Justice Floyd E. Thompson, Democratic nominee for governor—correctly interpreting the popular mood and satisfactorily answering the Illinois citizens' demand for plain speaking about bad government.

They are talking, following the primaries, as they talked before the primaries. From too many other candidates a receptive electorate is hearing nothing but whippers from the back room.

The sort of talk put out by Judge Swanson and Justice Thompson is the sort of talk the people of Illinois and Cook county are listening for.

In the usual course of events, the political barometer shows a decided drop in public interest following a primary election. A lull occurs in which campaign differences are patched up. The people forget. And every one marches united to the front when the time comes for all good men to come to the aid of their party.

Things are different this time. The people are not forgetting. The strategy of postponing unwelcome tidings until after the primaries is backfiring. And current events also play a part. The tax bills are out with their bad news, demonstrating what it is to live under a wasting, grasping government. Those padded bond issues are under discussion because some of them must go on the ballot in June. Corporation Counsel Etzelson is winning a new nickname of "Slippery Sam" by evading publication of secret pay rolls said to be loaded with the names of political pets. A school wall collapses, killing two children and injuring thirteen; official negligence is shown to be behind the tragedy. The beginning of an attempt to lease concessions on Navy pier to an administrative favorite at a loss of \$60,000 to the city has been exposed. Last session of the same political-criminal type has continued with the killing of McKenna, former investigator for State's Attorney Crowe, and lately one of the governor's payrollees; despite signs of investigation, the police have not yet revealed who shot Newmark. And the crime commission has revealed dismaying facts about the judicial methods of three members of the Criminal bench.

Voters are used to the hush-hush and the compromise policy following a primary election. They have been trained to impassivity in the face of any outrageous factional peace treaty by the train of alternate discords and love feuds which has made republicanism in Illinois a synonym for selfish opportunism. But they expected something more upright and sincere following the great electoral repudiation of the politicians in power on April 10.

Instead, they were offered the same old drama, not even rewritten, recast, or given new scenery. Harmony was to be the keynote. Senator Deneen, Otis F. Glenn, Republican nominee for senator, and Judge Swanson tried in vain to write into the state party platform the very issue on which the Republican party in Illinois swept the present incumbents out of office. They came up against a dead wall, not of opposition, which would be understandable, but of compromise.

It is not compromise that the voter wants. He is looking for the same aggressive stand on the issue of good government vs. government through corruption and crime that he voted for at the primary elections.

Men like Judge Swanson, Justice Thompson, Mr. Glenn, and Senator Deneen are giving him what he wants; for the voter is in a mood to finish in November the political resurrection of Illinois, Cook county, and Chicago that he began April 10.

### MR. MOORE LEAVES THE COURT.

Mr. John Bassett Moore has sent his resignation to the secretariat of the league of nations as a member of the league court. We congratulate our distinguished jurist upon his retirement from a situation which must have been unsatisfactory to him. He could not have been expected to resign, for he had been invited to a place in this tribunal primarily because of his eminence as a master of international law, although that eminence will be conceded. He knew that he was offered his place because it seemed important in the interest of the court's prestige that it should have an American member even though he did not sit as a representative of the American government.

Mr. Moore's membership was in fact a place of tactics and we cannot believe, though he was induced to effectuate it, that as a loyal American he could be comfortable in a role inconsistent with his own loyal Americanism. The American nation had disowned its distrust of the league of nations and its unwillingness to be drawn into the system it represents, directly or by indirection. It had refused to adhere to the league's agency, the court, and there is no doubt that the invitation to Mr.

Moore was not viewed in America in any other light than as a device to win opinion for the court and to give it a representative character more comprehensive than we are willing to lend it. Mr. Moore's acceptance had no sanction from American opinion, and while it was quite within his rights as an individual, it placed him in a situation subject to misinterpretation and inseparable from a sense of apology.

We are sure that Mr. Moore will be better employed in the service of international law and the evolution of durable peace among nations in completing his work on international law rather than in occupying an anomalous and dubious place upon a tribunal to which his own country refuses to adhere for reasons explicit and well considered.

### SMITH OR APPOMATTOX?

Gov. Al Smith of New York has carried the Democratic primaries in California against Senator Reed of Missouri and Senator Walsh of Montana. Mr. Walsh was entered by Mr. McAdoo to stop Smith. Both are Catholics. Walsh is dry. Smith is wet. Returns at this writing indicate that not only Smith but Reed, also wet, beat McAdoo's dry candidate.

It had been expected that Smith would be leading the field of Democratic candidates when the convention opened, but that even with this advantage might make only a good miss at the nomination. From day to day as primaries are held and delegates elected this feeling that the New Yorker will have a fine run and get nowhere is giving way to the opinion that the Democrats have their candidate and their issue.

For one thing their politicians believe that they have not a ghost of a show in the election without Smith, and that the rejection of the strongest candidate by the convention either on the score of religion or of opposition to prohibition might break the party. Of greater consequence is the belief of the party leaders that they might win a national election with a wet, although he must encounter some religious opposition.

When a man opposed to Volsteadism can carry the party not only in California and other states but even in Iowa, as Smith did, it is a sign of impatience with government under prohibition. Iowa is in the heart of a region supposed to be so dry that it was not an issue of party differences. In Ohio Democrats say that Smith can have the state delegation after the first ballot.

These are pertinent indications. They reveal a revolt against bigotry and intolerance which spreads as the zealous grow more desperate in their efforts to intimidate authority, control political action, and suppress individuals. The success of Smith is a sign of this. It would not have been possible four years ago, but now it is apparent that even the south is wavering. There the political control would dearly love to back a candidate who had a chance to win and is kept in hand only by the influence of religious organizations to which tolerance in faith and liberality in government are next to impossible of acceptance.

The southern politicians even now may be asking the preachers if they want to take the party to Appomattox again. The predecessor of the Democratic party, the Republican-Democrat of the old Jeffersonians, walked the Federalists out of office and itself into power by attacking the intolerable alien and sedition acts, and the administration of them.

Abuses of authority and punishment of men for political opinion ruined a party which had been invaluable to the republic in its formative days. It is significant that with the rumblings of protest arising the league of intolerance is pressing for further advantage in legislation and repression, seeking heavier punishments as provided in the Jones-Stalker bill which has been given preferred status in the senate. That is typical of government by bigotry. It is its instinct and habit to increase its repressions as its power is threatened. It attempts more coercion as its excesses are attacked. As the spirit of the people rises bigotry goes to new extremes.

Smith seems to be leading another revolt in the desert.

### GENEROSITY FOR ALL VETERANS.

The Tyson bill to grant retirement pay to disabled world war emergency officers has passed the senate and is pending in the house. It has been unopposed except from one quarter. Retired enlisted men point to their own small pensions and ask that the Tyson bill be held up until they are granted increased compensation.

It is natural for the retired enlisted men to feel and to argue as they do. Their attack on the Tyson bill is, as they see it, their only chance to win a hearing.

Congress must decide both the Tyson bill and the claims of the enlisted men, and the way to do it is not to defeat the Tyson bill because the enlisted men are not receiving generous treatment, but to pass the Tyson bill and at the same time accord the enlisted men the recompense they deserve. The disabled emergency army officer is the only one out of nine officer classes to have been left out. The members of the other eight classes have all been cared for by the government. The Tyson bill, therefore, aims to right a real injustice.

The enlisted men will not be helped by the defeat of the Tyson bill; it will mean only injury to the emergency officers. Congress' duty is not a negative one—defeat of the Tyson bill—but a doubly positive one: passage of the Tyson bill and legislation in behalf of the retired enlisted man.

### Editorial of the Day

#### HAVING IT BOTH WAYS.

[The Baltimore Sun.]  
Members of the house of representatives who believe the McNary-Haugen bill to be a vicious piece of legislation may find in the flood control debate strong arguments from western members against the necessity of doing anything to boost the price of agricultural commodities. For instance, that vast reservoirs be constructed in western states to hold back flood waters is based on the plea that the country needs the food supplies which would be assured by conservation of water.

The west should not insist upon having it both ways. It should not call upon the taxpayer for funds to guarantee high prices for its products at the same time that it calls for enormous outlays to make fertile vast new areas and thus accumulate the very surplus problem that now bedevils it.

#### FOXY.

It was their first quarrel, and it lasted longer than post-hypocrite spats generally do. But finally it was over, and the wife was confiding to a friend. "It was terrible while it lasted," she said, "but it was worth it. Just look at the fur place John gave me."

"Ah!" exclaimed the friend, surveying the gift, "a cloud with a silver for lining." New Orleans Times-Picayune.

## How to Keep Well

By Dr. W. A. Jones

To the limit of space questions pertinent to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries, under proper limitations, when return stamped envelope is enclosed. Dr. Jones will not make diagnoses or prescribe for individual disease.

### CHILDREN WHO DO NOT EAT

ONE of the most difficult questions that mothers and physicians are called on to answer is: Why do children have poor appetites? Dr. W. M. Bartlett tabulated the reasons why 1,471 children were brought to his clinic. Three hundred forty-nine came because they had poor appetites. No other cause approximated that one. The nearest was because of coughs and colds (114). Showing the relative importance of poor appetite we quote a dozen or more causes standing near the top, and the number of children in each group.

- Pallor, 56;  
Underweight, 79;  
Pain in the abdomen (or stomach), 65;  
Stiff rash, 65;  
Nervousness, 54;  
Sore throat, 53;  
Vomiting, 49;  
Diet needed regulating, 40;  
Bed wetting, 29;  
Decayed teeth, 24;  
Pain in the joints, 17.

Dr. Bartlett studied closely these 349 children to discover why they were not hungry all the time, as normal children are. In 121, or something more than one-third, he could find no cause. In some cases he could find a cause. These causes, in the order of their frequency, were:

- Septic tonsils and adenoids, 77;  
Onset of acute infectious diseases, 29;  
Tuberculosis of the lungs or glands, 24;  
Favellitis, 15;  
Decayed teeth, 15;  
Heart disease, 13;  
Constipation, 11;  
Chorea, 9;  
Bronchitis, 6;  
Worms, 2.

He came to the conclusion that if the poor appetite was not due to septic tonsils, or some organic disease, there was a good chance that the child was anemic, and that if the anemia was corrected by diet the appetite would return—using the hair of the dog to cure the bite.

For this reason he tried some children on iron tonics, others on cod liver oil, and still others on diets rich in fresh calves liver, broiled steaks and kidneys. The diet of liver, steak and kidney gave the best results.

His suggestion is that when a child has a poor appetite persistently and in consequence loses weight, be carefully examined for organic disease, some definite physical cause, evidence of bacterial and nervousness. If any of these are found the treatment should consist in taking care of the cause.

If none are found, then a diet of liver, steak and kidney should be given. The reason for this is that a large portion of instances the child will put on weight, get some color in his cheeks, and regain his appetite.

This experience is limited to children who were taken to a clinic and found to be below weight. Had the study included children who had stunted appetites, but who were not taken to clinics, or who did not consult physicians, the proportion due to simple nervousness and poor training would have been found larger.

### YOUR BABY'S ALL RIGHT.

Mrs. G. W. writes: I. My 15 months old girl weighs 15 pounds. Was 7 pounds at birth. Is she overweight?

I. I give her two teaspoons cod liver oil daily, with two oranges juice. Is this plenty?

She does not walk yet. Is there anything to worry about?

4. She sleeps from 3 p. m. to 5 p. m. and 8 p. m. to 7 a. m. Is this enough sleep? She is out of doors mornings and afternoons.

Will the membrane grow back again? Some say it will.

REPLY.

1. Yes.

2. She seems to be getting all the food, including oil, she needs.

3. Many normal babies do not walk at her age.

4. Yes.

5. I don't think so. Probably having the tongue clipped was needless.

### FRIEND OF THE PEOPLE

Letters to this department must be signed with names and addresses of writers.

### MAIL BOXES AS CATCH-ALLS.

Chicago, April 30.—(Legal Friend of the People.)—Our mail boxes were always stuffed up by fake doctor ads, loan shark letters, real estate dealers, etc., but no room left for the mail man to deposit letters. I put up a sign "For U. S. mail only." Did it help? A little bit, but the fakers and sharks seem to have a privilege of using the mail boxes to dump their trash. What can I do, beat them up or station a bulldog there?

Can you prosecute the parties leaving their papers in the mail boxes? J. C. J.

We can suggest to satisfactory legal relief, but we suggest that you try notifying the advertiser that you make a settled practice of refusing to deal with persons who so inconvenience you.

TRIBUNE LAW DEPARTMENT.

### TWO YEARS' DESERTION.

Chicago, April 30.—(Legal Friend of the People.)—If a husband is deserted by his wife, what states nearby have a law granting a divorce on the "grounds of desertion" less than 2 years, and how long must one reside in that state to be able to file for a divorce? S. L. R.

Where a person contemplates going to another state to some divorce, the question whether the residence can be made to appear as genuine as to give the courts of that state unquestionable jurisdiction is so close a question that we advise asking our best estate attorney carefully in a personal interview with a competent attorney before embarking on such a course.

TRIBUNE LAW DEPARTMENT.

BAKERS.

Chicago, April 25.—(Legal Friend of the People.)—In a case of voluntary bankruptcy of a corporation will back wages to officers of the corporation be paid?

2. Wages for one year are due. The officers are employed by said corporation at a fixed salary.

1. No. Officers are not wage earners.

2. They would also be protected by the length of the prior.

TRIBUNE LAW DEPARTMENT.

### Conducted by

Help! Help!

WE READ EVERY word of Harry Sinclair's testimony before the senate Teapot Dome investigating committee. We can understand his nerve and self-possession, whatever else one may think of the affair. Sinclair, it is generally conceded, is one of the heaviest plungers on the American turf when he wants to bet. In several instances, it is said, he has wagered \$250,000 on one race.

One year at Louisville when we passed the Sinclair box on Derby day when we heard a voice which sounded like Harry's say, "Rep," addressing Replogle, "let's not send these small wagers down to the machines in this crowd, but just toss in \$5,000 apiece each race for a hat pool and draw the numbers." We didn't hear more, for we were hurrying to get down our own \$2 before the gong sounded.

### Please Furnish Proof.

Dear Line: The tide has turned—a man out in Iowa sold his car to buy a suit of clothes. B. D. E.

### DUMBELL PONES.

If two heads beat a dumbbell, together on their jobs. Why is it every dumbbell has always its two knobs? 'Cause knob-nobs of the "Nobbes," with ends in common bleed, "one knob of dumbbells are found on either end." SHLY KERRY.

### This Must Come from South Side.

Harve! All spring I've been reading about those wonderful Cubs and how they were going to win the pennant in a walk until I really began to feel sorry for the other seven teams. Well, they haven't broken up the league yet, and if they don't win some games, say two in succession, pretty soon, don't you think that C in their name ought to be changed to another letter of the alphabet not far away in the order of succession? DISAPPOINTED.

### Wise Cracking.

Time flies, but the leader of an orchestra always beats it. F. P.

### It's Dangerous to Figure.

Harvey: I been figurin' all the time that the contributor has a better job than the column conductor, 'cause we contribute don't have to work 'cept when we feel like it, but since Dick Little and the Colonel have gone to Ireland I been figurin' some more—them column conductors must be gettin' paid for it. HOWARD.

### Do You Remember Way Back When?

### THE END OF A ROUGH TRIP

### FROM THE TRIBUNE'S COLUMNS

#### 65 YEARS AGO TODAY

MAY 3, 1863.  
NEW YORK.—The Tribune says that three corps of Gen. Hooker's army crossed the Rapidan, marching straight on the rear of Fredericksburg, by way of Chancellorville, and that three other corps crossed at Banks' ford, the six being in a position to move directly upon the rebel lines of communication. It may well be believed that Lee evacuated Fredericksburg precipitately, and fell back towards Richmond. Gen. Stoneman, with his cavalry corps, is in the rear of any position to which Lee can possibly have fallen back. We regard a great battle as imminent, if not already fought.

CHICAGO.—Lieut. H. P. Hooper of the 112th Illinois volunteers, and Miss Addie P. Cobb of Dowagiac, Mich., were married on May 1 by the Rev. Z. M. Humphrey. Sherman W. Russell and Miss Mattie V. Wilson; both of Chicago, were married in Evanston on April 30 by the Rev. Dr. Bannister.

#### 30 YEARS AGO TODAY

MAY 3, 1898.  
CHICAGO.—Commodore Dewey yesterday demanded the immediate surrender of the city of Manila. The demand was refused and the bombardment of the defenses followed. The town of Cavite was razed, the batteries destroyed, and the heavy defenses on Corregidor island at the entrance of the bay attacked. The bombardment of the defenses followed. The town of Cavite was razed, the batteries destroyed, and the heavy defenses on Corregidor island at the entrance of the bay attacked. The bombardment of the defenses followed. The town of Cavite was razed, the batteries destroyed, and the heavy defenses on Corregidor island at the entrance of the bay attacked.

LONDON.—Commodore Dewey, according to a dispatch from Madrid, gave Capt. Gen. Augusti twenty-four hours to comply with an ultimatum to surrender Manila to the American squadron without further fighting. If this is true public indignation will be restrained with difficulty.

WASHINGTON, D. C.—President McKinley held a war council with Gen. Miles and Secretaries Alger and Long at the White House. The question of taking immediate and permanent possession of the Philippines was the subject considered.

#### 10 YEARS AGO TODAY

MAY 3, 1918.  
WASHINGTON, D. C.—A colossal military program was submitted by Secretary of War Baker to the house committee on military affairs. It included expenditures for the army of thirteen billion dollars for the next fiscal year, manufacture of artillery on a stupendous scale, and the drafting of at least 1,000,000 additional registrants.

BRITISH HEADQUARTERS IN FRANCE.—The lull which has brooded over the western battle lines continues. The expected attacks by the Germans on the Ypres and Amiens fronts have not yet been launched. The Germans heavily bombarded the allied positions west of Merris and the area around Villers-Bretonneux with gas shells and high explosives, but there was no infantry attack.

CHICAGO.—Mr. and Mrs. August Mathis announce the marriage of their daughter, Frances, to Charles Francis Custer on Wednesday, April 24. Mr. and Mrs. W. H. Moorhead, 6239 Sheridan road, announce the engagement of their daughter, Maude Blair, to Henry F. Hooper, son of Mr. and Mrs. E. H. Hooper, 6761 Sheridan road.

CHICAGO.—"Lonny" Wilson, the oldest newspaper vendor in the city, is dead. For nearly half a century he had a stand in front of The Tribune building, where he was a familiar figure, with one wooden leg and a huge bushy beard. It was he who hung the name of "Hinky Dink" on Ald. Michael Kennan, John R. Walsh, the banker, and Bill Lorimer, as well as Kennan, sold papers with "Lonny."

### VOICE OF THE PEOPLE

Writers should confine themselves to 300 to 500 words. Give full names and addresses. No manuscripts can be returned. Address Voice of the People, The Tribune.

#### FAIR WARNING.

Chicago, May 1.—Your cartoon by Orr on today's editorial page should prove very illuminating to the Thompson-Small-Crowe bunch of political high-binders. It should also prove to be a warning to the winners in the primary contest that the "aroused public opinion" will not stand for any compromising of differences between the winners and the gang above mentioned. The gang is out to stay out, if the action of the voters is any indication of their will and desire. If Senator Deneen, Judge Swanson and others who were given approval at the polls on April 10 dare to abuse public confidence by trucking with the discredited gangsters the writer will vote the straight Democratic ticket for the first time in thirty-five years to make the housecleaning as complete as possible. I am convinced that thousands of decent Republican voters feel as I do. This is a warning to the winners to play fair with those who gave them victory, or they will pay the penalty for their disregard of public opinion by defeat in the election to come. What is it to be? A thorough political housecleaning in the city, county and state Republican party, or a bitter defeat and a clean sweep for the Democrats? A REPUBLICAN VOTER.

#### AND ANOTHER.

Chicago, April 30.—Why is it that it is impossible to find an officer of the law in the vicinity of Taylor and Paulina streets about ten thirty at night? I go to work every night about that time and twice in the last month or so in the same block some one has thrown something through the window of the car. Tonight luckily no one was hurt. But the young man who threw the steel stood on

## FIND NAVY BOMB WRAPPED UP IN ANTI-WAR PACT

Experts Fear Drive to  
Scrap Sea Defense.

(Chicago Tribune Press Service.)

Washington, D. C., May 2.—[Special.]—Fear that success of the Kellogg campaign for the conclusion of an anti-war treaty will mean disaster for the United States fleet is making itself felt in the national capital. While it is recognized that the proposed pact for the renunciation of war as an instrument of national policy does not mention disarmament, it is believed its adoption would place such a powerful propaganda weapon in the hands of the pacifist organization in the United States that further action of armaments would be inevitable. The apprehensions of national defense advocates were increased by the publication of the German note. It is expected that the German republic would expect ratification of an anti-war treaty by the principal powers "must give a real impulse to the efforts for the carrying out of general disarmament."

**See Another Sea Sacrifice.**  
Should the Washington disarmament treaty powers all sign a pact modeled on the Kellogg draft treaty prior to 1931, when those powers are to meet in this country to reopen the question of naval disarmament, naval experts feel nothing could prevent the signing of a new agreement under which the United States would again sacrifice sea power.

As the United States is far behind Great Britain in battleship and cruiser strength, a new reduction agreement would mean, naval experts agree, that this nation's chances of ever reaching parity with Great Britain would be reduced greatly. Analysis of past naval conferences makes it certain Great Britain will never sign a naval agreement under which she would make greater sacrifices than the United States. For this country to enter into even a fifty-fifty reduction agreement with Great Britain could mean at best but a continuance of our present position of naval inferiority.

**Predict Drive to Scrap Navy.**  
Naval experts in view of the highly successful fight staged by pacifist forces against President Coolidge's seventy-one ship program in the house are confident that an anti-war agreement would mark the reopening of a pacifist attempt to abolish the American navy. "The pacifists," a naval expert said today, "were able to riddle this year's naval construction program at a time when 10,000 ton cruisers were vitally essential to American security. They did it by advancing the argument that it would be bad policy to endanger further naval disarmament by authorizing a large number of new ships at a time when this government is preparing for the 1931 conference."

"If they could get by with that argument this year, how could we successfully combat a campaign for abandonment of all fleet construction if the pacifist propagandists were able to point out that every one of the five treaty powers interested in the conference had already agreed not to go to war with one another?"

**Defense Arms Still Necessary.**  
Washington officials are reluctant to discuss the possible effect of a multilateral anti-war treaty on naval disarmament, but no one denies that the cause of disarmament would be advanced. No one in the state department, however, puts forward the anti-war treaty as a pact which would do away with the need for adequate naval and military establishments.

While the proposed draft treaty pledges the nations not to go to war with one another, an examination of the correspondence with the interested nations reveals there is nothing to prevent violations except what might be termed moral sanctions.

In discussing his proposal before the American Society of International Law, Mr. Kellogg made it clear that

Our constant aim

A little  
better food  
A little  
nicer crowd  
A little  
more comfort  
The "little  
mores"  
That make the  
big difference

## STRIKE IN HOUSE OF DAVID ENDS PLAN AGAINST RECEIVERSHIP

Lansing, Mich., May 2.—[Special.]—Efforts of Judge H. T. Dewhurst, nominal head and counsel for the House of David at Benton Harbor, to bring about a settlement of the receivership proceedings probably will be nullified by the factional strife that three outstanding leaders of the cult are leading against Dewhurst. It was disclosed today by Wilber M. Brucker, attorney general.

"Queen Mary" Purnell, widow of the late "King Ben," was named jointly with her husband in the banishment edict of Judge Louis H. Ford. It was pointed out, and she is determined that Dewhurst shall enter into no pact with the state under which she will lose her present status as one of the colony's leading figures.

With her are allied Francis Thorpe and Silas Mooney, other lieutenants of Ben's regime.

It is not expected to outlaw war in fact. He conceded that a nation's right to self defense would not be infringed and that if any nation invaded the rights of another the injured party would always have the moral right to go to war.

National defense advocates would not worry so much if there was hope that any further reduction agreement would guarantee the United States the right to actual parity with Great Britain. The fear is that a pacifist imposed pact would bear the same fruit as the Washington conference where the United States entered as the potential leading naval power and retired the second best.

## TRADE LEADERS HOPE TO AVERT SCHOOL DEFICIT

Board May Revive Bonds  
for Buildings.

Demand was renewed yesterday for special legislation to enable the board of education to build schools by bond issue, thus, diverting a large portion of the present building fund cash to the educational fund. The board met to decide ways and means of avoiding a \$2,000,000 deficit in 1928 budget estimates. Tentative estimates indicate a budget of about \$85,000,000, several million larger than last year's.

Three members of Mayor Thompson's advisory committee attended, indicating their group may investigate school financial problems. Those three are George Getz, chairman; Silas H. Strawn, president of the American Bar association; and W. R. Abbott, of the Chicago Association of Commerce.

**Recalls Previous Contest.**  
The plan to build schools by bond issue, suggested by Mayor Thompson and President Coath about a year ago, caused debate in the state legislature when an attempt was made to get the needed law. The chief criticism

at that time was directed at the clause authorizing diversion of 20 per cent of the school building fund to the city corporate fund, the other portions being divided between the educational fund and a fund to pay interest, redemption bonds, etc.

The proposal made yesterday urges that 60 per cent of the present building fund be added to the educational fund, the remaining 40 per cent being set aside to pay interest, retire bonds, purchase future sites, and provide for rehabilitation and maintenance of schools.

Trustee H. Wallace Caldwell, who probably will succeed Coath as president, declared trimming down the budget estimates would bring only temporary relief, a large deficit appearing the following year.

**Awaits Committee's Report.**  
No action was taken on the budget. The matter was deferred pending a report from the mayor's committee.

At the board's meeting formal representation was made and the nine teachers and ten principals returned to school service by a court order that declared the emeritus rule invalid. Acting on a recommendation from their committee which went to New York to investigate, the trustees adopted a resolution instructing Assistant Superintendent J. Bogan to present a plan for the collection of funds from school children to pay for a Thomas Jefferson memorial.

THE decorative importance of color grows  
greater and greater. Indeed, color is the key-  
note of modern interior decoration, and never  
is it more appropriately and enjoyably used than  
in Spring and Summer.

Cretonnes answer perfectly this seasonal  
quest for color, for nothing is gayer, more easily  
used or less expensive. And here is probably the  
largest stock of bright, cheerful cretonnes in  
America—many hundreds of designs and color  
combinations to choose from—the newest Colo-  
nial and Canterbury Cretonnes, original produc-  
tions and importations of Marshall Field &  
Company. Fully four-fifths of them are Colonial  
Cretonnes, originated and produced by Marshall  
Field & Company, Wholesale, or patterns sup-  
plied exclusively by us in the United States.

Thousands of artists and weavers, and a score  
of the largest mills in Europe and America, have  
produced these fascinating fabrics for you, and  
placed them at your finger-tips. It is difficult for  
the imagination to encompass the wealth of de-  
sign and color included in this vast collection.

Here they are, today, ready to give your rooms  
new color—on the furniture, at the windows,  
on the pillows. This year there need be no limita-  
tion of color; no dark spots to make your home  
out of tune with the season.

Decorate with cretonnes—beautifully, easily  
and inexpensively.

## PLANE CRASHES IN TREE ON RIVER BANK; TWO DYING

Doctor Owner Pilots Ship  
Without License.

(Continued from first page.)

was making a solo flight from Brooks field crashed in a tall spin and caught fire. He was attached to the army primary flying school.

### AIR SCHOOL CLEANUP BEGUN

Swamped by complaints from young men victimized by flying schools, the Better Business Bureau of Chicago yesterday laid plans for a general housecleaning of the schools. At a meeting attended by representatives of most of the aviation companies, Flint Grinnell, manager of the bureau, gave notice that a set of standards for all trade schools is being prepared for the reputable organizations to follow.

Mr. Grinnell said the solution of the problem would be passage of a law requiring a definite curriculum in all the schools. A course in flying, he pointed out, should not vary in different schools and the student should know exactly what he is to be given.

### Students Tell Their Stories.

Since the publication of a series of articles concerning the aviation schools in this Tribune, many students have told stories of their experiences to add to those of the reporter who visited each of the seventeen companies in the Chicago district. Some of the stories are pathetic.

One young man, 24 years old, a resident of Flint, Mich., read an advertisement of a Chicago flying school which said: "Come to Chicago! We find you a job while you are learning to fly." He sent a \$25 deposit, and the school demanded, then came to this city and signed a contract. The agent at the school promised him a job in two days. He waited three weeks, then was forced to return home penniless. Now, he informed the bureau, the school threatens to sue him for the remaining payments on the course.

### Stranded Here at 17.

Another student, from Louisville, Ky., a minor, 17 years old, ran away from home with \$50 he had saved and paid it all to a school which promised him a job. He got no job, walked the streets, and was broke when his parents found him. "It took us three weeks to get his money back from the school, although they knew he was a minor," commented Mr. Grinnell.

Most of the complaints are from out of town youths who come to Chicago believing they will be given work while they are studying the course. Others assert they are kept in classroom studying textbooks instead of being given flying instruction as promised.

Many letters have been addressed to THE TRIBUNE requesting information about various schools. The Better Business Bureau will furnish information about any school upon request.

**Storm Wrecks Scores of Houses in Clarks, Neb.**  
Clarks, Neb., May 2.—(AP)—Practically the entire business section of this village of 800 was wrecked by a high wind late today, causing minor injuries to several persons. Twenty houses were demolished, three business buildings were blown down and hundreds of trees and telephone poles were broken off. Communication was cut off entirely.

## QUOTA FOR MILITARY CAMP AT FT. SHERIDAN IS OVER HALF FILLED

Youths from Cook county who wish to enter the Citizens' Military Training camp at Fort Sheridan this summer should file their applications immediately, John J. Mitchell, chairman of the Cook county committee of the Military Training Camps association warned yesterday. Five hundred applications have been accepted. It was announced, and there is room for only 340 more.

"Last year, more than 20,000 young men were disappointed because their requests came in after all the 50 camps throughout the country were filled to overflowing," said Mr. Mitchell.

An entirely new city of tents is being built on the bluffs above Lake Michigan in the southern part of the Fort Sheridan reservation. Permanent mess halls and administrative buildings are being erected. Brig. Gen. Paul B. Malone, commanding both the Sixth Corps area and Fort Sheridan, declared he hopes to make Fort Sheridan the best training center in the country.

Applications from Illinois far exceed those from Michigan and Wisconsin, it was revealed. Paul Butler, civilian aid to the secretary of war, appointed a chairman for each of the 102 counties of this state. Quotas were assigned to each county and many are already filled. One county with an allowance of 50 places sent in 137 applications.

The Fort Sheridan camp will be open from July 27 to Aug. 25. It is open to candidates from northern Illinois and eastern and southern Wisconsin. Jefferson Barracks, Mo., is for candidates from southern and central Illinois, and will be open from July 9 to Aug. 7.

Applications may be filed at Room 705, The Tower Building, 6 North Michigan avenue. The first course is open to all men between the ages of 17 and 24.

## ROWLEY CHARGED WITH KILLING OF HOTEL OWNER

(Picture on back page.)

Thomas J. Rowley, alleged west side gambler and gunman, who was arrested and identified yesterday as the slayer of David Sher, owner of the Paradise Arms hotel, 4114 Washington boulevard, was booked on a charge of manslaughter last night. Rowley denies that he was the one who fired the shot that ended Sher's life. The police insisted that his companions on the night of the slaying will also be in custody soon.

Rowley was captured in an apartment at 63d street and South Park avenue. Rowley had been acquitted on a murder charge several months ago following the shooting of Walter Clark, Obie Williams, Negro porter at the Paradise Arms, identified Rowley as the man who fired several shots at Sher. Manly Sak, a guest at the hotel, also pointed out Rowley as Sher's slayer.

## SLAYS WIFE; ENDS OWN LIFE ONLY AFTER 3 TRIALS

Waxford City, N. D., May 2.—(AP)—Andrew Torgeson, 43, a farmer, after killing his wife today by cutting her throat, tried unsuccessfully to end his own life the same way, then failed in an attempt at drowning, and finally took a shotgun and killed himself. Six children survive.

**Find Parents Slain.**  
Bemidji, Minn., May 2.—(AP)—Three children, the eldest 6 years, arose today to find their parents, Mr. and Mrs. August Luedtke Jr., slain in their farm home near here. Authorities said they believed Luedtke killed his wife and then committed suicide.

## EXPECTS TO DOZE WHILE HE SEEKS FLIGHT RECORD

Airman Thomas Fixes Up  
Mechanical Control.

Roosevelt Field, L. I., May 2.—(Special.)—Lieut. Royal H. Thomas took off alone shortly after noon today in his new Bellanca monoplane, Reliance, carrying 480 gallons of gasoline, in an attempt to break the world's duration record, now held by Eddie Stinson and George Haldeman. Thomas must stay up two nights and two days if he expects to break the record of 83 hours 36 minutes 31 seconds, established over Jacksonville beach last March by Haldeman and Stinson.

Thomas must beat that by one hour to be accredited with a new record, according to the rule of the National Aeronautical association. The final takeoff today at 12:39:31 was the second attempt today.

Shortly after 10 o'clock this morning, carrying a fuel load of more than 530 gallons, 45 more than Chamberlain and Levine carried to Germany and nearly 150 more than Chamberlain and Acosta carried in the same ship when they established the duration record a year ago. Thomas started across Roosevelt field.

He was forced to go over hummocky ground, including two deep rutted roadways, a tremendous test for both plane and pilot. In a few minutes he was back over the field, dumping his gas and coming in for a landing. The pilot said that as he approached the low hills above Great Neck he ran into a series of downward air currents.

With fifty gallons less aboard the plane climbed into the air, after a run of 1,500 feet, and before it had cleared Curtiss field it was flying easily at 1,000 feet with the motor throttled.

The duration flight is being undertaken as a preliminary test of both the plane's and the pilot's endurance for a long distance flight, probably trans-Atlantic.

Thomas carried two roasted chickens, soup, water, and coffee. He had worked out a system for holding his controls mechanically so that he could doze for periods he said.

Late tonight Thomas sent down several messages saying his plane was functioning perfectly.

## SIGNS UP TO TRY TO SHAKE HAND OF MAN IN MOON

(Copyright, 1928, by The New York Times.)

BERLIN, May 2.—The first man to be shot to the utmost limits of the earth's atmosphere in a rocket airplane will be Anton Raab, chief pilot of the Raab-Katsenstein works at Cassel. A contract with the daring aviator, who hopes to become a pioneer of travel into space, was signed yesterday by the Opel Automobile works, which is building a plane jointly with the Cassel firm.

The plane is patterned after the Raab-Katsenstein sport plane "Praschnucke," weighing only about 550 pounds. It is estimated that the addition of the rocket motor, developed by the Opel engineer, Sander, according to the ideas of the Tyrolean inventor, Valtier, will increase the weight but slightly, probably by not more than 200 pounds.

To make Raab's trip absolutely safe the plane will be equipped with two motors, one at each end of the machine. The front motor only will be used for descent to break the inevitable speed and make possible a smooth landing by reverse action. To guard

against possible accidents, the pilot will also carry a parachute.

Fritz von Opel, who is financing the undertaking, and Sander, the constructor, are convinced the new plane will develop a speed undreamed of hitherto and will completely revolutionize aerial navigation.

The object of the first test will be to ascertain the limit of speed a human being can stand and how high an aviator carrying oxygen may go without endangering his life or health. It is expected that great scientific results will be obtained.

## Up-to-Date Method of Presenting TOURING INFORMATION

as described in booklet "How 70,000 Motorists Cut Motoring Expense" is one of the many services the Chicago Motor Club renders its members.

The booklet is fine, but as it is expensive, we are not giving it broad-cast distribution. If you will promise to read it, however, we shall be glad to send it to you, and you do not place yourself under the slightest obligation. Mail the coupon today.

## Eats Beans, Cucum- bers, Sleeps Fine

"I eat pork and beans, cucumbers—anything, since taking Adlerika. Stomach trouble is all gone and I sleep fine."—Geo. C. Brooks.

The simple mixture of buckthorn bark, glycerine, salin, etc. (known as Adlerika), has a most surprising DOUBLE action. First, it acts on BOTH upper and lower bowel (most medicines act on lower bowel only) and removes foul matter that often poisons the system for months. Second, Adlerika clears all GAS and sourness from stomach and bowels, bringing INSTANT relief from stomach trouble. And in addition, Adlerika removes metabolic poisons which cause neuritis, rheumatism, etc.

Dr. H. L. Shoub, New York, writes: "Adlerika. In addition to its intestinal cleansing, checks the growth of intestinal bacteria and bacilli." Dr. J. Weaver: "In my 50 years' practice, I have found nothing to exceed Adlerika." J. E. Puckett: "After using Adlerika, I feel better than for 20 years. Awful impurities were eliminated." It will astonish you the great amounts of poisonous matter Adlerika brings out—matter you would never believe was in your system. In chronic constipation, gas bloating, sour stomach and sick headache, just ONE spoonful Adlerika brings wonderful relief. At leading druggists.

## Blemishes all gone skin clear again

Philadelphia, Pa.—"I suffered from pimples and blackheads for a year, all the time hating to go to parties or dances, my skin looked so bad. I tried various treatments without success, but the first time I used Resinol Soap and Ointment, I noticed an improvement. Now all my pimples are gone." (Signed) Miss Grace M. Boyce. Resinol brings quick relief. At all druggists.

# U. S. CALLED ON TO RIP MASK OFF BOULDER LOBBY

## Trade Commission Gets Demand for Inquiry.

[Chicago Tribune Press Service.]  
Washington, D. C., May 2.—(Special.)—Investigation of the lobby in the Boulder dam project, which has been demanded by Gov. W. P. Hunt of Arizona today in a letter to the Federal Trade Commission.  
Gov. Hunt, who is in Washington to take a hand in the fight against the bill, urged that the commission extend its public utility inquiry to cover the Boulder dam.

## Under Fire in Congress.

Meanwhile the Boulder dam measure was under fire in the senate and before the house rules committee.  
Senator Hayden (Dem., Ariz.) launched an attack on the bill in the senate. He will continue his address tomorrow unless the bill is sidetracked by the tax bill, as proposed by Senator Smoot (Rep., Utah).  
Senator Phelps (Rep., Colo.) urged the adoption of a number of amendments, including one for the appointment of a board of five engineers to review engineering estimates before any contracts are awarded.

## Hunt Demands Showdown.

Gov. Hunt in his letter to the federal trade commission referred to the fact that charges have been made that a "power lobby" has been active in opposition to the Boulder dam bill.  
"Many irresponsible and fantastic statements and charges concerning the alleged activities of the so-called power lobby are published daily by certain newspapers," said Gov. Hunt in his letter. "The fact that no evidence has been adduced to substantiate many of the innuendoes, and charges does not appear to hinder or restrain those who are supporting the legislation from repeating such insinuations."  
"Many of these newspaper articles, by inference and innuendo, charge that the state of Arizona is opposing the Boulder dam bill and is acting in collusion with and under the influence of the representatives of private power companies. These allegations I challenge, denounce, and deny."

## Plot to Rob Arizona.

"I charge," continued Gov. Hunt, "that there is a conspiracy to rob the state of Arizona of valuable resources, to make them available to power companies in the state of California, and that enormous sums of money have been and are being expended to employ lobbyists, lawyers, engineers, and newspaper men and to pay for propa-

# Boulder Dam a Cardinal Sin in Engineering, Says U. S. Expert

BY HARPER LEECH.

We do not have to wait for the United States to build Boulder dam to discover the characteristic evils of state socialism developing from the project. Already the campaign of bias and brow beating in its behalf has tended to minimize free discussion among government servants and to suppress scientific analysis of the project.  
Science and free speech are naturally incompatible with loot and demagoguery.  
E. C. Latta, an engineer formerly with the geological survey, probably has more first hand knowledge of the Colorado river than any other man. Mr. La Rue is no longer in the government service.

His water supply paper No. 556, however, is the classic scientific document on the Colorado.  
Bore Waste Involved.  
On page 73 of that document you may read: "If the plan of development that calls for a high dam at or near Boulder canyon were followed, the additional loss of water due to evaporation from the water surfaces of the reservoirs would be about 300 second feet and the consequent loss of power would exceed 2,200 horse power."  
Col. William Kelly, former United States army engineer attached to the Federal Power commission in a confidential capacity, is no longer in the government service. In regard to the reclamation bureau's Boulder dam estimates, on the basis of which the whole project is now being sold to the

people and to congress, Col. Kelly said: "The dam can be built for twice the estimated cost, only in case the breaks of fortune are all in its favor. In my judgment the works covered by the Swing, Johnson bill will cost more than \$200,000,000."  
It is significant that Boulder dam has failed to get any indorsement either from the Federal Power commission or the geological survey. These two government bureaus are specially charged with the conservation of national resources. Neither has many jobs to give. Both are dominated by scientists.

Expert Utters Warning.  
Note this from the letter of Herman Stabler, chief of the conservation branch of the geological survey, to the secretary of the interior: "Chiefly because the conclusions of the engineers of the bureau of reclamation advocate committing one of the cardinal sins of water resources engineering, I find myself unable to agree wholly with them."  
This seriously objectionable feature is that of skimming the cream of power potentialities on the lower Colorado river at the expense of ultimate development, merely to obtain a greater profit from the sale of energy.  
"This is something that many times in my 30 years' service with the department I have striven to prevent private corporations doing, and I believe the same attitude should be taken with reference to a development proposed for exploitation by means of public funds."

Justice some mention should be made of the extent to which special and selfish interests of southern California have been spending money in behalf of this legislation.

The public service commissioners of the city of Los Angeles have appropriated a sum of not to exceed \$1,500 per month to the Boulder Dam association.  
The secretary of the Boulder Dam association, Burdette Moody, is also the business manager of the board of public service of the city of Los Angeles.

"The city of Los Angeles has maintained at least two of its officials in Washington to persuade congress to appropriate the necessary funds."  
It is pertinent to inquire into the source of the boxes of grapefruit and almonds that have been presented to members of congress.

It is pertinent to inquire as to the source of the moneys expended in the entertainment and traveling expenses of members of congress who have

# HERE'S A RARE CO-ED; TURNS DOWN ELECTION TO PHI BETA KAPPA

Madison, Wis., May 2.—(AP)—Because she believes high grades are not a "genuine criterion of true scholarship and intellectual achievement," Miss Olga Rubnow, of Philadelphia, University of Wisconsin, has refused election to Phi Beta Kappa, national honorary scholastic society.  
In a letter declining the honor Miss Rubnow said she was opposed to the bestowal of formal honors on the basis of high grades. "The distinction," she added, "is often conferred upon the unworthy as well as the worthy. A large part of the worthy who do not happen to excel in grades are excluded."

been taken to the Boulder dam site, the Imperial valley, and southern California.

"It is pertinent to inquire into the source from which the newspaper photographs and advertisements for the project have come, and into the source of the funds or contributions in payment thereof."

## Hints at Graver Charges.

"There are other items which might be mentioned, but which I out of courtesy will not mention unless there are unjustifiable steps taken to impugn the honor and integrity of the able engineers who may disagree with the gentlemen from California. I refer here to certain items of expenditure undertaken by the Boulder Dam association, not by the Imperial Irrigation district."  
Representative Douglas asserted that the Boulder dam project has not been investigated adequately from an engineering standpoint. He denied statements that late Gen. Goethals had given the plan his complete approval and said that Secretary of Commerce Hoover has not approved the designs and estimates.  
"On the contrary," he continued, "Secretary Work has cast suspicion upon the engineering; the federal power commission has disapproved the project; the United States geological survey has disapproved the project, and the United States corps of engineers has been prohibited by law from investigating."

## Army to Build Hangar at Chicago Flying Field

Washington, D. C., May 2.—(AP)—A contract for a steel airplane hangar, 110 by 210 feet, to be constructed at the Chicago municipal airport for the use of the army, has been authorized by the secretary of war to be let to the Austin company for \$19,500.

# SHOWS U. S. RUNS LIGHTHOUSES IN CANADIAN WATER

## Seaway Backers Score a Point at Hearing.

BY GEORGE SMITH.

OTTAWA, Ont., May 2.—Joint American-Canadian administration and control of great lakes channels between Lakes Huron and Erie, and even sole American operation of lighthouse facilities in purely Canadian territory in that section, has been carried on for years without a bit of trouble between the two nations.

St. Lawrence seaway supporters scored this important point today at the first sitting of the Canadian senate committee appointed to investigate the feasibility and practicability of

the big navigation proposal. Duncan W. McLachlan, who was chairman of the Canadian body of engineers which reported favorably on seaway development proposals, made the statement before committee today.  
Mr. McLachlan's statement as to the absence of any friction in American-Canadian administration was in direct answer to a senator who was aroused when told that the Americans had done all the navigation development work between Lakes Huron and Erie, even in Canadian waters, and, in addition, had been keeping up the lighthouses on the Canadian side.  
He expressed the opinion that 200 foot wide channels would be necessary for adequate navigation through the Thousand Islands down as far as Prescott. This would involve about \$1,000,000 over and above present estimates.

## UNCLE SAM AGAIN APOLOGIZES FOR HIS DRY FLEET

But British Ambassador  
Is Losing Patience.

Washington, D. C., May 2.—[Special.]—Efforts to enforce the prohibition law by the coast guard have plunged this nation into diplomatic correspondence with a number of foreign powers whose ships have been seized or whose territorial waters have been invaded by the rum chasing squadrons. It was disclosed today.

As a result of the irritation, most of the Andrews agreements, under which Great Britain and other powers offered to cooperate with the United States in halting liquor smuggling, may be discarded. Great Britain is prepared to stop cooperating in the Bahamas unless a change in enforcement policy is effected.

Order Chasers from Bermuda. Following the British protest of yesterday against the entrance of three coast guard craft, the Travis, Cuyahoga and Tiger, into St. George's harbor, Bermuda, the coast guard today ordered all its rum chasing craft to remain away from Bermuda ports.

Secretary Kellogg sent to the embassy late today a formal reply to the British protest concerning the ships. He pointed out that the Cuyahoga and Travis had been forced into the port for fresh water and provisions after a run of bad weather and had not been engaged in rum chasing while there.

Ambassador Aroused. The secretary regretted that it had been impossible to obtain permission for the visits in advance and expressed the hope there would be no further cause for complaint. Sir Esme Howard, the British ambassador, is aroused over the repeated infractions of the coast guard, and it is unlikely this note will smooth out the differences between the two nations. One of the causes for the British complaint is that in every instance where they have lodged protests the American government has supported the coast guard.

Find Wrecked Dutch Ship;  
Thirty-two Believed Lost

SIDNEY, N. S., May 2.—(AP)—The wreck of the Dutch steamer Callisto, hidden by dense fog since it ran ashore Saturday night with a crew of 32 men, was located today on the jagged rocks of Port Nova island, one mile off the coast of Cape Breton. But one body has been found. Paris of three libelists were found near the spot where the body was washed ashore. No hope was held that any member of the crew survived.

## Gangster Accused of Slaying Is Found Slain

St. Louis, Mo., May 2.—(AP)—Louis Mandel, "Cuckoo" gangster, who was arrested in connection with the slaying Friday night of John ("Piggy") Weller, another "Cuckoo" gangster, was found shot to death in St. Louis county tonight. Police expressed the opinion Mandel had been "taken for a ride" and shot.

## Burglars Lock Up Canine Guard; Loot Radio Store

Burglars last night broke into Zegar's music house at 3108 West 22d street, loaded radio equipment valued at \$5,000 on a truck, and drove away. A dog on guard in the place was locked in a rear room by the thieves. Neighbors heard the animal barking and summoned the police.

WOUNDED WAR VET.  
C. E. Bacon of Fairbury, Neb., yesterday asked the police to seek his son, Edward C. Bacon, 38, a wounded war veteran. The latter was last known to have been in Chicago June 1, 1927.

## AMERICA MAKES A BIG SLASH IN ITS PUBLIC DEBT

Seven Billion Off Since  
1919.

[Chicago Tribune Press Service.]  
Washington, D. C., May 2.—[Special.]—Public debt reductions during April aggregated \$30,125,067, bringing the gross debt down to \$17,847,891,931 on April 30. This represented a reduction of \$1,092,479,042 during the last twelve months, and \$7,749,109,717 since Aug. 31, 1919, when the war debt was at its peak.

The debt still outstanding includes \$1,339,154,700 of the first Liberty loan, \$1,405,132,150 of the third Liberty loan, \$2,790,638,650 of various issues of treasury bonds, \$2,353,809,800 of various issues of treasury notes, and other miscellaneous obligations.

For the ten months of the fiscal year ended May 1, income tax pay-

ments totaled \$1,670,450,279, or only about \$12,000,000 less than in the comparable period of the previous fiscal year. The loss, it is understood, resulted from a drop in back tax collections. Miscellaneous taxes during the ten months of the current fiscal year reached \$608,846,101, about \$22,000,000 less than in the same months of the fiscal year of 1927. Customs for the ten months totaled \$483,385,755, as compared with \$510,897,885 in the same period of the fiscal year 1927.

Total receipts of the ten months ended May 1, were \$3,198,488,961, as compared with \$3,216,233,469 in the same period one year ago, showing only unimportant change. Total expenditures for the period, chargeable against ordinary receipts were \$2,821,821,439, as against \$2,916,840,645 a year ago.

# Careful Drivers

## Save \$10 to \$35 on CHICAGO LLOYDS INSURANCE

THIS CAR insurance is issued only to people of known integrity and driving care. Your accident record and your personal responsibility fix your eligibility for it. A common sense way to select "Preferred Risks."

Savings . . .

To acceptable people rates lower by \$10.00 to \$35.00 per year are given. A Chicago Lloyds policy is standard insurance. There is no mutual or reciprocal assessment liability to the policy holder. All policies are written on the Valued Form.

Claim Adjustment . . .

Service in claim adjustment is remarkably fast and satisfactory. High average character of policy holders makes this practical. Red tape and costly investigation are saved. Policy holders benefit.

Security . . .

Behind your policy are over \$2,000,000 in assets. Your insurance organization is of Chicago. It is made up of over four hundred underwriters prominent in the business and financial life of this territory. It writes none but well established lines of preferred risk insurance.

Details Free . . .

A complete insurance cost estimate on your car will be furnished without charge or obligation. There is a coupon appended below for your convenience. Mail this direct to the home office of Chicago Lloyds. Besides your cost estimate a complimentary copy of The Careful Driver's Handbook will be sent you. This useful manual, now in its second edition, will prove interesting and valuable.

## OIL HEARINGS CLOSE, BAFFLED BY SINCLAIR

He Parries Every Thrust;  
Walsh in Rage.

Washington, D. C., May 2.—[Special.]—The Teapot Dome inquiry virtually ended its four year career today when the senate committee, after an afternoon of futile cross examination, abandoned its effort to break through Harry F. Sinclair's parrying and pry out of him the story of the famous fifty million dollar Continental Trading company, Ltd., deal.

Senator Walsh (Dem., Mont.), chief prosecutor of the investigation, admitting the failure to obtain any information from Sinclair, declared that when a few remaining details of the inquiry have been gathered up, the committee will begin consideration of its report.

Sinclair today refused to be bugged beyond his one admission that he received \$757,000 of the Continental company's profits, and his assertion that that amount with interest had been turned over to the Sinclair Crude Oil purchasing company last week.

He frankly admitted having discussed the Continental transaction with Robert W. Stewart, chairman of the Standard Oil company of Indiana, who with Sinclair guaranteed fulfillment of a contract under which 33,333 barrels of crude oil were purchased at \$1.50 a barrel for resale to the Sinclair Crude Oil purchasing company and the Prairie Oil and Gas company at a profit of 25 cents a barrel. The Sinclair Crude Oil purchasing company is owned jointly by the Standard Oil of Indiana and the Sinclair Consolidated Oil company.

Ingrat of Stewart's Share.

Sinclair denied, however, that he knew that Stewart, like himself, was receiving one-quarter of the profits or that Stewart had placed the \$757,000 of bonds he received in a trust to be held intact until it should be determined whether the Standard company or the crude oil purchasing company was entitled to them. The Stewart share was turned over to the crude oil purchasing company just before Sinclair was acquitted of conspiracy on April 23.

Harry M. Blackmer, former chairman of the Midwest Refining company, and James E. O'Neill, former president of the Prairie Oil & Gas company, the actual organizers of the Continental company and who also received quarter shares of its profits, are fugitives in France.

Only once during the two hours did Sinclair lose his composure and then only momentarily, when he was confronted again with the opening statement made by his chief counsel, Martin W. Littleton, to the jury in the first Sinclair-Fall conspiracy trial last October.

At that time Littleton assured the jury it would not be shown that Sinclair ever had any interest in the Continental company, ever received any of its profits or ever passed any bonds to Albert B. Fall, former secretary of the interior.

Since then M. T. Everhart, Fall's main-law, has testified both to the

committee and as a government witness in the recent Sinclair trial, that he took \$253,000 in Liberty bonds from Sinclair shortly after a Sinclair company secured a lease on the navy's Teapot Dome oil reserve.

The bonds passed, according to Sinclair, in payment for a one-third interest in Fall's ranch properties. They have been identified by their registry numbers as being part of a block of bonds bought by the Continental company out of its \$3,080,000 profits.

Sinclair, in spite of his obvious embarrassment, refused to admit that Littleton's statement to the jury was "erroneous" or "false," and insisted, until Senator Walsh finally gave up in a rage, that he never had any idea that the bonds he received were coming from the Continental company.

He did not know how the Continental company's profits were being invested and he believed the bonds turned over to him were a rebate to the Sinclair company from the "exorbitant commission" that Blackmer was getting for engineering the oil deal.

Nye Takes Hand.

Senator Nye, apparently to lay the foundation for the committee's proposed investigation into the oil leases held by the Sinclair and other companies in the Salt Creek field, adjoining the Teapot Dome reserve, asked Sinclair to "tell in a general way how all the rights in the Salt Creek field were brought under your control."

"The only control my companies have in any oil royalties in the Salt Creek field is based upon the bid we made and the interior department, I think," Sinclair began.

"But," interrupted Senator Nye, "you were not then in control—you were not then in possession of all of the wells and all of the leases in that field, were you?"

"No," said Sinclair.

"But you have since gained pos-

session," said Senator Nye.

"Where did you get that information?" demanded Sinclair, adding, "I wish I was."

He Defies Public.

Senator Cutting (Rep., N. M.) took Sinclair back to his assertion that he had kept the Continental transaction secret at the request of Blackmer.

Q—You always kept it secret from your board of directors and from your stockholders until a week or ten days ago? A—I do not remember of ever telling them about it.

Q—Well, Mr. Sinclair, do you mean to say that you really expect the public to consider that a legitimate transaction? A—I cannot be responsible for the public's opinion.

Q—I was wondering if you could not shed some additional light which might make the public believe this was a legitimate transaction? A—I do not know, Senator, how the public feels about it. I rather am inclined to leave that matter to the public.

Q—Without any additional assistance from you? A—Yes.

Clean Legal Victory.

The court upheld practically every contention of the Interborough lawyers and denied most of the points raised by the transit commission and the city. The decision held that the transit commission had the power to change the rate of fare provided in the subway contracts and that its failure to do so was an invasion of the company's right to reasonable returns on its investment, provided a 5 cent fare were insufficient. On the question of "confiscation," the court found that the Interborough had presented a prima facie case of insufficient earnings.

Earthquake and Cyclone

Injure Many in Bavaria

BERLIN, May 2.—[U.P.]—An earthquake at Pae Sau, Bavaria, shook buildings and broke windows today. No casualties have been reported. In Eoula-gria sixty persons were injured when a cyclone swept the district. A submarine rumbling accompanied the cyclone. Hurricanes are reported to have ravaged other towns. These storms are assumed to be connected with those reported in the vicinity of Spitzbergen which have delayed Gen. Noble's flight in his dirigible "Italia" to Kingsbay preparatory to beginning his flight over the north pole.

But you have since gained pos-

session," said Senator Nye.

"Where did you get that information?" demanded Sinclair, adding, "I wish I was."

He Defies Public.

Senator Cutting (Rep., N. M.) took Sinclair back to his assertion that he had kept the Continental transaction secret at the request of Blackmer.

## WINS RIGHT TO CHARGE 7 CENT FARE IN NEW YORK

New York, May 2.—[Special.]—The federal statutory court, composed of Circuit Judge Martin T. Manton and District Judges John C. Knox and William Bondy, today granted the Interborough Rapid Transit company's application for permission to charge a 7-cent fare on the subway and elevated lines pending the fixing of a permanent rate of fare.

Unless the city can obtain a stay from the United States Supreme court or post a bond to guarantee the Interborough against loss pending an appeal, the higher fare will go into effect as soon as the form of the court's order can be agreed upon. This may be a matter of some days.

Riders May Get Rebate.

The court stipulated that the company must post a bond and make provision for the return of the extra two cents to the riders if a lower fare is found sufficient when the suit is finally tried.

Meanwhile, the city's legal representatives were studying ways to save the 5 cent fare pending an appeal to the United States Supreme court. Hope was held out that the increase would not actually go into effect if at all before the end of this year.

The increase of two cents amounts, roughly, to \$75,000 a day.

Clean Legal Victory.

The court upheld practically every contention of the Interborough lawyers and denied most of the points raised by the transit commission and the city. The decision held that the transit commission had the power to change the rate of fare provided in the subway contracts and that its failure to do so was an invasion of the company's right to reasonable returns on its investment, provided a 5 cent fare were insufficient. On the question of "confiscation," the court found that the Interborough had presented a prima facie case of insufficient earnings.

session," said Senator Nye.

## CRIME INCREASE SHOWN BY N. Y. POLICE REPORT

New York, May 2.—[Special.]—Crimes of violence—murder, assault and robbery, burglary and felonious assault—increased in the first quarter of this year, as compared with the corresponding period in 1927, Police Commissioner Warren today informed Mayor Walker.

In the first three months of this year, Commissioner Warren said, seventy-six cases of murder or manslaughter were reported as compared with sixty-four last year; 698 cases of felonious assault as against 451; 296 cases of assault and battery as against 249, and 1,613 burglaries as against 823.

Unemployment, which inevitably results in an upward trend in crime, has been an important factor in conditions in this city during the last quarter," the report said.

This condition, while it affected indirectly all crimes of violence, has a particularly marked effect on the commission of such crimes as robberies and burglaries.

Commissioner Warren declared the

apprehension of various gangs had cleared up many crimes and that six gangs alone had been responsible for seventy-six robberies in 1927 and 1928. These gangs included Panto Gang No. 1 and Panto Gang No. 2, and the Olive Oil bandits.

Automobiles stolen increased from 2,845 in the first quarter of 1927 to 3,045 for the same period this year. Arrests made in the first quarter this year for crimes of violence were 1,999, as against 1,729 in 1927, and 2,283 in 1926. The average age of those arrested for burglary was again sixteen to twenty years.

In traffic violations the number of summonses and arrests increased from 15,143 in 1927 to 17,108 in 1928, but only thirty-three persons were sent to jail this year, as compared with fifty-three in 1927.

Fords Sail for Home

After Prolonged Visit

SOUTHAMPTON, England, May 2.—[AP]—Henry Ford and Mrs. Ford sailed for home today on the Majestic, ending their prolonged visit in England. Their last day was spent in New Forest in Hampshire. They dined at Beaulieu and went aboard the steamer last night.

# Blindfolded..in scientific test of leading Cigarettes, Mrs. Emily Post selects OLD GOLD

"Personally, I have never acquired a taste for tobacco. For most cigarettes seem to burn my tongue and sting my throat. The only time I ever smoke, therefore, is in courtesy to someone coming to my house, who would lay her accustomed cigarette aside unless I at least lit one, too.

"It seemed absurd, at first, that I should be chosen to attempt this blindfold test... except that never having become a smoker, my taste is extremely sensitive to the burning harshness of the average cigarette.

"But I was very much surprised to find that I had chosen OLD GOLD as being perceptibly smooth, stingless and pleasant to taste. In fact, I now quite easily understand why the OLD GOLD compartment in my general cigarette box must be so constantly refilled."

## CAPTIVE ADMITS GETTING GANGS 16 MACHINE GUNS

Seized by U. S. on Clew in Mail Robbery.

A confession that he had obtained sixteen sub-machine guns from a New York concern and had distributed them in underworld channels was reported to have been obtained yesterday by police and federal authorities from V. A. Daniels, alias Goldberg.

Tracing the two machine guns found in the arsenal and bomb cache in the home of Charles Cleaver, 10235 South Elizabeth street, alleged chief of the gang that recently held up a mail train in Evergreen Park and obtained \$132,000 in currency, led police to Daniels. He was arrested at a north side hotel and taken to the Federal building for questioning.

See Many Crimes Solved.

Police and federal authorities declared they were confident that many murders and holdups may be solved by the arrest of Daniels. The two machine guns traced from Cleaver to Daniels were said to be among the lot of seven received at a shoe repair shop at 1548 West Taylor street, consigned to Daniels, and paid for by a bogus check. The weapons were shipped by the Auto Arm corporation of New York City.

Employees of a loop bank where the bogus check was drawn viewed Daniels and identified him as the man who issued the check. Daniels was reported to be head of the Max-American company, 10 South La Salle street, and as such obtained the guns. Assistant United States District Attorney John E. Northup said he will seek a warrant today against Daniels charging him with using the mails to defraud.

Not Identified in Gang.

Mrs. Cleaver, held as a material witness by the government in the mail robbery case, was reported to have failed to identify Daniels as one of the gang which used the Cleaver home to plan the train robbery.

Circulars giving full description and photographs of Virgil Linsinger and William Jackson, two of the five indicted for the robbery, were mailed yesterday by K. P. Aldrich, chief post-office inspector. The three others indicted, Cleaver, William Donovan, and Frank Mecca, are in jail in default of bonds of \$100,000 each.

## Stench Bombs Greet U. S.

Negro Dancer in Budapest

BUDAPEST, Hungary, May 2.—(AP)—Chemical bombs were thrown when Josephine Baker, American Negro dancer, made her first appearance here last night and forced some of the spectators from the theater. The dancer ignored the commotion and continued with her program, which drew hearty applause. The audience included the French minister and other diplomats.

## Blaze in Police Station Throws 'Guests' Into Panic

Forty men and women prisoners and twenty-five sleeping hoboes were thrown into excitement last night when fire broke out in the South Clark street police station. The blaze, which started in a pile of rags at the rear of the bullpen on the second floor, was quickly extinguished by a chemical squad from the fire department.

## BRITISH CALL OFF WARSHIPS; EGYPT GETS NEW THREAT

Seek Pledge Against Stirring New Row.

BY JOHN STEELE.

(Chicago Tribune Press Service.)

LONDON, May 2.—If the Egyptian government hopes to avoid complete abandonment of the public assemblies bill through postponement of parliamentary action, which is the gist of the Egyptian reply to Great Britain's ultimatum, it is doomed to disappointment. Foreign Secretary Sir Austen Chamberlain's acknowledgement of the note, read in the house of commons this afternoon, demands an unconditional guarantee that there will be no repetition of the situation, which caused Great Britain to order several warships to Egypt to back up its demands.

After acknowledging the reply the foreign secretary's note says: "His majesty's government take note of your assurance that this decision has been taken in conformity with the ardent desire of the Egyptian government to reach understanding and conciliatory sentiments. They are, therefore, entitled to assume that the Egyptian government will be careful to avoid any revival of the controversy which has led to the present crisis."

Demands Explicit Pledge.  
"His majesty's government observe, however, that the intentions of the Egyptian government regarding the future of this bill are not explicitly stated in the note. These circumstances, they think it well to make clear in terms which will not admit of misinterpretation."

"They regard certain provisions of the bill as calculated certainly to weaken the hands of the administration's authorities responsible for the maintenance of order and protection of foreign lives and property. If, therefore, the measure in question is revived or other measures introduced which in their view present similar dangerous possibilities, his majesty's government will be obliged to intervene as in the present instance to prevent their enactment."

Five Warships Recalled.

The note concludes with a curt admonition that it has no desire to discuss the declaration of February, 1922, which is the basis of the present Egyptian independence, and which it will not permit to be modified or disregarded.

Sir Austen declared the order for five warships to proceed to Alexandria, Egypt, had been countermanded.

ROBS NORTH SIDE SHOE STORE.  
An armed man yesterday walked into the shoe store at 55 North Clark street, forced a clerk and porter into a rear room, and then took \$55 from the cash register.

## NICARAGUA BAND BLOWS UP MINES OF AMERICANS

BLUEFIELDS, Nicaragua, May 2.—(AP)—So great was the explosion which destroyed the La Luz mine in the Prinzapolka district a few days ago that trees more than a mile away were uprooted and felled, according to the story told here by the cashier at the mine, a Mr. Brown.

Assistant Manager Johnson of the mine in telling of the explosion today said all 25 cases of dynamite kept there had been used for the blast, which destroyed machinery, the mine's mill, mine houses, and offices. Parts of the machinery were found as far as 300 yards away, he said.

According to Johnson, George B. Marshall, another assistant manager at the mine, and a New Yorker, was taken prisoner by the rebels at Gen. Augustino Sandino's orders. What has happened to him is not known.

The Bonanza mine, to the north, also was blown up, but the damage there was not so extensive and Johnson said it was believed operations could be resumed.

## CHINESE OF CITY MARK OPENING OF NEW TEMPLE

(Picture on back page.)

Chicago Chinese last night joined with more than 400 of their countrymen from cities all over the United States in celebrating the dedication of the new \$1,000,000 temple built by the On Leong Chinese Merchants' association at 22d place and Wentworth avenue, an oriental temple of surpassing beauty, destined to be known as the city hall of Chinatown.

During the morning and afternoon there was pageantry and a parade in which the traditional dragon of the orient, formed by a queue of Chicago Chinese, wended its way through the streets to the temple.

In front of the new structure when night fell \$100,000 worth of fireworks was exploded.

After the fireworks, all retired to the banquet given in the Won Kow chop suey establishment, across the street, and there the Chinese welcomed Mayor Thompson and most of the judges of all the courts and numbers of other dignitaries of the city.

DAWSON'S HIT  
UNLOCKS DOOR  
TO 9-8 VICTORY  
His Triple Lets Cubs  
Sweep Series.

BY IRVING VAUGHAN.  
[Chicago Tribune Press Service.]  
Pittsburgh, Pa., May 2.—After divesting themselves of a quantity of bad baseball that caused a number of unnecessary runs, the Cubs and Pirates took their work seriously this afternoon and went to the tenth round, before being able to unlock an 8 to 8 tie. Then the Pirates did the unlocking at the sixth, when they hit a triple by Earl Nehf, who had acquitted himself admirably for a rescue hurler, and a double by Ray Jones, who had pitched well. The Pirates were forced to accept a complete loss in the three game series. The score was 9 to 8.

The show game under way as though the athletes were constructing a chess factory instead of a ball game. With the help of some errors, the Cubs jumped out in front in round one with two runs, but a slim lead such as that was as nothing to Percy Lee Jones. He let go of it so rapidly that the Pirates had seven tallies by the end of the third. This also induced Percy Lee to let go of his job. But the Pirates came back with a batch of baseball that was even worse and the Cubs kept on accepting contributions until they finally tied it in the sixth, which is how it remained until the bat of a Pirate pitcher swung in the right place in the tenth.

Nehf Efficient Workman.

After slowing a run in the fourth, the first inning he pitched, Nehf began to work his curve ball with unerring accuracy and sailed along smoothly until he had one down in the tenth. This brought up Ralph Dawson, who himself had done a most excellent job of relief throwing after being called to the assistance of John Milnes in the sixth.

Dawson then lined one to center and it should have been a single, but Hack Wilson was a bit nonchalant about getting in front of the ball and it bounced past his outstretched glove for a triple. When quiet was restored, Brickell, who had been running for Dawson, and Harris was batting for Baby Wanner. Harris was purposely walked. Then Adams booted a fly to Cuyler and Ki Ki heaved to the plate with the accuracy of a sharpshooter, but in the tangle Gonzalez was unable to hold the ball so Brickell tallied.

Cuyler Starts Things Going.

The show started to get peculiar as soon as two Cubs had been retired in the opening session. Cuyler set things going with a single to left and survived at second when Adams missed Wright's throw on Wilson's grounder. Stephenson looped a single into center scoring Cuyler, and when Baby Wanner's throw to third went past Traynor to the star Wilson ran home. Jones managed to pitch to one batter successfully before getting himself into the brine barrel. Then he walked Adams and P. Wanner was dispatched on a grounder to Grimshaw. Wright booted a single over Jones' head and Traynor crashed a two bagger to center, sending Adams over the plate and Wright to third. Grimshaw scored the two runners with a single to right and reached second safely because English dropped Grim's relay of the return throw. A wild pitch moved Grimshaw toward third and when Gonzalez had recovered the ball he pegged it wild to Butler, so Grimshaw scored.

Pirates Chase Jones.

A double by English, Adams' error on Cuyler and Wilson's long fly gave the Cubs a run in the third, but the Pirates came back with three in their half of the round and made it unnecessary for Jones to labor any longer. Adams and Paul Wanner put this chapter under way with singles. After Wright had sacrificed, Traynor lined a long fly to center and either Stephenson or Wilson could have caught it but didn't. It fell for two bases, Adams scoring. Grimshaw's deep fly let P. Wanner register, and Traynor crossed the plate when Cooney's grounder hit a pebble and jumped over English's head for a single.

When Nehf started the twirling in the fourth, the Pirates tendered him a salute of three hits and "one run, but the Cubs still had enough spunk to come back with two tallies in the sixth of the fifth. Back put this small rally under way with a pass. English lined a single to right and P. Wanner let the ball trickle through him, Beck scoring and English tallying at third. Cuyler stepped to deep short and English counted.

The instrument with which the Cubs inaugurated their trying three run rally in the sixth was a pass drawn by Nehf with one out. Beck doubled to the right field wall and Nehf halted at third. The pitcher tossed out English. Cuyler bounced to Adams and Sparks was in such haste that he booted the plate, so Ki Ki was safe and Nehf crossed the plate. Wilson then walloped the ball almost to the far pole in center for two bases. Beck and Cuyler racing home to tie the score at eight apiece.

Mac Smith and  
Compston Plan  
Match in U. S.

[Copyright, 1928, by The New York Times.]  
LONDON, May 2.—Americans are promised a great golf match during Archie Compston's forthcoming visit to the United States, when he will take part in the open championship at Olympia Fields, Chicago, in June. MacDonald Smith issued a challenge to play him in a 72 hole match for \$5,000, and Compston said today that he would accept.

"I am going over to play in the American open championship," he said. "and I am prepared to take on MacDonald Smith."

Continues Brilliant Play.

It is too early yet to fix the date of the match, but one suggestion is that the first 36 holes be played over Smith's course and the remaining 36 over some other course.

Compston now is practicing at Sandwich for the British open championship, which will begin on Monday. In his practice he has been keeping up the form which overwhelmed Walter Hagen last Friday and Saturday. His rounds of 67, 66, and 70, for an average of thirteen under for fifty-four holes, against such a player as Hagen have made him a strong favorite for the championship, and his fellow countrymen hope he will average the American victories of four over years by also capturing the American open.

Compston Precise Potter.

Compston, dour and stern of face, is a fighter who stands well over six feet and has the physique of a true golfer. He is capable of hitting the ball straight for prodigious distances. He practices assiduously, especially at putting, in which he has become almost mechanically precise.

The Scottish born MacDonald Smith should have won the British open championship in 1925. He started the last round with a lead of 6 strokes over his nearest rival and his failure to win is ascribed to the huge crowd which interfered with his play.

How Derby Colts  
Ran Yesterday

AT LEXINGTON.

Dodgers—Ray winner of mile race in 1:30 after coming from behind.  
Redskins—Beck and half.  
Lebanese—Yard—Ran next to last in same race.  
Lebanese—Yard—Ran second to Despard in mile and sixteenth to Tonna in sprint claiming race.

AMERICA.

The Tonia—Made show of field in six furlong race in 1:13.15.  
Furrier—Ran in same race.  
Pine Flier—Won sprint handicap at 6 furlongs easily in 1:13.5.  
Tonia—Ran 6 furlongs race in 1:14.  
Charles H.—Finished third to Nursery Rhymes.  
High Game—Far back in Nursery Rhymes race.

Tonia—Ran wide on all turns and landed in money in mile and sixteenth standard race.

ORESTES II., 22  
TO 1 SHOT, WINS  
AURORA RACEHot Time, Conquistador  
Quit in Stretch.

BY FRENCH LANE.  
[Pictures on following page.]  
Aurora, Ill., May 2.—Orestes II., owned by Miss M. Kelly of Chicago, dropped out of the clouds in the Geneva Speed Handicap this afternoon and when the battle ended was on the front of the parade, a winner by half a length from Anacosta. For those who backed him there was a reward of \$45.86 awaiting in the \$25 mutuel market.

The winning march of the long shot, which in other seasons has been regarded strictly as a muddy track performer, spoiled a big party arranged by Mr. Packey McFarland of Joliet. He had invited all his friends out to the track to see to speed marvel. Hot Time, win this handicap, and when Hot Time galloped around the last turn in front, the party was about to begin.

Leaders Quit in Stretch.

Complications entered into the struggle soon after the stretch run started. Conquistador, a weak hearted sprinter from California, came with a spectacular rush. Here were two great sprinters looking up in duel that was expected to carry them all the way down the stretch to the finish line fighting for every inch of advantage.

Instead of this kind of a battle they immediately staged a quitting contest. Conquistador was the more skillful quitter. As he floundered and began to come back, the mud runner, Orestes II., loomed up dangerously on the outside. Jockey J. Leyland was giving him a rousing yet confident ride. He soon made Conquistador drop out of it. Hot Time then lost interest in the race and began to stop. This gave Leyland his opportunity. He picked Orestes II. up and sent him to the lead a sixteenth out. He held Anacosta safe in the final drive.

While this caused the party of the McFarlands to become somewhat of a fizzle, there was another gathering of south side turf followers which was a huge success. This one was staged by Mr. Bernard Berman, who doubles in moving pictures and race horses. The Berman party was arranged to see Royal Ruby, a two year old filly, make the south side, perform in the St. Charles purse, which engaged some of the most aristocratic juveniles here.

Wins by Length.

Royal Ruby ran a smashing race and after Bouncing Ball had fairly sizzled a half mile he made the pace, Jockey R. Moser moved him. Ruby ran a sixteenth out. The daughter of The Porter responded with a fine rush, soon overtook the doting Bouncing Ball, and eventually wound up the winner by a length. Bouncing Ball beat out Peggy Lee for second place.

The guests at the Berman party had been down hook, line, and sinker on the speedy chestnut, tossing so much money into the mutuels that he was the favorite at only a little better than even money when the start came. Berman picked her up for a song at New Orleans last winter, and she ran in way to indicate that he got a rare bargain.

The racing, except for the upset in the Geneva handicap, again was formal during most of the afternoon. The crowd numbered around 6,000.

Street Lids Left at Post.

The sixth race jolted the backers of favorites somewhat when Street Lids, ridden by the inexperienced J. Cavens, was all but left at the post. She then proceeded to run far back of her hand all the way around. Clapper was the winner and Cavens' ride was so bad that probably it will be some time before the players make anything like the choice.

Another Chicago victory came in the first race, when the favorite, Sturdy Stella, from the Dearborn stable, showed her heels to a band of a dozen sprinters. Supporter took the early lead, but the Chicago mare whipped the son of Hilarious turning for home and won fairly handily under a snug ride by R. Finnelly. The mutuel price was \$5.20.

Mr. Pyle, Like Mr. Coxey,  
Will Lead His Army on Foot

(News Note)—Deputy sheriffs yesterday seized C. C. Pyle's palatial transcontinental automobile bus at Joliet. They took Pyle's traveling home on a writ of attachment returned in favor of the defunct Illinois Trust and Savings bank of Champaign to satisfy a \$21,500 note which the bank's receiver said Pyle had not paid.)

run from Lincoln to this fair suburb of Bloomington.

After reading Bible students with the great Pyle Marathon Troupe and Sideshow Freaks Combined tonight are recalling the story of Samson and his justly famous loss of strength.

While Maestro Pyle was away last night Pete sneaked into a barber shop and had his hair cut and his beard eradicated. These ornaments in recent weeks have gained more pure reading matter in the public prints than Pete's running technique and the sideshow fat lady's statistics.

That Pete would do this thing just when the show was getting into the Chicago photograph scene irked his chiefs.

"What in hell came over you?" they are reported to have inquired of the little fellow who has trotted 2,353.3 miles in 271 hours 41 minutes and 49 seconds. "Here we've been working like dogs getting things set for a swell Chicago ballyhoo and you spoil our best plans by getting your whiskers shaved just when they were getting nice and flowing and curly on the ends."

"All you're asked to do is run and grow whiskers. And now you shirk half of the responsibility. That's what I'm here for you."

Pete was sorry and offered to do false whiskers, but was informed no deception had been tolerated thus far and nothing could make him betray his public.

Up to this point, however, Pete hadn't dreamed that being shorn would affect his running. But when he came in sixteenth place, you should have heard those scholars telling the Samson story.

His trainers keep telling him there's nothing to the hair and strength idea, unless he was shaved by a lady barber. Psychologists are working on Pete tonight and hope to have him in shape to push off for Pontiac at 7 o'clock tomorrow morning.

(News Note)—William Pickens, press agent for C. C. Pyle and Red Grange and their transcontinental caravan, issued the following statement last night: "Believing that his runners need his personal leadership, Mr. Pyle has decided to leave his \$25,000 bus temporarily in Joliet and accompany the runners on foot. Reports that Mr. Pyle is planning to walk out on the rest of the walkers are libelous and untrue."

BY EDWARD BURNS.  
Normal, Ill., May 2.—[Special.]—As the poet would say, the somber shades of evening had fallen here tonight and the rear guard of Charley Pyle's Los Angeles to New York caravan had struggled through the doorway of the hall in which the troupe is housed when up stepped Red Grange and called for silence.

"Champions of the long trail," he shouted, "I have an announcement to make."

"Make it after we eat," suggested one of the knights of the fallen arches, "my dogs will feel better then."

"Tell it to Oscar," shouted another. He was being facetious. Oscar is the name of the caravan's mascot, a small dog, one of the Derby leaders.

"No, my news cannot wait," Red answered.

"Hurray!" shouted seventy-one runners in unison.

A deputy constable working for railroad trustees seized his \$25,000 bus this afternoon at Joliet and it is now parked behind the jail house.

"Is Charley in or out?" asked little Pete Gavus, one of the Derby leaders.

"Too bad," Red answered.

"You'll all be thrilled to learn," Red continued, "that Mr. Pyle now proposes to lead you into Chicago on foot. Tired as he is, what with riding all the way from Los Angeles, disappointed though he is at losing the magnificent bus, he is not discouraged. He wants you to know that from now on he'll be at your side."

Seventy-one runners snickered.

But, whether Red's announcement can be called news or not, Mr. Gavus, who has been the caravan's steward since the burning sales, provided a juicy morsel of his own.

For Pete, who has been staggering in the control points fire, came in tonight a groggy sixteenth in the heat.

KEGEL URGES  
PHYSICAL EXAM  
FOR CADDIES

Healthier and happier golf caddies is the objective of the latest campaign started by the city health department. Commissioner A. H. Kegel announced yesterday that he will ask all of the country clubs in the Chicago vicinity to give their caddies a physical examination.

"Some of these boys, 19 to 22 years old, have no idea of what a caddy is, and they are as weak as clubs around all day," Dr. Kegel said.

Concordia College Nine  
Swamps Crane, 19 to 3

The Concordia college nine strengthened its claim on the Northern Illinois Junior conference title by walloping Crane college, 19 to 3, at Concordia, yesterday. Krohn and Jackel pitched good ball, and the Concordia team, which was a spectator when Hahn raced a half mile indoors in 1:51.25 and expressed the hope that he might meet the American shot Douglas Lowe, of England, present Olympic champion, in the 800 meter test at the Olympics.

The slim German engaged in several races during a recent American tour, leading to the American star, Lloyd Hahn, over the mile route. He was a spectator when Hahn raced a half mile indoors in 1:51.25 and expressed the hope that he might meet the American shot Douglas Lowe, of England, present Olympic champion, in the 800 meter test at the Olympics.

Pirates Release Peery,  
Pitcher, to Wichita

Pittsburgh, Pa., May 2.—(AP)—George Peery, left handed pitcher of the Pittsburgh Pirates, was released under option today to the Wichita, Kan., club of the Western league and will leave tonight to join the Wichita team. Peery was obtained from

North Central College

Naperville, Ill., May 2.—[Special.]—North Central college baseball team defeated Aurora college, 9 to 4, here today.

N. Y. GIANTS OUST  
McQUADE FROM  
TREASURER'S JOB

BY WESTBROOK PEGLER.  
[Chicago Tribune Press Service.]  
New York, May 2.—Those two sterling sportsmen and stewards of the great national game, Charles A. Stoneham, a d Judge Francis X. McQuade, have had a falling out. His honor, Judge McQuade, was a voted out of his job of treasurer of their firm, the New York Giants, today and when he heard about this action of the board of directors he issued a statement threatening to tell the public some things which he claims to know about Mr. Stoneham.

"Explains Source of Trouble."

As a starter, Judge McQuade said that Mr. Stoneham had been handling the funds of the New York baseball club, the Giants, as though they were his own and had shown no regard for the rights of the minority stockholders, including Judge McQuade.

He also alleged that Mr. Stoneham tried to put him out of his job of treasurer of the Giants months ago in order to put in Leo Brady, Stoneham's lawyer. He said there were four dummy directors, stockholders in name only, who voted to do this to him, but added that John J. McGraw, also a director, was present and not voted against the ouster but protested against the vote of the others.

"Mr. Stoneham never made the slightest effort to carry that vote into effect and I have been fully recognized as treasurer since that time and signed all the checks of the club as treasurer," Judge McQuade said this evening.

But this morning the directors met again and did it again and this time it seems to have counted.

"In violation of a written agreement between Stoneham, McGraw, and myself to vote for each other, both Stoneham and McGraw refrained from voting and on the votes of the dummy directors, Mr. Brady was declared elected in my place," his honor's statement lamented.

Where Does McGraw Stand?

The position of Mr. McGraw in the unfortunate state of affairs has not been made clear and it may be that Mr. McGraw does not know where he stands himself. He was supposed to be a special friend of Judge McQuade but here now is His Honor saying that Mr. McGraw did not have the fidelity to vote for him again.

Notwithstanding his position as a city magistrate, Judge McQuade is a man of boyish nature and sometimes when he is around with the boys he is so boyish that misunderstandings arise. In this way he has lost the friendship of some of the boys, although he probably does not mean some of the impulsive things he says.

There is a feeling here that it would be most tragic if these two sportsmen should really become acrimonious as it might alter or even destroy certain illusions of the public and injure the morale of the ball players who always look to the stockholders for an example of fairness and high principle.

Judge Says Stoneham  
Mishandles Funds.

BY FRANCIS X. McQUADE.  
New York, May 2.—Those two sterling sportsmen and stewards of the great national game, Charles A. Stoneham, a d Judge Francis X. McQuade, have had a falling out. His honor, Judge McQuade, was a voted out of his job of treasurer of their firm, the New York Giants, today and when he heard about this action of the board of directors he issued a statement threatening to tell the public some things which he claims to know about Mr. Stoneham.

"Explains Source of Trouble."

As a starter, Judge McQuade said that Mr. Stoneham had been handling the funds of the New York baseball club, the Giants, as though they were his own and had shown no regard for the rights of the minority stockholders, including Judge McQuade.

He also alleged that Mr. Stoneham tried to put him out of his job of treasurer of the Giants months ago in order to put in Leo Brady, Stoneham's lawyer. He said there were four dummy directors, stockholders in name only, who voted to do this to him, but added that John J. McGraw, also a director, was present and not voted against the ouster but protested against the vote of the others.

"Mr. Stoneham never made the slightest effort to carry that vote into effect and I have been fully recognized as treasurer since that time and signed all the checks of the club as treasurer," Judge McQuade said this evening.

INJURY MAY KEEP  
PELTZER OUT OF  
OLYMPIC GAMES

WICKERSDORF, Germany, May 2.—(AP)—The running "idol of all Germany, Dr. Otto Peltzer, may be lost to the Teutonic Olympic cause because of a knee injury suffered during a handball game in a field at Poesneck on Sunday.

The German half mile ace, who holds the world's outdoor record of 1:51.25 for that distance as well as record performances for the 500 and 800 meters, fell in a general scuffle during the play. The injury at first was not considered serious, but physicians now fear that weeks may elapse before the runner can resume training. Fear is felt that it then will be too late for Peltzer to get in condition for the games at Amsterdam.

The slim German engaged in several races during a recent American tour, leading to the American star, Lloyd Hahn, over the mile route. He was a spectator when Hahn raced a half mile indoors in 1:51.25 and expressed the hope that he might meet the American shot Douglas Lowe, of England, present Olympic champion, in the 800 meter test at the Olympics.

## BETTER GOLF

BY JOCK HUTCHISON.

ARTICLE X.

THE preceding articles in this series have been devoted to giving the fundamentals of a full swing with a driver, which is the freest swing in golf and the foundation of all swing. It occurs to me that here would be a good place to add a few observations, some of them the results of questions, which didn't seem to have control of the club head at all made the play at first. Falc scores—

Tigers Score in First Inning.

DETROIT showed symptoms of hitting in the first inning when Sweeney lifted a hot triple over Metzler's head to the flagpole and scored on Rice's bouncer. Barrett, after a double play had stopped the Detroiters in the second, those hitting symptoms broke out into a mild epidemic in the third, when three more of the team homered. His hit and looked the same in Detroit's bat bag.

The inning began with a great catch by Kamm, who raced over to the boxes, and leaning far over the railing, grabbed Shea's hard foul with one hand. Carroll was out when Clancy speared Clancy's head throw, but the run bled. Tavener singled to right field and in attempting to catch him, field foul line, scoring both of them. Rice went to third on the throw in and Helman singled him home.

The Tigers scored once in the next inning when Gehring walked and was forced by McManis, who moved over the plate on Shea's three base hit to deep center. Two hits in the fifth netted nothing when the second of two extremely useful double plays ended the inning after Tigers had camped on first and third, but they grabbed their final pair of runs in the eighth.

Clellin Throws Out Rice.

This bad inning for the Sox also began with a brilliant bit of fielding when Bill Clellin dug a speedy grounder out of the dirt to nail Rice by an umpire's choice. Barrett stopped Helman's grounder, but threw the ball to the grandstand and Helman was safe second. Cox took Gehring's bouncer and after four men had scored it around over Helman's head between second and third, Helman went back to second, where Gehring was attending, and Gehring was waved away. McManis doubled to left, scoring Helman and Eastering single to center, scoring McManis.

The Sox got men on base in six innings, but when they did, Carl began to bear down and there they stopped. Metzler hit to center for two bags in the first inning after two were out, but Carroll stopped that sort of thing right there.

With two down in the ninth, Falk and Kamm singled, but Clellin, swinging viciously to make it game No. 15 with a hit, slipped one to the shortstop for a force out.

Lions was reported to be entirely free of fever at Mercy hospital last night, but he will remain three or four days to rest in order that he may be released. His may join the club in the east in a week or ten days. Mo Berg will remain behind until a split finger heals, probably to go east with Lyons.

## EARLY ADVANCES IN STOCKS LOST IN SELLING WAVE

### YESTERDAY'S AVERAGES

	High	Low	Last	Close
25 railroads	136.25	134.93	135.00	47
25 industrials	207.70	204.65	205.84	48
25 stocks	190.00	184.79	190.75	48

New York, May 2.—Two threatening clouds—the possibility of an increase in the New York federal reserve discount rate tomorrow, and the prospect of another big increase in the monthly report on stock exchange member loans due within a few days—appeared on the speculative horizon today and caused operators to bid the advance to shorter sale.

Prices, which had advanced 1 to 1 1/2 points in early trading, were substantially reduced, or wiped out, in the late selling movement, and in a few cases converted into net declines. The day's sales again fell short of the 4,000,000 share mark. Lowering of the call money rate from 1/4 to 1/2 per cent, with the lower figures shaded in the outside market, was a steady influence.

New Peaks Attained Early.

Three score issues had been elevated to new high prices for 1928, or longer, in the early buying movement. The list included such popular shares as American Telephone, International Telephone, American Can, Armour B, American Home Products, American Bank Note, Columbia Gas, Southern California Edison, Philadelphia Co., Federal Light and Traction, Pacific Gas, Standard Gas and Electric, Canada Dry, Olinger Air, Park and Tilford, Stromberg Carborator, Tennessee Copper, and National Power and Light.

New York Transactions were heavily bought in anticipation of the favorable Federal court decision on the Interboro Rapid Transit application for a 7 cent fare, which was announced after the close of the market.

Oil shares gave a rather disappointing performance. Houston broke 6 points to 146 and Atlantic Refining, the Pan-American issues, Standard Oil of New York and some of the other recent favorites fell back 1 to 1/2 points. Fresh weakness also developed in the tobacco shares, several of which sank to new low levels for the year.

New Haven Is Advanced.

Speculation in the railroad shares was confined largely to the nondividend paying issues. New Haven was run up more than 3 points to 68 1/2, the highest price since 1916, on buying influenced by expectations of an early resumption of dividends. New York, Ontario and Western touched a new peak at 89 and then eased to 87 1/2. Chicago and Alton issues, which were heavily bought yesterday, moved up to new high records and then broke sharply, the preferred dropping from 26 1/2 to 26 and the common from 18 1/2 to 18.

Southern Railway, Southern Pacific and Colorado and Southern broke through to new peak prices and Frisco common climbed more than 3 points to De la Ware and Hudson, Lackawanna, Reading second preferred and some of the other recent leaders declined a point or two.

ON FOREIGN BOURSES.

LONDON, May 2.—(AP)—Our dividend per share. Money 4 1/2 per cent. Discount short-term and three months, 4 per cent. PARIS.—(AP)—Mixed price changes marked trading on the bourse today. Three per cent rent, 60 francs 60 centimes. Five per cent loan, 80 francs. Exchange on London, 194 francs 2 centimes. The dollar was quoted at 25 francs 45 centimes.

## TOPICS OF FINANCE AND TRADE

The International Cement corporation announced the purchase of the Phoenix Portland Cement company, whose plant is located at Napa, Pa., and the Warrior Cement corporation, whose plant is at Demopolis, Ala. These additions bring the number of plants under the International system to thirteen and the total annual productive capacity to 20,000,000 barrels.

Details of the recapitalization of the Maytag company are made public in a letter to stockholders signed by F. L. Maytag, chairman, revealing that each present 100 shares of common will receive 100 shares of new common, five and five-eighths shares of first preferred as dividend, and twenty shares of cumulative preferred, carrying warrants to purchase thirty additional common shares at \$20 a share. A special meeting of stockholders to approve this plan will be called shortly. The present offering of preferred stocks gives the effect of a resale of the new preferred purchased by bankers from large stockholders, who will receive senior stocks under the recapitalization plan.

The General Electric company, which recently bought control of Metropolitan Vickers, Ltd., one of the leading British electrical manufacturing companies, has transferred these holdings to Dudley Docker of London, a financier who seeks to unite the British electrical industry into a single powerful unit. The transfer was disclosed in a report of remarks made by the chairman of Metropolitan Vickers at the annual meeting. The consideration which General Electric received was not disclosed.

An official of the Richfield Oil company stated that the company is negotiating with the Pan-American Western Petroleum company for acquisition of the

## Reports on CANADA'S CROPS

A frequent interval throughout the season the Bank of Montreal issues reports on the progress of the crops in Canada. These reports, telegraphed to headquarters from the Bank's 600 branches, covering every Province from a reliable index of crop conditions.

The reports are furnished free. Upon request at any Branch of the Bank, or to the Chicago office, 27 South LaSalle St., Chicago, your name will be placed on our mailing list.

**"PAYABLE SEMI-ANNUALLY"**

ONE of the most important phrases on the face of a good bond is this—"payable semi-annually."

Only three words—but important ones. For they mean that your income from that investment is a fixed and sure one, to be received by you twice a year, as regularly as the dates on the calendar.

Payable semi-annually—adding to your capital, and increasing your income, without risk, anxiety or effort on your part. Payable, not at uncertain intervals or on an indefinite basis, but at fixed times and in known amounts.

You can assure a steady income, even arranging for it to be spread over every month of the year, if you wish, by investing in safe bonds. Our list of offerings will help you.

## NEW SALES RECORD IS ESTABLISHED ON CHICAGO EXCHANGE

All records in trading on the Chicago stock exchange were broken yesterday when total sales of 231,000 shares were registered in a market which was generally strong. The previous high mark in sales was established on March 5, 1923, when sales were 205,561 shares. Q. R. S. featured the up side with a 7 point jump to 73. The action was attributed to pool activity. Company officials stated there has been no developments in the affairs of the company to account for the advance. Borg & Beck and Standard Dredging sold 4 points each.

Campbell, Wyant & Cannon Foundry advanced 3/4 on the earnings statement for the first quarter of 1928, which showed net after charges and taxes of \$435,031, equal to \$2.08 a share. Pines Winterfront and Marvel Carburetor each gained 3 points. Advance of a point or so were registered by Stewart-Warner, Henney Motors, Lion Oil, A. M. Castle, Foote Bros. Gear and Nobilita-Sparks.

Baxter Laundries was again under

Value of membership on the New York Cotton Exchange went to a new high record of \$43,000 yesterday, which was paid for the meal of Simon J. Shlenker by Leon H. Reid.

accumulation, reports in La Salle street having it that negotiations for the acquisition of another large chain of laundries are making headway. The stock closed fractionally higher. Gains of a fraction were also established by Libby, McNeill & Libby, Electric Household Utilities and Hendrix.

Electrical Research Laboratories led the few weak spots with a drop of 1/2 point to 21.50. Household Electric and All-American Radio were fractionally lower.

Keynote Steel responded on moderate trading to the declaration of a quarterly dividend of 75 cents a share with a jump of 10 points. The new dividend rate on the 110,000 shares of new stock of 15 annually is equal to 11 1/2 a share on the old stock compared with \$4 a year. The new stock was listed for trading after the close.

Recent strength in Middle West Utilities was on the expectation that the report for the first quarter of this year will show a decided increase in earnings as a result of acquisitions of companies. Two of the companies which reported quarterly earnings yesterday show marked increases. The Central & Southern Utilities company reported net of \$1,138,826 after charges and taxes for the quarter as compared with \$2,581,555. The North West Utilities company reported net after taxes of \$1,072,800 against \$990,536.

## COTTON IS SOLD ON IMPROVED WEATHER

Improved weather conditions and lower and disappointing cables from Liverpool yesterday brought a selling movement for profit in cotton which although meeting fair resistance in the way of supporting orders, carried prices down and made a close at practically the bottom.

At the close net losses on futures in Chicago were 34 to 44 points. Spots lost 28 points in New Orleans, being 21.75. New York lost 50 points to 22.00. Memphis was 21.50 and Galveston 21.50. Liverpool closed 15 to 13 points net lower, with sales of 5,000 bales.

## Pacific Gas and Electric Company

San Francisco, California

## Summary of Annual Report for 1927

Following is a summary, in comparative form, of the income account of the Pacific Gas and Electric Company and of its wholly owned subsidiaries during each of the past four years. The statement for the year 1927 includes all of the Pacific Company's carrying charges arising out of the acquisition as of May 1, 1927, of controlling interests in the Western States Gas and Electric Company, Coast Valleys Gas and Electric Company and certain other companies, but excludes the operations of these controlled companies except that their surplus earnings during the last eight months of the year, applicable to the Pacific Company's investment in these affiliated corporations, have been included as an item of miscellaneous income. Steps to merge these properties with those of the Pacific Company are well under way and will undoubtedly be completed in 1928.

### INCOME ACCOUNT

	Year 1927	Year 1926	Year 1925	Year 1924
Gross Operating Revenue	\$54,719,227	\$50,960,571	\$47,729,079	\$44,451,586
Operating and Administrative Expenses, Taxes, including Federal Taxes payable in 1928, Maintenance and Reserves for Insurance, Casualties and Uncollectible Accounts	30,175,453	29,654,475	28,896,712	28,203,096
Net Earnings from Operation	\$24,543,774	\$21,306,096	\$18,832,367	\$16,248,490
Add Miscellaneous Income	901,817	165,419	337,818	483,097
Total Net Income	\$25,445,591	\$21,471,515	\$19,168,185	\$16,731,587
Bond Interest and Discount	9,545,406	8,383,425	7,508,837	6,645,821
Balance	\$15,900,185	\$13,088,090	\$11,659,348	\$10,085,766
Reserve for Depreciation	4,229,934	4,228,850	3,807,991	3,057,417
Surplus	\$10,970,251	\$8,859,240	\$7,851,357	\$7,028,349
Dividends Paid on Preferred Stock (6%)	3,969,059	3,488,880	3,265,434	3,244,608
Balance	\$7,001,192	\$5,370,360	\$4,585,923	\$3,783,741
Dividends Paid on Common Stock (8%)	4,892,352	4,119,970	3,624,337	3,040,123
Balance (Undistributed Surplus)	\$2,108,840	\$1,250,390	\$961,586	\$743,618

Earnings on Average Stock outstanding during each year—

	Preferred	Common
1927	16.58%	15.23%
1926	14.45%	10.42%
1925	14.43%	10.12%
1924	13.00%	9.96%

CUSTOMERS:

At the close of 1927, there were 967,717 active meters in service, a net gain of 92,993 during the year. Of these, 76,070 were connected to the lines of the newly acquired Western States and Coast Valleys Companies. The sale during 1927 of the major portion of the company's water distribution systems resulted in a reduction of approximately 16,000 of the number of customers furnished with water service. Making proper allowance for this and excluding the acquired properties the real gain exceeded 32,000. With the customers of the acquired properties included, the real gain exceeded 108,000.

Customers—20 Years' Growth by 5-Year Periods	Gas	Electric	Water and Steam	Total
Dec. 31, 1907	122,304	54,772	5,539	182,615
1912	194,914	117,065	8,238	320,217
1917	243,182	194,374	13,101	450,657
1922	316,268	311,615	17,527	645,410
1927	453,132	506,987	7,598	967,717
Gain in 20 Years	\$30,828	452,215	2,059	785,102
Gain in 1927	34,591	72,100	13,698	92,993

GROSS OPERATING REVENUE:

In 1927 and for the twenty-second consecutive year, aggregate gross operating revenues of all departments reached a new peak, exceeding that of 1926 by \$3,758,656, or 7.38%. Except for the sale of the Company's telephone properties and certain of its water distribution systems early in 1927, its revenues would have exceeded by more than \$400,000 the total of \$54,719,227. Combined gross of the Pacific, Western States and Coast Valleys companies for the entire year amounted to approximately \$60,000,000.

Revenues from the Company's electric and gas departments, which now comprise 97% of its business, increased respectively by \$2,472,646, or 7.9%, and \$1,744,330, or 10.6%. The following table shows the amount and per cent of this operating revenue contributed by each department:

	1927	% of Whole
Electric Department	\$33,851,104	61.87%
Gas Department	19,271,711	35.22%
Street Railway Department	683,640	1.25%
Water Department	492,768	.90%
Steam Sales Department	412,122	.75%
Telephone Department	7,882	.01%
Total Gross Operating Revenue	\$54,719,227	100.00%

### OPERATING AND ADMINISTRATIVE EXPENSES AND TAXES:

The downward tendency in this group of expenditures, as related to the volume of business, is shown in the following table:

Year	Gross Operating Revenue	Operating and Administrative Expenses and Taxes	Per Cent of Expenses to Gross
1924	\$44,451,586	\$24,867,625	56%
1925	\$47,729,079	24,785,076	52%
1926	\$50,960,571	25,560,951	50%
1927	\$54,719,227	26,098,225	48%

Operating and administrative expenses during 1927 decreased by \$900,297, the major influences that tended to bring about this result being: (1) the utilization of enlarged resources of hydro-electric energy brought into the system from Pit River plants and other sources, with a continuing reduction of steam costs; (2) relief from the operating costs of telephone and water properties sold in the early part of the year; (3) diversion of a portion of management and other costs to newly acquired properties, for which only the net results appear in our income account statement, and economies effected through unified operation; (4) continuation of our program to effect permanent economies in all branches of the service.

### MAINTENANCE AND DEPRECIATION:

Maintenance work proceeded at a normal rate throughout the year and the condition of the properties has been fully maintained.

The amount set aside for depreciation was increased by \$701,084 to cover additional tangible property of a depreciable character. Total accruals to this reserve in the period from 1909 to 1927, inclusive, were approximately forty-nine million dollars. Of this amount, approximately twenty-nine million dollars has been utilized to write off obsolete, replaced and abandoned property, leaving a balance of \$19,540,000 in the reserve at the close of 1927.

Measured by its relationship to gross operating revenue, which is one of the commonly accepted standards for determining the sufficiency of the provision made for maintenance and depreciation, the aggregate of these items during the past twelve years has averaged sixteen per cent.

### INSURANCE AND OTHER RESERVES:

Increased provision, commensurate with the greater volume of business and property, was made from income last year to cover losses from uncollectible

accounts, accident and damage payments, fires and other contingencies, the balances in these reserves at December 31, 1927, aggregating \$1,488,660, as follows:

Uncollectible Accounts Reserve	\$ 179,597.58
Insurance Reserve	1,126,280.70
Casualty Reserve	182,781.65
Total	\$1,488,660.03

### FIXED CHARGES:

Bond interest chargeable to operating account in 1927 amounted to \$9,077,587 and was earned 28 times, the margin remaining after the payment of interest charges being \$16,368,004, or \$2,822,495 in excess of the preceding year. In no one of the past fourteen years have interest charges ever been earned less than twice, and net income during the entire period has averaged 2.63 times interest charges.

The strong position of the Company's secured obligations with respect to earnings available for the payment of interest charges is paralleled by an equally sound position with respect to the tangible equities underlying them. Since the Company's initiation in 1914 of the now nationwide customer-ownership movement, the assets underlying these bonds have been increased through the investment in additional plants and properties of the proceeds of \$95,000,000 par value of preferred and common stocks, which are now selling in the market at substantial premiums. Subsequent to the execution in 1920 of the Company's First and Refunding Mortgage, the net increase in the book value of physical assets, taken at cost and after writing off all obsolete and abandoned property, has aggregated \$149,683,430, or \$75,372,030 in excess of the total increase in the par value of bonds outstanding. The following table shows for the past seven years the steadily increasing equities underlying these bonds:

Year Ended Dec. 31	Book Value of Fixed and Working Capital	Par Value of All Bonds Outstanding with Public	Excess of Physical Assets Over All Bonds
1920	\$170,963,558	\$ 95,734,600	\$ 75,228,958
1921	197,720,932	113,495,700	\$ 84,225,232
1922	208,564,818	111,700,700	\$ 96,864,118
1923	232,235,281	129,592,600	\$102,642,681
1924	263,676,639	133,337,300	\$130,339,339
1925	279,840,173	161,852,800	\$117,987,373
1926	302,402,941	170,209,800	\$132,193,141
1927	320,645,988	170,070,000	\$150,575,988
Increase 7 Years	\$149,683,430	\$ 74,311,400	\$ 75,372,030

### SURPLUS AND DIVIDENDS:

The surplus available for the payment of dividends on outstanding stock, after the deduction of prior charges, including depreciation, aggregated \$10,970,251, an increase compared with the preceding year of \$2,111,011. The following table indicates the constant strengthening of the conservative relationship of tangible equities and earnings which we have always sought to maintain with respect to the outstanding amount of this widely distributed investment security:

Year Ended Dec. 31	Surplus Available for Dividends after Prior Charges and Depreciation	Preferred Dividends	Balance
1920	\$ 3,919,959	\$1,779,933	\$2,140,026
1921	4,969,230	2,132,283	2,836,947
1922	6,587,159	2,574,156	4,013,003
1923	6,756,284	3,103,847	3,652,437
1924	7,028,349	3,244,608	3,783,741
1925	7,851,357	3,265,434	4,585,923
1926	8,859,240	3,488,880	5,370,360
1927	10,970,251	3,969,059	7,001,192
Increase in 7 Years	\$7,050,292	\$2,189,126	\$4,861,166

The balance available for common stock dividends in 1927 was \$7,001,192, equivalent to 11.45% on the average amount outstanding during the year, and to 10.65% on the total amount outstanding and subscribed for at December 31, 1927. Dividends amounting to \$4,892,352 were paid at the established rate of 8%, leaving a final balance of \$2,108,840, exceeding the corresponding item during 1926 by \$858,450, to be carried to undistributed surplus.

### RIGHTS TO COMMON STOCKHOLDERS:

The Company's common stockholders of record at the close of business January 26, 1927, were offered the right of purchasing, at its par value of \$25 per share, additional common stock in the proportion of one share of new stock for each ten shares held on that date. The value of the rights under the Company's three "par offerings," based on the average selling price of these rights on the New York and San Francisco Stock Exchanges, aggregated \$1,131,074 in 1926, \$1,284,622 in 1927 and \$5,219,680 in 1928, equivalent to 2.35%, 2.43% and 8.00%, respectively upon the total common stock outstanding at the time of such offerings.

## PLAN CATHOLIC HIGH SCHOOL FOR OAK PARK BOYS

BY AL CHASE.

Oak Park, which already has one of the largest and best equipped public schools in the world, with big additions planned, is going to have a Roman Catholic high school for boys which it is claimed will be one of the most modern in the country. The Dominican College of St. Thomas Aquinas has purchased the entire block of frontage on the south side of Washington boulevard, between Scoville and East avenues, through Cramin & O'Connor. The Dominican Fathers of River Forest are to be in charge of the new school.

The building will contain a gymnasium, swimming pool, laboratories, etc., and will serve graduates from Roman Catholic grammar schools in the western part of Chicago, according to the brokers.

**Buy Cusack Homestead.**  
In assembling the high school site the homestead of the late Thomas Cusack, with 258 feet frontage on the boulevard, at the southeast corner of Washington and East, was purchased for a reported \$105,000. Fifty feet adjoining the Cusack home, improved with a frame residence, was bought from Albert N. Hauser for a reported \$22,000.

The southwest corner of Washington boulevard and Scoville avenue, with fifty-eight feet of frontage, improved with a frame house, was purchased from Dr. Martin D. Jones. The price was reported to have been \$25,000. The entire site fronts 355 feet on Washington boulevard, with a depth of 150 feet.

**State Street Deal.**  
The five story and basement building at 35 South State street has been subleased by Sara Friend to Samuel Katz for an undivided consideration for a term of five years. Mr. Katz in turn subleased the entire second and third floors together with a portion of the ground floor to Sally Procks for five years at a rental that likewise is kept dark.

The structure is to be known as the Sally Procks and Millinery building. It measures 18x25 feet. A half the main floor will be used by the dress concern, and the other half will house Mr. Katz millinery establishment. Cerf & Ehrenhalt were brokers.

## Sale and Merger Rumors Mention Chicago & Alton

Rumors concerning the affairs of the Chicago & Alton railroad were current among stock market operators yesterday as a result of gains in the price of the company's stock during the last few days. The favorite report was that either or both the Baltimore & Ohio and the Pennsylvania were seeking to purchase or to obtain control of the Chicago & Alton. The main purpose of the two eastern lines, the story went, is to get an extension of their lines to St. Louis.

## THE AMERICAN APPRAISAL COMPANY

Chicago - 38 South Dearborn Street  
A NATIONAL ORGANIZATION

## Illinois Power and Light Corporation

\$6 Cumulative Preferred Stock

No Par Value. Issued fully paid. Preferred as to assets on voluntary liquidation at \$110 per share and accrued dividends, on involuntary liquidation at \$100 per share and accrued dividends and as to cumulative dividends of \$6 per annum. Dividends payable quarterly, February, May, August and November, in whole or in part on any dividend date upon 60 days' notice at \$110 per share, plus accrued and unpaid dividends. Total authorized issue 600,000 shares, to be presently outstanding 364,740 shares. This stock ranks equally, except as to dividend dates and the fact that it is without par value, with an authorized issue of 70,000 shares of 6% Cumulative Preferred Stock (\$100 par), of which 46,500 shares are to be presently outstanding. Dividends free from present normal Federal Income Tax.

### EXEMPT FROM PERSONAL PROPERTY TAX IN ILLINOIS

Transfer Office:  
Office of the Corporation, 231 South La Salle Street,  
Chicago, Illinois

Registrars:  
Central Trust Company of Illinois,  
Chicago, Illinois

Mr. Clement Studebaker, Jr., President of the Corporation, has summarized his letter of April 30, 1928, to the bankers, to which reference is made for further information, as follows:

**Business and Territory:** Illinois Power and Light Corporation, an Illinois Corporation, owns and operates electric power and light, gas, heat and city railway properties in a large number of the most populous and prosperous municipalities in Illinois. The Corporation also operates, through a subsidiary, an extensive system of trunk line electric railroads in Illinois and is acquiring the entire capital stock of Illinois Terminal Company, a very profitable steam railroad, for the purpose of consolidating these properties into a single operating system. In addition, the Corporation also owns all of the Common Stock of The Kansas Power and Light Company, which operates public utility properties in northeastern Kansas, and of Des Moines Electric Light Co., which operates the electric utilities in Des Moines, Oskaloosa and other communities in Central Iowa, and of other utility companies.

The business of the Corporation and its controlled companies includes service rendered to more than 470 municipalities, embracing a population of 1,225,000. The electric power and light properties have a generating capacity of over 237,750 k.w., and serve, without competition, over 259,000 customers. The gas properties with a generating capacity of over 31,480,000 cubic feet of artificial gas a day serve also, without competition, over 122,000 customers.

The principal portion of the electric trunk line railroad system, which has over 550 miles of main line track, connects a large number of cities of Illinois with St. Louis, which it enters over its steel toll bridge, into its own terminal in the heart of the city. The city railway and bus properties include over 235 miles of routes.

**Growth of Business:** The steady growth of the business of the Corporation is indicated by an increase of 200% in electric power generated and purchased from 219,625,851 k.w. in 1916 to 653,670,000 k.w. in 1927. Gas output has increased in this period 124% from 1,405,292 to 3,147,459 thousand cubic feet. Gross earnings from 1916 to 1927 have increased from \$12,566,447 to \$31,239,965 or 149%.

Over 78% of the consolidated net earnings are derived from electric light and power, gas and miscellaneous sources other than transportation.

**Purpose of Issue:** This issue of 364,740 shares of \$6 Cumulative Preferred Stock will be used to retire \$33,000,000 7% Cumulative Preferred Stock of the Corporation. This financing will effect a material saving to the Corporation in dividend charges on Preferred Stock.

### CONSOLIDATED EARNINGS

(Twelve Months Ended February 28th and February 29th)

	1927	1928
Gross Earnings from Operation	\$31,488,881.35	\$34,251,561.62
Operating Expenses, Maintenance and Taxes*	19,368,994.24	20,593,482.74
Earnings from Operation	\$12,119,887.11	\$13,658,078.88
Other Income less Rentals		47,135.98
Total Net Earnings	\$12,119,887.11	\$13,705,214.86
Interest on Bonds and other Indebtedness and Dividends on Preferred Stock of Subsidiaries		6,817,762.62
Balance available for Bond Discount, Depreciation and Dividends		6,887,452.24
Interest on 364,740 Shares \$6 Cumulative Preferred Stock and 46,500 Shares 6% Cumulative Preferred Stock		2,467,440.00

\*Not including earnings of properties recently acquired.  
\*Including Federal Taxes, subject to review of Tax Returns by Internal Revenue Dept.  
\*The earnings of Illinois Terminal Company are included for the 12 months ended January 31, 1928.

The balance available for bond discount, depreciation and dividends, as shown above, for the twelve months ended February 29, 1928, is over 2.75 times the annual dividend requirements on the 364,740 shares of \$6 Cumulative Preferred Stock and 46,500 Shares 6% Cumulative Preferred Stock to be outstanding upon completion of the present financing.

**Dividend Record:** The Illinois Power and Light Corporation has regularly paid dividends on its Preferred Stocks since issuance, and for over twenty-two years the principal companies now constituting the system have paid dividends on their Preferred Stocks without interruption.

**Valuation:** The properties, based on an appraisal as of December 31, 1927, by Messrs. Day & Zimmermann, with allowance for subsequent additions and development, less deductions and depreciation, are conservatively estimated to have a value, exclusive of working capital and other assets of \$182,817,800 as of February 29, 1928. Based on the above valuation and including other assets, and after deducting liabilities, there are assets equivalent to \$165 per share of \$6 Cumulative Preferred Stock.

We offer 300,000 shares of this Preferred Stock (74,740 shares having been reserved for exchange or sale directly by the Corporation) less such of said shares as may be issued in exchange for outstanding 7% Cumulative Preferred Stock of the Corporation, when, as and if issued and accepted by us and subject to the approval of counsel, Messrs. DeFrees, Buckingham & Eaton, of Chicago, for the Corporation, and Messrs. Breed, Abbott and Morgan, of New York, for the Bankers. Delivery is expected to be made on or about May 22, 1928, in the form of permanent stock certificates.

Price: per share \$100 and accrued dividend, to yield 6.00%

### CAPITALIZATION

(upon completion of this financing)

	Authorized	Outstanding
Common Stock (no par value)	100,000 shares	100,000 shares
The Company will have no funded debt or preferred stock.		

The following has been summarized by Mr. W. C. Coleman, President of the Company, from his letter to us:

The Coleman Lamp and Stove Company, a Kansas corporation, is the largest manufacturer in the world of gasoline lighting and heating appliances. The business was started in 1901 and in 1907 it was first incorporated with a capital of only \$25,000. It has grown to its present size largely through profits retained in the business.

Coleman gasoline pressure appliances generate their own gas from ordinary motor gasoline, bringing to rural communities and towns where artificial gas is impractical, the conveniences of city gas service. The Company's principal products are lamps, lanterns, kitchen stoves and ranges, heaters, folding camp stoves, flatirons, mantles and accessory items. They are sold under the well established trade names "Coleman," "Quick-Lite," and "Air-O-Gas," which have been advertised consistently in such national publications as Country Gentleman, Farm and Fireside, Farm Journal, Household Magazine and Farmer's Wife.

The Company has perfected, in its own research laboratories, a new process which vaporizes cold gasoline, permitting almost instantaneous ignition and eliminating the delay and inconvenience of generating gas before lighting. This improvement has met with an enthusiastic reception among jobbers and dealers who handle Coleman products and has been responsible for a remarkable stimulus to sales. Present orders on hand for lamps and lanterns are sufficient to keep them running at capacity on these items for the next six months and call for more items than were sold in the entire year 1927.

Coleman stoves and heaters were placed on the market for the first time in 1925. Until this year, owing to relatively large development expenses and limited production, no profit has been realized from this division of the business. Recently a large volume of production was reached and the margin of profit on all items is now very satisfactory, with sales running over 50% ahead of last year.

Approximately 30% of sales consist of mantles and generators used on lamps and lanterns of which some 2,500,000 are now in use, each requiring about ten or twelve mantles and three generators annually. This is a very profitable part of the business and is highly desirable because of the stable demand which exists for these accessories.

The Company's manufacturing plants are located at Wichita, Kansas, and Chicago, Illinois. Branch distributing houses are located at Chicago, Los Angeles, Philadelphia and Toronto.

The consolidated balance sheet of the predecessor company and subsidiaries as of March 29, 1928, as certified to by independent auditors, after giving effect to the present financing and the consummation of the transactions incident thereto, shows total current assets of \$2,739,545.93 compared with total current liabilities of \$676,587.18, leaving combined net working capital of \$2,062,958.75. The total net worth applicable to the 100,000 shares of no par Common Stock amounts to \$3,566,148.91.

Throughout 27 years of existence the business has shown a profit in every year. The combined net earnings of the predecessor company and subsidiaries after all charges except certain non-recurring losses chargeable to a division of the business operated recently by a subsidiary which has been dissolved, as certified to by independent auditors, have been as follows:

	Net Earnings as Above Available Share on for Common Stock	Earnings per Share on Common Stock
Period from April 1, 1927 to March 29, 1928	\$630,378	\$6.30
Year ending March 31, 1927	611,964	6.11
Year ending March 31, 1926	797,584	7.97
Year ending March 31, 1925	715,306	7.15
Average	688,808	6.88

The Board of Directors of the Company have signified their intention of placing this stock on a \$4.00 per annum dividend basis, payable at the rate of \$1.00 per share quarterly on the first day of July (initial payment), October, January and April.

## Consolidated Water Company of Utica, N. Y.

Refunding Mortgage Gold Bonds

4 1/2% Series due May 1, 1958

Price 97 1/4 and Interest, Yielding 4.67%

The following information is taken from official sources:

The Company, incorporated in 1899, supplies water for municipal, domestic, and industrial purposes in Utica and eight adjacent towns and villages.

These bonds will be secured, in the opinion of counsel, by a direct mortgage on substantially all of the fixed property, rights, privileges and franchises of the Company. Upon the retirement of \$2,948,000 First Refunding Mortgage Gold Bonds, funds for which will be deposited with the Trustee, there will remain two closed issues of underlying bonds, of which there are outstanding only \$1,492,000 in the hands of the public, and all of which mature January 1, 1930, or in less than two years time.

As officially reported for the twelve months ended March 31, 1928, gross earnings, including other income, were \$787,507 and net earnings were \$572,231, or over 2.2 times annual interest charges on the \$5,492,000 bonds to be outstanding with the public (including this issue).

We recommend these bonds for investment and shall be pleased to send circulars describing the issue in detail.

One year ago, 12.00@13.00.

Hogs declined 10¢ to 25¢ further on an erratic market yesterday, closing at the lowest point in two weeks and 35¢ to 45¢ under last Friday. Shipping orders were smallest since middle of last October, barring Saturdays and with pork products moving slowly on recent sessions, local buyers insisted on the full reduction on live hogs. Some of the 14,000 left at the close were held off of the market in hopes of some improvement late this week. General average price was forced down 15¢ further to \$9.25, with practical top at \$10.25 and a part load at \$10.25.

The largest cattle receipts of the year, barring Mondays pressed quotations down mostly 25¢, with spots 50¢ to 75¢ below high point Monday. Top steers showed the least weakness, best averaging 14.75 lb., at \$14.75. Nebraska yearlings averaging 1,041 lb., reached \$14.25. Shipping demand absorbed 25 per cent of receipts the first three days, against 23 per cent the first half of last week. Cattle receipts this week promise to exceed last week, when supplies were

largest since middle of December. Butcher stock ruled weak to 25¢ lower. Lambs sharply lower.

Lamb prices experienced about the sharpest break of the season yesterday, top Colorado falling back to \$18, with top spring lambs at \$16.55 and native springers at \$18.60. Tops from nine loads of California spring lambs brought \$17.00@18.25, with the culls at \$19.15 to packers. Aged and yearlings sheep were unchanged.

**COFFEE.**  
NEW YORK, May 2.—(AP)—COFFEE—Futures were quiet today. Rio contracts opened unchanged to 5 points lower and closed net unchanged to 7 points higher. Santos contracts opened unchanged to 5 points lower and closed net 5 points lower to 5 points higher. Spot, full Rio 7s, 10¢15 1/4; Santos 44, 22¢1/2. Cost and freight offers included Bourbon 3s and 6s at 21.00@22.40c.

**COTTONSEED OIL.**  
NEW YORK, May 2.—(AP)—COTTONSEED OIL—Markets quiet today, closing at net declines of 17 to 25 points. Sales 25,000 bbls. Prime crude, 9.00c; prime summer yellow spot, 10.65c; May closed, 10.65c; July, 10.55c; September, 10.54c; October, 10.50c; December, 10.47c.

**FLOUR BUYERS TIMID.**  
Flour buyers have been reluctant to follow the advance in wheat and purchases are confined to immediate wants. The Northwest Miller says that users of flour who have allowed their stocks to run too low have consequently been forced into an unprofitable market. Soft wheat millers find their situation increasingly difficult, as the premium on cash wheat continues to soar.

**Federal Water Service Corporation**  
Notice of Dividend on CLASS A STOCK

The Board of Directors of Federal Water Service Corporation has declared a quarterly dividend of 30¢ per share on Class A Stock for the period ending May 31, 1928, payable June 1, 1928, to stockholders of record at the close of business on May 8, 1928.

Holders of Class A Stock may apply this dividend to the purchase of additional shares of Class A Stock at the rate of 1/50 of a share for each share held; this being at the rate of \$25 per share for additional stock purchased. The Class A Stock is now selling on the market at approximately \$35 per share.

Unless advised at or before the close of business on May 18, 1928, that the stockholder does not elect to exercise the right to subscribe for additional Class A Stock, and requests that the dividend be paid in cash, certificates for Class A Stock and/or non-dividend bearing scrip certificates therefor, will be issued to each holder of Class A Stock.

WALTER A. CULIN, Secretary.

## 12TH ST. STORE TO MAKE PUBLIC STOCK OFFERING

Another large Chicago department store will become publicly owned through stock ownership as a result of the offering, probably tomorrow, of 40,000 shares of class "A" stock with stock purchase warrants of the Twelfth Street Store, entitling the holders to purchase one share of common stock for each share of "A" stock held.

The common stock will be purchased at \$14 a share until Jan. 1, 1929 and at increasing prices until 1940. The "A" stock and the warrants were listed on the Chicago stock exchange yesterday.

An issue of 100,000 shares of the Coleman Lamp and Store company no par common stock was also listed on the exchange, 25,000 shares to be offered today at \$57 a share. Other issues listed for trading are 100,000 shares of no par common and 70,000 shares of 6 1/2 per cent cumulative preferred stock of the Spiegel, May, Stern company and \$1,250,000 of 8 per cent sinking fund bonds of the Chicago Artificial Ice company.

**COTTONSEED OIL.**  
NEW YORK, May 2.—(AP)—COTTONSEED OIL—Markets quiet today, closing at net declines of 17 to 25 points. Sales 25,000 bbls. Prime crude, 9.00c; prime summer yellow spot, 10.65c; May closed, 10.65c; July, 10.55c; September, 10.54c; October, 10.50c; December, 10.47c.

**FLOUR BUYERS TIMID.**  
Flour buyers have been reluctant to follow the advance in wheat and purchases are confined to immediate wants. The Northwest Miller says that users of flour who have allowed their stocks to run too low have consequently been forced into an unprofitable market. Soft wheat millers find their situation increasingly difficult, as the premium on cash wheat continues to soar.

**Federal Water Service Corporation**  
Notice of Dividend on CLASS A STOCK

The Board of Directors of Federal Water Service Corporation has declared a quarterly dividend of 30¢ per share on Class A Stock for the period ending May 31, 1928, payable June 1, 1928, to stockholders of record at the close of business on May 8, 1928.

Holders of Class A Stock may apply this dividend to the purchase of additional shares of Class A Stock at the rate of 1/50 of a share for each share held; this being at the rate of \$25 per share for additional stock purchased. The Class A Stock is now selling on the market at approximately \$35 per share.

Unless advised at or before the close of business on May 18, 1928, that the stockholder does not elect to exercise the right to subscribe for additional Class A Stock, and requests that the dividend be paid in cash, certificates for Class A Stock and/or non-dividend bearing scrip certificates therefor, will be issued to each holder of Class A Stock.

WALTER A. CULIN, Secretary.

(TOTAL ISSUE)

## Department of Akershus

(Akershus Fylke)

NORWAY

### Thirty-five Year 5% External Sinking Fund Gold Bonds

To be dated May 1st 1928

To Mature May 1st 1963

Not redeemable before May 1st 1933

Interest payable May 1st and November 1st. Coupon bonds in the denomination of \$1,000, registrable as to principal. Principal and interest payable in New York City at the office of Brown Brothers & Co., Fiscal Agents for the loan, in United States gold coin or of equal to the present standard of weight and fineness, without deduction for Norwegian taxes. Redeemable on May 1st 1933 and on any interest date thereafter as a whole or in part on thirty days' notice at par and accrued interest. Cumulative sinking fund beginning May 1st 1933 calculated sufficient to retire the entire issue by maturity, operating semi-annually by drawing by lot for redemption at par and accrued interest. The Department reserves the right to deliver bonds to the sinking fund at principal amount in lieu of cash.

The issue of these bonds has been officially approved by the Norwegian Government.

The following information has been received from Hroar Olsen, Esq., Governor (Fylkesmann) of the Department of Akershus; having been transmitted by cable, it is subject to correction:

**Importance.**—Akershus is one of the richest and most densely populated departments of the Kingdom of Norway. It is situated in a fertile agricultural section and completely surrounds the City of Oslo (a separate political division), the capital and largest city of the Kingdom. The area of the Department is 2,059 square miles, or slightly larger than the State of Delaware, and the population is 205,121. In the districts of Akershus adjoining the City of Oslo there is a large and rapidly growing industrial development. These districts, together with the City of Oslo, form a metropolitan area which is the industrial and commercial center of the nation.

**Credit.**—The credit of Akershus has always ranked high and, prior to the war, loans of Akershus carried rates of interest from 3% to 4%. The bonds of Akershus are now quoted in Norway at approximately the same market prices as those of the City of Oslo and actually higher than the bonds of the City of Bergen. There is no record of default by the Department on any of its debt.

**Purpose of Issue.**—The proceeds of the present issue will be used to retire internal obligations of the Department and bearing interest at 6 1/2% as compared with 5% on the present loan.

**Obligation.**—The Thirty-five Year 5% External Sinking Fund Gold Bonds will upon issuance constitute the only external obligation of the Department. They will contain a covenant that if while any of the bonds are outstanding the Department shall create or issue or guarantee any loan or bonds secured by lien on any of its revenues or assets or assign or charge any of its revenues or assets as security for any guaranty of any obligation, the present issue of bonds will be secured equally and ratably with such other loan or bonds or such guaranty. No loan of the Department is specifically secured.

**Debt.**—As of June 30th 1927 the total funded and floating debt of Akershus was \$18,711,000, of which \$18,070,000 was funded debt. Since that time there has been no increase in the funded debt and no appreciable change in the floating debt. Against this debt the Department owns property valued at approximately \$19,000,000. Of this amount \$17,500,000 represents the value of revenue producing electric power properties which supply light and power in the entire Department, including the important industrial area.

**Revenues and Expenditures.**—Actual receipts of the Department, not including funds borrowed, have exceeded expenditures in each of the five fiscal years ended with June 30th 1927, except in one year when there was a deficit of \$21,000. Over the entire five-year period such receipts exceeded expenditures by \$165,970. The budget of the Department for the fiscal year ending June 30th 1928 shows receipts equal to expenditures without borrowing. The principal source of income is from taxes levied by the Department on its rural subdivisions (which comprise the population above stated). This normally accounts for about 60% of the total income. Of the remainder, about 30% is represented by the Department's share in the general taxes levied by the National Government.

**General.**—Total taxable property values in Akershus, including both real and personal property, amount to \$225,000,000. For the year ended June 30th 1927 the total income of the Department's inhabitants aggregated \$68,740,000. There are about 250 miles of standard gauge railway in Akershus, or more than in any other Department in Norway. These railways radiate from Oslo and include main trunk lines, some of which are electrically operated, connecting that city with Bergen, Trondheim and other important traffic centers. The Department is also served by a comprehensive system of motor bus lines and by electric light and telegraph and telephone systems. A substantial part of its territory borders on tidewater and the Department occupies an important position in the foreign trade of the Kingdom. The Department has a substantial production of oats, wheat and other products of agriculture. Total value of the harvest in 1926 was \$8,400,000. Timber is also among the important products of the Department, and its industries include the manufacture of paper, wood pulp, leather, textile goods, machinery and other metal products.

In the foregoing kroner have been converted into dollars at par of exchange (\$3.28 to the kroner).

We offer the above bonds when, as and if issued and received by us and subject to the approval of our counsel, Messrs. Sullivan & Cromwell, New York, and of counsel in Norway, Mr. Alexander Nansen of Oslo. It is expected that delivery will be made in form of temporary bonds or interim receipts on or about May 25th 1928.

Price 97 1/2 and interest to yield about 5.17%

## HOUSTON GULF GAS COMPANY

### 6 1/2% Sinking Fund Gold Debentures

With Stock Purchase Privilege

Due April 1, 1943

Dated April 1, 1928

Principal and interest payable in United States gold coin at the principal office of the Trustee in the City of New York. Interest payable April 1 and October 1. Coupon Debentures in denominations of \$1,000 and \$500, registrable as to principal. Redeemable as a whole or in part on any interest date at the option of the Company on not less than thirty days' published notice at 105 and accrued interest on or before April 1, 1933, the premium decreasing 1/4 of 1% for each twelve months or fraction thereof elapsed thereafter.

The Company agrees to pay interest without deduction for any Federal income tax not exceeding 2% per annum which the Company or paying agent may be required or permitted to pay at the source and to refund upon timely and appropriate application, as provided in the indenture, all payments of interest and principal made by the Company or its agents in the District of Columbia, not exceeding in any year six mills for each one dollar principal amount, and all income taxes of any such State or such District not exceeding in any year 6% of the income derived from the Debentures.

SINKING FUND IS ESTIMATED TO RETIRE THESE DEBENTURES BY MATURITY

Each \$1,000 Debenture (\$500 denomination in proportion) will carry a non-detachable warrant entitling the holder to purchase prior to April 1, 1930, five shares of the Common Stock of the Company at \$17.50 per share; or thereafter prior to April 1, 1932, at \$20.00 per share; or thereafter prior to April 1, 1934, at \$25.00 per share; or thereafter prior to April 1, 1936, at \$30.00 per share; or thereafter prior to April 1, 1938, at \$35.00 per share. In the event that the Debentures are called, the stock purchase privilege may be exercised prior to April 1 or October 1 next following the redemption date.

These Debentures will be convertible at par into the Company's 7% Cumulative Preferred Stock, Series B, after January 31, 1931 (unless called for prior redemption) and the Company has covenanted to create a sufficient amount of such preferred stock for such purpose prior to that date.

GUARANTY TRUST COMPANY OF NEW YORK, Trustee

Mr. O. R. Seagraves, President of the Company, has made the following summary of his letter to us:

**BUSINESS:** Houston Gulf Gas Company, a Delaware corporation, and its subsidiaries produce, transport and distribute natural gas. In point of territory, volume of gas sold, and extent of gas reserves, it is one of the leading natural gas systems in the United States. The Company, through its subsidiaries: (a) Houston Gas and Fuel Company, distributes gas in Houston, Texas; (b) Southern Gas Company supplies gas for distribution in San Antonio and distributes directly to many customers outside the limits of San Antonio; (c) Southern Gas Utilities, Inc., distributes gas in New Braunfels, Seguin, Hondo, D'Hanis and other communities west and northeast of San Antonio and serves important industrial enterprises in this territory; also supplies gas for distribution in Brownsville, San Benito and other communities along the lower Rio Grande Valley; (d) Western Gas and Fuel Company, supplies gas for distribution in Austin, the capital of Texas; The Company supplies gas directly, for boiler fuel to Houston Lighting and Power Company, the electric company in Houston, and supplies directly Sinclair Refining Company, Texas Portland Cement Company and other large industrial consumers in and around Houston.

**TERRITORY:** The territory supplied is the center of a district rich in cotton, oil, sulphur, lumber, fruit and produce. Its population, which is growing rapidly, is estimated to be in excess of 650,000. Houston and San Antonio, both important railroad and commercial centers, are two of the largest cities in Texas. Houston, with the development of its ship channel to the Gulf of Mexico, is now one of the important seaports of the South, while San Antonio is the most important commercial gateway to Mexico.

**PROPERTY:** Houston Gulf Gas Company will own, upon completion of this financing, the entire common stock of Houston Gas and Fuel Company and over 93% of the outstanding common stock of Southern Gas Company, which owns over 83% of the outstanding common stock of Southern Gas Utilities, Inc., and 100% of the stock of Western Gas and Fuel Company. The Company has valuable gas purchase contracts with Dixie Gulf Gas Company and others extensively augmenting and diversifying its gas resources, and together with its subsidiaries, has leases or gas purchase contracts covering over 300,000 acres of land in South Texas, has 232 producing wells in 14 separate gas fields with total proven gas reserves estimated in excess of 275,000,000 cubic feet, and has 1,344 miles of pipe lines and 5 compressing stations, aggregating 6,260 h.p. In the opinion of Ralph E. Davis, Engineer, the property and assets of Houston Gulf Gas Company and subsidiaries have a value not less than \$38,000,000.

**EQUITY:** These Debentures will be a direct obligation of Houston Gulf Gas Company and will be followed by \$2,500,000 7% Cumulative Preferred Stock, and 449,102 1/2 shares of outstanding Common Stock, as of April 21, 1928. This equity has a present indicated market value of approximately \$10,000,000.

**EARNINGS:** Consolidated earnings of Houston Gulf Gas Company for the twelve months ended December 31, 1927, and of subsidiaries, as presently constituted, for the periods indicated below have been certified to by Arthur Andersen & Co. Such earnings, adjusted to give effect to elimination of certain non-recurring expenses aggregating \$70,000 and to prior charges, are as follows:

Gross Revenues (including Other Income)	\$5,539,026.26
Operating Expenses, Maintenance and Local Taxes (including charges of \$447,063.52 for abandoned wells and forfeited leases)	2,641,390.71
Balance	\$2,897,635.49
Net Earnings available for interest charges of Houston Gulf Gas Company after deducting bond interest and preferred stock dividends on subsidiary companies together with earnings accruing to minority stock but before Federal taxes, amortization charges and reserves for depreciation, depletion, etc.	2,080,885.53
Annual interest on \$11,000,000 First Mortgage and Collateral 6% Gold Bonds	660,000.00
Balance	\$1,420,885.53
Annual interest on \$8,000,000 6 1/2% Sinking Fund Gold Debentures (this issue)	\$520,000.00
Balance	\$ 900,885.53

The above consolidated earnings include Houston Gulf Pipe Line Co. for the six months from date of organization to December 31, 1927; Houston Gas and Fuel Co., Southern Gas Co. and Western Gas and Fuel Co. for the twelve months ended January 31, 1928, and Southern Gas Utilities, Inc., for the nine months from date of organization to January 31, 1928.

**PURPOSE OF ISSUE:** Proceeds from the sale of these Debentures, \$11,000,000 Bonds and \$1,500,000 Preferred Stock, will be used to retire the Company's present funded debt; to acquire the common stocks above referred to of Houston Gas and Fuel Company and Southern Gas Company, and the properties of Houston Gulf Pipe Line Company; for working capital and for other corporate purposes.

These Debentures are offered when, as and if issued and received by us, subject to the approval of stockholders and of counsel. All legal matters in connection with this issue will be passed upon by the Bankers by White & Case and for the Company by Vinson, Kilian, Sweeten & Weems, of Houston, Texas, who will also pass upon titles to Texas property and all other matters of Texas law. Engineering reports by Ralph E. Davis, Engineer, and James O. Lewis, Geology reports by Ralph E. Davis, Brokaw, Dixon, Garner & McKee and James O. Lewis. Audits by Arthur Andersen & Co. is expected that Temporary Debentures or Interim Receipts will be ready for delivery on or about May 15, 1928.

## STEEL OUTPUT IN 1927 MARK

BY O. A. MATHER.

While steel production has definitely turned downward in the last week, the demand has been so well sustained that the seasonal recession in operations is about a month later than usual this year. Moreover, only a fractional decline in output has occurred in the last week.

The United States Steel corporation still is around 90 per cent of capacity and independents are working at 80 per cent. Most of the large companies also have sufficient forward business to maintain operations around present levels for several weeks. In fact, the industry as a whole is more active than a year ago, the average now standing at 85 per cent of capacity, compared with 81 per cent on May 1, 1927. This is due largely to greater activity of the independent plants.

Dividend News Optimistic.

Dividend news and gossip was cheering to stock market speculators yesterday.

Gen. James G. Harbord, president of the Radio Corporation of America, told the stockholders that "prospects are good for an initial dividend on the common stock, owing to good business and broadening activities." The Radio Corporation and the Radio Corporation of America are making loans on exceptionally well located apartments and business property at 5%. Also in market for good mortgages at 6%. Lowest commission rates.

## NEW ISSUE

\$1,000,000  
Weil-McLain Company  
5% Serial Gold Notes

To Be Dated May 1, 1928 To Mature Serially May 1, 1929-35, incl.

History and Business: The Weil-McLain Company was organized in 1920 to succeed to and consolidate the business of Weil Brothers and J. H. McLain Company, established in 1891 and 1881, respectively. The Company is engaged in the manufacture and wholesale distribution of heating and plumbing supplies and has plants in Chicago, Ill., Michigan City, Ind., and Erie, Pa.

Earnings: The business has earned a net profit in every year since its inception of 37 years ago. In each of the five years 1923-27, inclusive, net earnings of the Company, after all charges including interest paid, but before Federal income taxes, as independently certified, have been not less than 8 times the maximum annual interest requirement on this issue. Such net earnings for the year ended December 31, 1927, as independently certified, were \$401,206. In the last 7 year period, 1921-1927, inclusive, the net worth of the Company has increased \$2,242,814, entirely from earnings left in the business after the payment of liberal dividends.

Assets: These 5% Serial Gold Notes will be direct obligations, and the only funded indebtedness of the Company. The audited balance sheet of the Company as of December 31, 1927, but after giving effect to this financing, shows net tangible assets of \$4,441,730 applicable to these notes, equivalent to \$4.41 per \$1.00 Note, and net current assets of \$2,325,322, or 230% of this total issue.

Purpose of Issue: The proceeds of this note issue will defray the cost of recent additions to the Company's plants and will provide additional working capital.

These notes are offered for delivery when, as and if issued and received by us, and subject to approval of legality by Messrs. Meyer, Mayer, Austin & Platt, counsel for the bankers and Messrs. Ringer, Wilbur & Hirsch, counsel for the Company.

Maturities and Prices  
\$140,000 Due each May 1, 1929-1934 inclusive and \$160,000 due May 1, 1935  
Prices to Yield approximately 4.75% to 5.40% according to maturity

# Antoinette Stars Cleanliness as a Major Beauty Asset

"She makes me think of clover and a spring day in the country—so fresh, clean and sweet."

The compliment was from an older woman to a young one. Not an especially pretty girl, the latter—but all way fresh, clean and sweet. Which is sufficient to carry a girl anywhere she wants to go. Every little detail of person and dress perfect—that's the girl. Nails, gloves, hankies, bonnet, dress, heels, stockings, teeth, skin and hair just right. A teasing bit of perfume, faint, elusive. A handbag when opened, span, and orderly. But above all, a freshly tubbed air.

Unless one is born with a deformity there isn't a reason why such a compliment cannot be earned.

My theory about beauty isn't that every woman can make a ravishing creature of herself. I mean she can't be a great, outstanding beauty unless she has been especially endowed. But so many more women could be so much more beautiful than they are if they'd use the advantages that are so close at hand.

This feature of exquisite cleanliness

is one of them. The beautiful thing about babies isn't their little button noses, nor their undeveloped eyebrows, nor their rounded little stomachs. It's the pure joy of freshness they exude after their bath and powdering—their clean little dimpled cheeks, their white teeth and healthy gums and tongue.

While one can't quite recapture that childish charm, one still can be beautifully fresh and clean in person and in dress. It is the one great beauty gift to be had for the asking. Life is never so hard that we cannot earn a cake of soap and a tub of water. According to our means, we may provide accessories after the bath, but the soap and water remain the fundamental ingredients of this beauty prescription.

It's axiomatic that if one does become an enthusiast or a crank, if you will, about her person, her dress, her surroundings, everything the woman touches reflects that genius for taking pains with herself. This fresh cleanliness we speak about does mean taking pains with one's self. But what are a few such pains if it is going to raise one up on the pedestal reserved for charming womanhood.

**BEAUTY ANSWERS**  
MRS. H.: WHOLE GRAIN CEREALS furnish iron, also dried fruits, such as raisins, figs, and dates, but the best sources of iron are eggs, especially the yolks, and green vegetables, such as spinach and lettuce.

# Girls! Exquisite Charm Ahead; Read Lady Esther's Free Offer

Get Your 25-Cent Proof Jar of Lady Esther 4-Purpose Face Cream Free at All Good Drug and Department Stores.

## Get It Today

Lady Esther believes that actions speak louder than words. She actually wants to prove to you what her face cream can do. As a result, she is giving a special offer—a very generous offer of a 25-cent proof jar of Lady Esther Four-Purpose Face Cream free.

All Lady Esther asks is the chance to prove to you what she has already proved to 100,000 happy Chicago women—that even after the first application of Lady Esther Face Cream, your complexion is radiant with youth and beauty—your skin is as smooth as the softest velvet.

And won't you be positively delighted when you hear this? Lady Esther Four-Purpose Face Cream eliminates all vanishing and cleansing creams, all skin foods and cleansers. Isn't it wonderful? In one application (takes only three min-

utes) Lady Esther cleanses, removes and tightens the skin—and gives an excellent base for your powder and rouge.

Look at all the time and money you've been wasting—when three minutes with Lady Esther would give you such enchanting and beautiful results.

Since Lady Esther has been so kind to have special sized jars prepared in order that she can demonstrate to all the instant beautifying qualities and the efficiency of her face cream—be fair to her.

Go to any good drug or department store in Chicago and you will get a 25-cent proof jar free with the purchase of any regular size jar (days)—then if you don't say it is the most wonderful beautifying cream you ever used, return the regular sized jar and get your money back. Regular sizes 50c and 75c. Economy size \$1.25.

If your dealer cannot supply you, Lady Esther, 5720 Armitage Ave., Chicago, will mail you any size jar you desire on receipt of price, and send you the 25-cent proof jar free.

## Wild Young Moderns Take to Roller Skates as Latest Dissipation

BY THALIA

Come one, come all, with your pratling about the fast, unprincipled, and heedless pace at which the younger generation is heading for perdition and liking it, because I have the loveliest argument with which to combat the tirades of the pessimists. In your wild young dreams, you fancy any association between roller skating and viciousness, now, can you? Well, it seems, that a group of the gay and attractive modernists of Lake Forest have organized a "Roller Skate Hunt," and for the last several Sunday mornings, a party has gathered bright and early at the Vine and Greenway road for a good rousing skate for an hour or so. The Albert Pattous, Mr. and Mrs. Robert S. Sturgis, the Bob McCrorys, the David Pecks, the Robert Hoses, and Mr. and Mrs. Secor Cunningham, Jr., are among the original devotees of this engaging sport. They started out, most of them, expecting to be as proficient on the rollers as they were when they were in their early teens, and found that they really weren't so awfully good at it. Almost everybody took a tumble, or so, but that was part of the fun. Their customary route is along Greenway road to Oaklands, then east to the railroad tracks, north to Vine and back to the Pattous' corner. They are rapidly getting beyond the skinned knee stage of the game. It may be that the sight of Daddy stretching his length on the cement is compensation to many a small girl or boy for having to surrender his means of perambulation to a stern parent who would a skating go.

Miss Louise Carr and a group of her sister debutantes, including Miss Mary Barnes, Miss Eleanor Denney, Miss Barbara Neff and Miss Jessie Homer, are to model French negligees by Babani at an exhibit the Women's Exchange is to have next Monday, Tuesday, and Wednesday. The exhibit will be served, and the exhibit will be on from 9 in the morning until 5 in the afternoon.

I find many interesting names on the committee lists for the social activities in connection with the 78th annual meeting of the Illinois State Medical society, May 8 to 11. Mrs. Charles Spencer Williamson is chairman of the committee on entertainment for the wives of physicians attending. The events include a tea at the Medical and Dental Arts club on Tuesday afternoon; a luncheon and fashion exhibit at Field's on Wednesday, with Mrs. William Allen Pusey as chairman of the committee in charge; a reception and song recital at the Fortnightly on Wednesday afternoon, with Mrs. James Murray Washburn in charge; and on Thursday afternoon, a tea and tour of Ida Noyes hall at the U. of C., planned by Mrs. Wilber E. Post.

Sorry, you un- and wit-tedly omitted Miss Daisiana Smith from Miss Edwena Love's wedding party for her marriage to James Otis on June 3. Miss Smith and Miss Love were co-debutantes a year or so ago.

Mrs. Robert B. Gregory of 1638 Prairie avenue and Mrs. Lynden Evans of 1440 Astor street sail on May 19 for Europe. Mrs. Gregory will be accompanied by her son-in-law and daughter, the Robert Sweeters of Geneva, Switzerland.

Mr. and Mrs. Frank Hibbard are back in their retired life at 1344 East street, which was occupied by the Otto Lehmanns during their absence. The Hibbards took the Mediterranean cruise and stayed at the Ambassador East on their return. They will be in the house at Watch Hill, R. I., for the summer.

Mr. and Mrs. Daniel E. McCarthy and Miss Gertrude McCarthy of the Lake Shore Drive hotel are making their customary spring visit at Virginia Hot Springs, where they have been joined by Mr. and Mrs. Daniel Fendrich McCarthy of Evansville, Ind. Mr. and Mrs. Quentin H. Gilbey, who have been with Mrs. Gilbey's parents, Dr. and Mrs. Otho Fisher of 1305 Ritchie court, for the last several months, where they have been taking the cure, and are sailing this week to establish a permanent residence in London.

The Graham Aldises of 100 East Chicago avenue and their four babies have moved out to Lake Forest and are occupying the "big house" on the Aldis compound.

Mr. and Mrs. John S. Conoley of 1241 Astor street have returned from their sojourn in Honolulu and will go to New Hampshire in the latter part of June.

## Skinny, "Lifeless" Women Gain Weight

Gain pounds of weight with new YEAST and IRON in 3 weeks—or pay nothing

**"Gained 6 lbs. and Feels Better Than in Years"**

If we could only show you the wonders Ironized Yeast has done for thousands of men and women. The body hollows that have filled up with fat, stringy necks and bony limbs gain rounded beauty! Pimples, boils and blotches have disappeared for good.

**How Yeast and Iron Builds Quick Flesh and Health**

Ironized Yeast is a wonder in one—weight-building Yeast and strengthening Iron. The yeast is the same used in making malt, and is specially cultured yeast, concentrated to give the utmost in food-producing value.

This Yeast is treated with pure, vegetable iron, the same as in spinach, lettuce and celery. In this form iron is easily assimilated by the body, making rich, red blood and toning up nerves and muscles.

Only when Yeast is broken in to iron is it more effective. For iron is needed to bring out the weight-building, strengthening value of Yeast. By this special formula Ironized Yeast gives you more than half the time required by yeast or iron taken separately.

Go to your druggist and get a handy bottle of Ironized Yeast today. Just a single course of treatment will prove that you can be attractive and healthy. They do not cause gas or bloating. Safe for everybody—containing no harmful drugs.

**Try It on "Money Back" Offer**

Just ask your druggist for a full size treatment. If you are not delighted get your money back. It will be refunded immediately. If inconvenient to refund from druggist, money back \$1.00 direct to the Ironized Yeast Co., Atlanta, Ga., Desk 146-7.

**CAUTION!** While the amazing health-building value of IRONIZED YEAST tablets has been clearly and positively demonstrated in cases of lack of energy, indigestion, constipation, skin eruptions, poor complexion, and a generally weakened physical and mental condition, IRONIZED YEAST should not be used by anyone who objects to having their blood changed to a normal—Red—Color.

## Vandals in the closet

VANDALS that ruin your clothes—greedy, hungry moths! They do all the damage—flying moths, eat nothing! Insect-killers, moth-balls, tar-bags and cedar chests won't stop moths from eating! But Larvex will, because it mothproofs the cloth itself! Guaranteed by Good Housekeeping Magazine. Odorless, non-injurious and non-inflammable. Larvex comes in two forms. Spraying Larvex and Rinsing Larvex. Use Spraying Larvex for clothes, furniture, etc. Costs as little as pinning—enough to thoroughly mothproof two suits, only \$1.00. Simply spray it on and they are mothproofed for an entire year.

Use Rinsing Larvex for all washable woollens—blankets, sweaters, wool hose, baby garments, etc. Easy as rinsing! Dissolve in water—put woollens in—and they're completely mothproofed until washed again. A \$1.00 package mothproofs all the washable woollens of the average family. Sold by drug and department stores. Spraying Larvex, pints, \$1. In combination with special stonizer, \$1.50. 1/2 gallon, \$3. Gallons, \$5. Rinsing Larvex, package of 4 tubes, \$1. The Larvex Corporation, 250 Park Avenue, New York, N. Y.

## Alumnae of St. Angela Sponsor Concert Here

A Chicago alumnae of St. Angela's academy of Morris, Ill., are sponsoring a concert to be given at the De Paul auditorium, Webster avenue and Ogden street, on Sunday afternoon by twenty-five girl students from their alma mater. Proceeds of the entertainment will go for building purposes, a new wing to the school being planned. Mrs. M. J. Wilkinson is one of the members of the committee in charge.

All but one of the musicians who will participate are girls less than 16 years old. One of the most remarkable in the group is Beatrice Sherman, a 12 year old girl who directs a chorus of trained voices that has attracted much favorable comment. The youthful director is also an advanced student of cello, piano, and harmony. Miss Margaret Lynch, 16, a soprano soloist, has also won much praise for her voice.

A feature of the concert will be the presentation of one act from the opera "Rigoletto."

## Theta Sigma Phi to Have Annual Matrix Banquet

Inez Haynes Irwin, president of the Authors' guild of the Authors' League of America, will be the chief speaker at the fourth annual Matrix banquet of Alpha Beta chapter of Theta Sigma Phi of Northwestern university on May 15 at the Orrington hotel. Marion Strobel Mitchell, Chicago poet, will give a reading. Genevieve Forbes Herriek of The Tribune will preside at the banquet. Grace Chouinard, president of the chapter, is one of the members in charge of the arrangements.

## NEW YORK SOCIETY. Trifling with Sugar.

In the two page introduction to the newest cook book there is this: "It may also be considered strange to find sugar mentioned in recipes where its presence seems unexpected. The use of a very small quantity of sugar—one lump—helps to mitigate harshness of taste, without actually sweetening the food. No one should be prevented by traditional prejudice from using this small amount of sugar, but should let the result justify the experiment which will be new to many."

I have not had time to discover when this has been used unexpectedly in the author's recipes, but I know that many salads are improved by the least bit of sugar, while if you mention the fact to some men epicures they are as impatiently horrified as a true southerner is when you say sugar in corn bread. Yet this same sugar in corn bread makes it take a better brown, and so it is crispier, an ideal thing. As for me there are corn breads in which I think it is absolutely essential, and others from which it should be omitted. I fancy the "true southerner" thinks only of the latter sort, but one could use up many words discussing the matter.

A tiny bit of sugar in the baking powder biscuits, and even in pie crust, will promote browning and so make these more delicious—more flavorful—than when this brown is got in a harder way.

Sugar is indispensable in mint sauce, whether it is made with or without vinegar, and all the ways the Italians have of cooking vegetables—"agrodolci," which means "sweet-sour," requires the bit of sugar. A tiny bit of sugar with corn and peas may make them seem more like what they should be. A cold-slaw with the least bit of sugar in the dressing, or over it before the dressing is added, will take away a rank taste such as is sometimes present in slaw.

Many a child would learn to eat French dressing if a bit of sugar was used in it. I learned to eat olive oil that way, and am glad. It was used over dainty seedling lettuce leaves, served with roast lamb, and I thought the one who made the dressing—the learned to do it in Paris—a genius.

## Americans in Paris

PARIS, May 2.—The following Americans registered today at the Paris bureau of The Chicago Tribune: Mr. and Mrs. Augustus D. Curtis, Mr. and Mrs. Charles T. Byrne of Chicago, Fred B. Towles of Downers Grove, Ill.

## Card Party of U. D. C.

Stonewall chapter of the United Daughters of the Confederacy will hold a card party and its regular meeting today at dinner house, 2806 Sheridan road.

## Curled Eyebrows Latest Foible of Paris Shebas

PARIS, May 2.—Curled eyebrows, the latest foible of Parisian shebas, have caused a mild sensation in the fashionable Avenue de la Paix, where it is learned the dealers are offering special miniature curlers to devotees of the mode. American movie stars now in Paris are eager initiators and the fad is expected to spread to America this summer.

## Club to Hear Dr. Adler.

Dr. Alfred Adler of Vienna will speak on "Individual Psychology" this afternoon at the regular meeting of the Columbia Damen club at the Edgewater Beach hotel.

## Near East Bundle Day to Be Next Wednesday

The annual and final Bundle Day of the Near East Relief will be observed next Wednesday when more than 450,000 Chicago and suburban school children will prepare bundles of clothing to be sent to the orphans in compliance with a notice sent to all school principals by William J. Boggs, acting superintendent of schools. Many of the fire and police stations will be turned into bundle stations. This is the last Bundle Day as the Near East Relief campaigns will be closed in this country within the next year.

## Winnie Winkle, the Breadwinner: Typewriting Made Easy

AND YOUR NAME IS HULDA SVENSKA? YAW AND I BAN SICK ANY TIRE OF DOING HOUSE WORK AND EVERYBODY TOLD ME TYPEWRITER WORK PAYS VARY GUIDE MONEY—

SO I BAN PRACTISING ON MINE BOSS'S TYPEWRITER MACHINE ANY I BAN PARTY GUIDE NOW SO PLEASE I WANT JOB AS STENOGRAPHER!

BUT HULDA, YOU'VE HAD NO EXPERIENCE

AND BESIDES—HOW ABOUT YOUR SHORTHAND??

DOTS RUN TING YOU DON'T HAVE TO WURRY ABOUT LADY—

BOTH MINE HANDS ARE THE SAME SIZE!!

## PATTERNS BY CLOTILDE

(Registered U. S. Patent Office.)

WOMAN'S AND MISSES' DRESS. Printed and plain silk crepe are shown in this design, the plain, being used for the chemise, collar, and sleeve bands. The attached skirt is pressed in youthful plaits across the front and attached in a pointed effect to correspond with the point in the front inset. Two surfaces of crepe satin, printed and plain silk crepe, two tones of sheer crepe, and light weight woolen with silk crepe are smart suggestions.

The pattern, 3291, comes in sizes 16 and 18 years and 36, 38, 40, and 42 inches bust measure. Size 38 requires 3 1/2 yards of 40 inch material, with 3/4 yard of 36 inch contrasting.

## WASHINGTON SOCIETY

Washington, D. C., May 2.—[Special.]—The Italian ambassador and Signora de Martino were dinner hosts tonight with the French ambassador and Mme. Claudel as ranking guests. Also in the company were the Comtesse de la Torre and Signorina de la Torre, wife and daughter of the Italian minister to Japan, who are making a short visit here.

The Japanese ambassador and Mme. Matsudaira had a large dinner tonight with the Peruvian ambassador, the Turkish ambassador, Senator and Mrs. King, Senator and Mrs. Dill, Representative Edith Rogers, Dr. and Mrs. Frederick Coville, Dr. and Mrs. Stanley Rinehart, Mr. and Mrs. Richard V. Oulahan, and Mrs. Henry C. Corbin among the guests.

Mrs. Kellogg, wife of the secretary of state, left Washington this afternoon for a visit to their home in St. Paul.

Edward T. Lewis today announced the marriage of his daughter, Margery Mason Lewis, to Hugh Kenneth Murray of Chicago, which took place in southern Maryland on April 23. The bride is a graduate of Georgetown Visitation convent and the bridegroom a graduate of Georgetown university. He is a son of Mrs. C. Robert Flynn. His father was the late Hugh Kenneth Murray of Chicago.

## Sorority May Luncheon.

The South Side Kappa Alpha Theta alumnae chapter will have its regular May luncheon at the residence of Mrs. Roger McNear of Beverly Hills at 1 o'clock today. The assisting hostesses are Mrs. John Lammend, Mrs. Hans Magnusson, and Mrs. A. K. Richter.

## Stop and Realize How Happy You Are, Before It's Too Late

*My Sister's Story*

How is it with you?  
Are you busy every minute of the day?

There's the house with all the daily routine of beds to make, meals to think out, marketing to do. There's the cleaning and the cooking and the washing of dishes.

Then, you must plan so that this afternoon you can get the children's spring coats and tomorrow, perhaps, you can run down to the stores and buy some pale yellow organdy curtains for that north bedroom. Next week there's the trip to the dentist's and late in May would probably be the best time for the second little girl's tonsils to come out.

As you mend the baby girl's china silk party frock and darn the knee of your son's knickers you figure out when his birthday will be—next week when you promise him a party. How can you—you're so busy this spring. There they are now—O, dear, and the bread tin is empty and the cookie jar—I hope you have one too.

Are you busy like this every minute of the day, your mind planning ahead and more than keeping pace with your body—too much occupied most of the time to realize that this—this very minute is life, instead of the next one just around the corner? Too much occupied with caring for the children to enjoy them, too much concerned with planning for them that you don't realize the happiness of them just as they are now, too busy cleaning your home to look lovingly at it?

Don't let yourself get caught by life's spring ten years from now, "I didn't realize how happy I was when the children were little," was always too busy working and planning. I was always looking ahead. The present was swamped in the future.

Don't do this. Instead—stop once in a while and listen to your happiness. The air is blue, the air is soft, the spring earthiness comes to you even in the city; you have work and love, and the children's voices turn to music in your ears and their faces have a different look when you stop and listen to your life. These are your happy days.

Stop every now and then to let it all come to you. Such a pause brings peace with it. Or let the realization of your present happiness run, a purple thread, through the tapestry of your days.

## FARM AND GARDEN BY FRANK RIDGWAY

White oak owners who had their trees stripped of leaves last year, as was the case with many in northern Illinois, should start their campaign early to put an end to this menace. A warning has been sent out by Dr. H. W. Anderson, pathologist of the state university's horticultural department, who finds that the defoliating pest, known as oak anthracnose, is best fought by spring sprays.

In checking up on the disease he found it was unusual to find a tree that had been attacked for several years had caused heavy damage in some sections. He thinks the value of white oaks, especially on some of the big estates in northern Illinois, justifies the expense necessary to save the trees from the blight.

It is the tree expert's opinion that the disease producing fungus lives over winter on leaves beneath the trees. Dr. Anderson says that in the spring the spores, or seeds, of this fungus are carried to the leaves of the lower branches and the infestation spreads upward. In wet seasons like it was last year the trees may be defoliated twice during the summer. Infested oaks die in part or entirely after three or four years and sometimes sooner.

Bordeaux mixture is the standard spray for the control of this disease. This expert advises applying the material when the leaves are about one-fourth grown and again within two or three weeks.

## Bright Sayings of the Children

The Tribune will pay \$5 for each child's saying printed. The story told never has been printed in any magazine or paper. It is not possible to acknowledge or return unsolicited contributions. Write on one side of the paper. Address: bright sayings to Amy Day, The Tribune, Chicago.

Little Mary was staying with a neighbor one afternoon while her mother went downtown. About ten minutes after she had gone, she came back hurriedly, having purchased some grapes for the little girl, as she knew her fondness for them.

After she had left for the second time the neighbor turned to the little girl and said, "Mary, not every little girl has such a good mother."

"No," responded Mary judiciously, "but then not every mother has such a good little girl."

## The French Are Using Heavy Corded Silk

*by Corinne Lewis*

NEW YORK.—[Special Correspondence.]—If Lanvin has her way we are all going to be part of the Ottoman empire this year. For Lanvin has made up just quantities of that heavy corded silk which the French call Ottoman and she uses it for both her separate coats and for the wraps of ensembles.

The stunning wrap we show today is one which may be construed for either afternoon or evening wear and which may be developed with equal success in either black or white Ottoman. Here it is shown in white and is adorned with the collar so reminiscent of Elizabethan days. Made of ermine, this collar stands up in the back without padding and if ever a becoming frame were devised for the face, surely it is this one under discussion.

Aside from the heavy ribbed silk that constitutes so much of the news about this coat, the silhouette is exceedingly interesting. It shows Lanvin's new trick of fitting the wrap high on the figure and making it flare from that point downward. Here is something entirely new and, as Lanvin has inaugurated so many of the smartest modes in coats during the past years, it is well to look out for it.

## EMBARRASSING MOMENTS

The Tribune will pay \$1 for every letter published on "The Most Embarrassing Moment of My Life." Address: Embarrassing Moments, Chicago Tribune. Write on one side of the paper. No manuscript returned.

**Her Error.**

One day as I was waiting along Michigan boulevard, I saw what I thought to be Maderia handkerchiefs in a window. I decided that would be a nice gift for my girl friend. I went in the store and asked the man if he had some handkerchiefs. He didn't care for the ones he showed me, so I asked to see the ones in the window.

He couldn't remember any in the window, so he asked me to show him the ones I meant. I did and he said those were cocktail napkins.

Was I embarrassed? I hurried away without thanking him for the information.

L. J.

## Are You Fagged Out By Five P. M.?

Brook Hill Acidophilus Milk creates new energy and endurance for those who tire quickly. Decay-producing germs in the intestine have been found to be an important cause of continued fatigue. These germs attack the food we eat and the poisons thus created enter the blood, making us feel tired and listless. We are always tired, listless and half-hearted. Internal poisoning, it is called, and the most effective and natural way to combat it is to drink Brook Hill Acidophilus Milk regularly. It contains no drugs or medicines, but it is charged with millions of energizing cells which drive out poison-creating germs. With the germs gone, poisoning stops. Health, energy and vitality return. Users will tell you of the wonderful results of Brook Hill Acidophilus Milk, but satisfy yourself. Write to Brook Hill Laboratories, Genesee Depot, Wis., for their interesting booklet, and drink Brook Hill Acidophilus Milk regularly. At all.

## Role of Stepmother Takes the Prize for Woes in Its Wake

*BY DORIS BLAKE.*

"I am a stepmother to three girls. One, 15, is difficult. She snaps at me. She sulks. If I advise her for her own good she is thoroughly disrespectful. I'm only her stepmother and have no control over her, she says. Her own mother wouldn't take that from her. I wouldn't, either, except for the wonderful father they have. I don't acquaint him with my manner towards me. It would only mean trouble."

"A stepmother, I think sometimes, is the hardest role a woman can take on herself. But a story of another stepmother of a real mother, but there's always that missing link where authority is concerned. I know mothers that aren't half so good as stepmothers, but at least they have the sympathy of others when children are rebellious and unmanageable. Why are stepmothers picked on? One of Them."

I agree that if a woman is choosing a role for herself that is hard from start to finish, the stepmothering business is the one to go into. If she's conscientious, she has the work and the worry, and unless she has the aid of unusual fiber, she often gets a good headache as her reward.

Where there is a rebellious girl to handle, father should be brought into the picture. There's no use trying to protect him against what might later develop into a more difficult girl to handle. After all, he is the more responsible party to her upbringing.

About two years after the woman, about two years after the married girl's father died. She took up the burden of support herself. The children were sent to a good school at a sacrifice that not many real mothers would make. This woman had good offers to marry, but she refused them on account of the children.

Relatives on the father's side, after the girls were grown into attractive young persons, took them up. They had money. They wanted the girls away, and the stepmother today is without funds and regretfully, without the sympathetic support her semi-invaluable deserves from those two children.

**DORIS BLAKE ANSWERS**

**Unfair.**

"Dear Miss Blake: Through the fault of a jealous friend my fellow and I haven't been on speaking terms. I realize I was wrong to listen to my friend and I want to make amends."

"SORRY."

Your lack of confidence has hurt him, Mr. Sorry. Form your own opinions from your association with people, and do not allow others to prejudice you against them.

## A FRIEND IN NEED BY SALLY JOY BROWN.

*Perhaps You Can Help Here.*

"After many months of misfortune in which my husband became ill and was unable to work and we had to give up our home and the children, we are again settled in a little four room flat and things are looking better. We are fairly comfortable now, but do need a couple of dressers, pillows, sheets, pillow cases, and curtains. If you can get these for us through your column we will be very grateful. At moving and housecleaning time articles discarded which would do nicely for some less fortunate family. If your work allows could be mended for these people, it would help considerably toward making them more comfortable."

Mrs. N. L.

## AUTOMOBILES-GASOLINE.

## STUDEBAKER'S MAY SALE

It Will Pay You to Investigate This Clearance

Very popular make and model. Studebaker, Nashes, Chevrolts, Chryslers, etc., stored in one tremendous clearance.

We are doing the biggest car business in our history and our floors must be cleared for the many "trade-ins" that are pouring in. This is a rare opportunity to make big savings—if you act immediately.

Our liberal term policy will be in force during this remarkable sale. The famous Studebaker Used Car Pledge your protection. 5 days' driving trial goes with every car sold.

# Doctor's Plane Crashes Into Tree During Pleasure Trip—Woman and Man Passengers Are Near Death

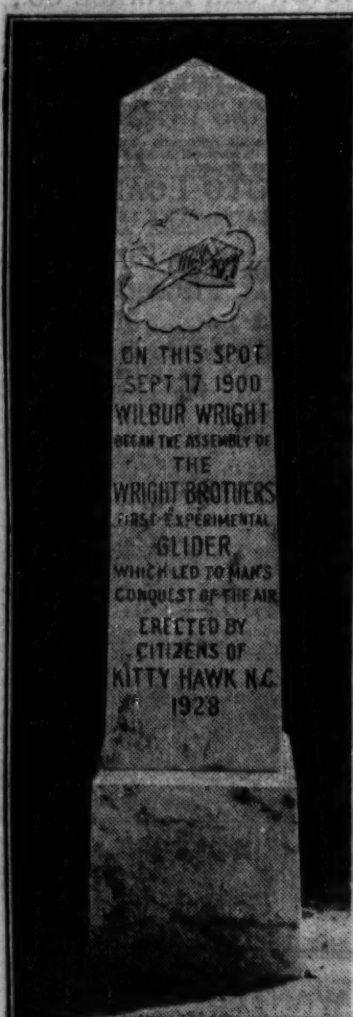

**PHYSICIAN AND PLANE IN WHICH HE FELL.** Dr. Milton Weir, 4915 Sheridan road, and machine he was piloting when he and two guests were severely injured.  
(Story on page 1.)

**WRECKAGE OF AIRPLANE IN WHICH THREE CRASHED INTO TREE.** All that was left of machine piloted by Dr. Milton Weir, which smashed into large tree on the bank of the Des Plaines river north of Des Plaines, Ill. Part of the wreckage is still in the tree.  
(Story on page 1.)

**WARD BOSS SWEARS ALL WAS QUIET IN TWENTIETH WARD ON PRIMARY DAY.** Coroner Oscar Wolff (left) and Morris Eller, Republican ward committeemen, at inquiry into murder of Octavius C. Granady, Negro lawyer, who was Eller's opponent in primary.  
(Story on page 1.)

**WRIGHTS HONORED.** Monument erected on spot where airplane inventors made first flight.  
(Associated Press Photo.)

**MOVIE STAR HERE.** Monte Blue and his wife leaving city on Twentieth Century.  
(Story on page 27.)  
(Tribune Photo.)

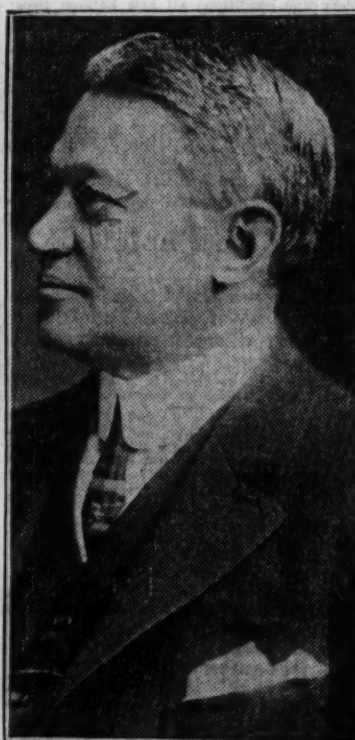

**PASSENGERS INJURED IN AIRPLANE CRASH.** Miss Dare Montgomery, 1054 George street, and Eugene Applebaum, 4924 Melrose street, both of whom may die.  
(Story on page 1.)

**SPANISH DICTATOR TO WED ORPHAN.** Primo de Rivera with Mercedes Castellanos, whom he will marry in a short time.  
(Associated Press Photo.)

**FUNERAL OF GIRL WHO WAS KILLED IN MOVING PICTURE THEATER HOLDUP MADE CIVIC DEMONSTRATION.** Crowd leaving the Osgood funeral chapel in Oak Park where services for Pearl Eggleston were held. Mayor Frank Janda of Berwyn and the city council attended in a body and official representatives from Oak Park and Chicago were present.  
(Story on page 5.)

**KILLED BY AUTO.** Louis A. Bensinger, bowling alley owner, run down near home.  
(Story on page 1.)

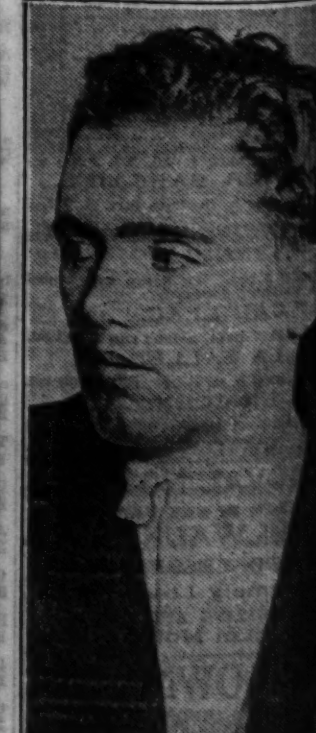

**CHICAGO'S CHINESE MERCHANTS DEDICATE THEIR NEW CHAMBER OF COMMERCE.** Scene at 2235 Wentworth avenue where the On Leong Chinese Merchants' association formally opened their new trade and social center.  
(Story on page 16.)

**PRESIDENT COOLIDGE PINS DISTINGUISHED FLYING CROSS UPON MEMBERS OF BREMEN'S CREW.** Left to right: President Coolidge, Capt. Hermann Koehl, Baron Ehrenfried Gunther von Huenefeld, and Maj. James E. Fitzmaurice. The flyers are wearing their crosses and holding the credentials which were presented to them.  
(Story on page 3.)

**HARVARD SENIORS COMPETE WITH YALE STUDENTS IN LITERARY TEST.** Left to right, front: Harold Strauss, N. M. Pusey, R. T. Sherman, E. C. Wilkins, and J. E. Barnett. Back: L. J. Wittenband, C. H. Hartwig, J. D. Merriam, G. B. Bingham, L. L. McLane, and R. T. Sharpe.  
(Wide World Photo.)

**HELD FOR MURDER.** Thomas J. Rowley, charged with killing west side hotel owner.  
(Story on page 14.)
